TREATY MAY GO INTO ELECTION CAMPAIGN

ACTS OF D'ANNUNZIO BRING THE ADRIATIC SITUATION TO CRISIS

**One Report Says Republican Undercurrent
Against Italian Monarchy Exists Among
D'Annunzio's Forces; His Annexation Plans**

London, Nov. 22.—The situation on the Adriatic as a result of Gabriele d'Annunzio's campaign has reached a grave crisis. Private advices leave no doubt that he is determined to annex Dalmatia and attack Montenegro.

The Jugo-Slavs are stated to have concentrated troops and to be prepared to resist aggression.

A still more alarming report says a Republican undercurrent directed against the Italian monarchy exists among d'Annunzio's forces. It is not known, however, whether the insurgent poet leader shares the reported ambition of his military element to attack the Government.

It is stated in the advices that further aggression by d'Annunzio will certainly precipitate hostilities with the Jugo-Slavs, who, however, it is declared, will direct their attack against d'Annunzio and not against the Italian Government.

Pressure.
A late report from Rome says the military party, which is favoring the annexation of Dalmatia, has brought such pressure to bear upon the Government that the situation is delicate.

D'Annunzio, it appears, has been stirred to further efforts by the fact that the Italian general election was unfavorable to his cause. Many adventures are flocking to his standard, the reports state, and among a certain element there seems to be a desire to make d'Annunzio President of Italy.

Still Aggressive.
Some well-informed quarters believe d'Annunzio merely desires to annex Dalmatia for Italy and has no republican ambitions. Whatever his attitude may be on this question, however, there appears to be no doubt that he has not abandoned his plans of aggression in the Adriatic.

CANADIAN WORKMEN THANKED BY KING

**Work of Munitions and Ship-
yard Men in Britain
Appreciated**

Ottawa, Nov. 22.—The thanks of King George to overseas workmen who volunteered during the war to work in British munitions factories and shipyards is voiced in the following message received by the Governor-General from Lord Milner, Secretary of State for the Colonies:
"London, November 19, 1919:
"Now that the repatriation of overseas workmen who volunteered their services for production of ships and munitions during the war is completed, I am commanded by the King to request you to give publicity to His Majesty's appreciation of the value of the services rendered by the men who volunteered from Canada. He understands that the excellent behavior of these volunteers and the sustained and steady application displayed by them in their work earned the highest praise."

SOLDIERS ATTACKED BY CROWD AND BEATEN IN LONDON DERRY

Londonderry, Nov. 22.—Soldiers returning to their barracks here last evening were attacked and badly beaten by a crowd. The police made an effort to assist them, but this proved fruitless and the troops were compelled to take refuge in the Salvation Army hall, from which they sent a telephone message for help.

One company of soldiers came to the rescue of the besieged men, the relief force advancing with fixed bayonets and dispersing the crowds, who shouted: "Up with Dublin! Up with the Rebels!"

FEWER TRAINS TO RUN IN CANADA

**Reduction of Coal Shortage
Continues to Be
Felt**

**Officials Preparing Plans
Now in Ontario and
Quebec**

Montreal, Nov. 22.—"Drastic reductions in train service will have to be made at a very early date unless the movement of bituminous coal is soon resumed," declared an official of the Canadian Railway War Board to-day. "As a result of the miners' strike in the United States and the consequent restrictions placed by the United States Government on the exportation of bituminous coal from that country, receipts in Canada during the past two weeks have been practically nil."

"Arrangements have been made and are now being made to take off a number of trains in Ontario and Quebec at the end of the present month, but it is feared that before a normal movement of coal to the railways will have been resumed, it will be necessary to make much heavier reductions."

A dispatch from Washington last night stated that an embargo, effective to-day, on export of anthracite coal except to Canada had been announced by the United States Fuel Administration.

CANADIAN ADVERTISERS.

Toronto, Nov. 22.—Officers of the Association of Canadian Advertisers, incorporated at the sixth annual convention here yesterday, were elected as follows: President, W. C. Betts, Montreal; vice-president, D. George Clark, London, Ont.; treasurer, J. R. Kirkpatrick, Toronto.

W. G. GAUNCE NAMED TO BE CONTROLLER

**Will Issue Coal Export Li-
censes For British
Columbia**

W. G. Gaunce, of Victoria, was to-day appointed as Ottawa, Controller of coal export licenses for British Columbia. Before any coal can be shipped out of the country or foreign ships bunkered, the exporter or ship owner has to get a license from Mr. Gaunce. Mr. Gaunce is given his authority under the Canadian Trade Commission.

He is authorized to issue export licenses of two kinds:

1. Cargoes of coal destined to points in the United States and Alaska.
2. Bunker coal for ships flying any flag and sailing to any destination. But these licenses are to be issued only for the quantity necessary for the ship to reach the foreign port. Presumably, coal for the return journey has to be arranged for at the foreign port.

The export of all coal to be used as ballast is absolutely prohibited. Collectors of customs in British Columbia are not allowed to let any coal go out of the country unless they have a permit from Mr. Gaunce.

The United States is the only foreign country specified for which permits may be issued. South America and Mexico are excluded from Canadian shipments. Application for a permit to export a cargo of coal to South America was refused to-day by the new controller.

One of the first actions of Mr. Gaunce in his new office to-day was to issue permits to a number of ships waiting at Ladysmith and Nanaimo. (Concluded on page 4.)

LIBERAL CANDIDATE.

Saskatoon, Nov. 22.—A. Champagne, former Liberal member of the House of Commons for the Battleford riding, was nominated by acclamation yesterday at the Liberal convention at Battleford as candidate for the new Federal constituency of Battleford.

Hamburg-American Line Head Bemoans Loss of Steamships

Hamburg, Nov. 21, via London, Nov. 22.—Under the peace treaty, the restoration of the German mercantile fleet is made an actual impossibility, said Von Schinkel, chairman of the board of directors of the Hamburg-American Steamship Line, in addressing a meeting of the officials of the line to-day.

"Except the remnant of a few small steamships and other accessories, everything has been taken from our company," he declared.

DENIKINE'S MEN BREAK LINE OF REDS AND KILL MANY

Stockholm, Nov. 21.—Via London, Nov. 22.—General Denikine, commander of the Anti-Bolshevik troops on the southern Russian front, claims to have broken through the Red lines between Orel and Tambov, southeast of Moscow, and to have annihilated 50,000 Bolshevik troops, according to a Helsingfors dispatch to The Svenska Dagblad.

Three New Cases of Sleeping Sickness Found in Winnipeg

Winnipeg, Nov. 22.—Three new cases of sleeping sickness were reported to-day to the city health authorities.

City of Mitau Is Captured by Letts, Advance Continues

London, Nov. 22.—Lettish forces captured Mitau, capital of Courland, according to the Lettish Legation here. The Letts continued their victorious advance.

Aeroplane Leaves England for Long Trip to Australia

London, Nov. 22.—The aeroplane "Kangaroo," under command of Capt. G. H. Wilkins, and carrying a crew of four, left the Hounslow aerodrome this morning on the first leg of a journey to Australia.

Ontario Government Heeds Grievances of Northern People

Toronto, Nov. 22.—The Ontario Provincial Government is taking immediate action to inquire into and satisfy the demands of those who say that Northern Ontario should get better treatment or secede from the older part of the Province. On Wednesday next Hon. Harry Mills, who will be Minister of Mines as soon as the Lands, Forests and Mines Department is divided, will start on a tour of the northern districts to meet the people there and learn their grievances. Mr. Mills may be accompanied by other members of the Drury Government.

CROSSES TO RELATIVES OF CANADIANS KILLED IN WAR

Ottawa, Nov. 22.—Details of the regulations to govern the distribution of Memorial Crosses to mothers and wives of Canadian soldiers killed in action are now available, extending to soldiers and sailors who served in the Canadian naval or military forces or who, having been ordinarily resident in Canada on August 4, 1914, served in the naval or military forces of His Majesty or any of his allies.

The Cross will be issued only to the widows of soldiers or sailors and to the mothers of unmarried soldiers or sailors. If a widow or mother, having become entitled to the Cross, has subsequently died, the Cross will be issued to the eldest of her next of kin. The issue is expected within two weeks.

The Cross will be issued in respect of each soldier who was (a) killed in action; (b) died while on active service; or (c) died from causes attributable to war service, or dies before November 11, 1920.

Bandit Chief and His Son Hanged in Capital of Persia

Constantinople, Nov. 15.—Advices received here from Teheran, Persia, report the hanging in the centre of the city of the bandit chief, Machallan Khan, and his son, and also the placing under arrest of several hundred of Machallan's lieutenants who for many years had formed Persia's most notorious band of outlaws.

The advices also assert that five politicians have been deported from Teheran because of their objections to the British regime.

PRINCE OF WALES LEAVES NEW YORK

**Departs From States on
Battle-cruiser Renown
For Halifax**

Heir-Apparent Has Created Many New Friends in States

New York, Nov. 22.—The Prince of Wales concluded his visit to the United States to-day. Numerous farewell functions kept him busy up to the time of the sailing of H. M. S. Renown for Halifax at 7 o'clock this afternoon.

The principal events were an inspection of Boy Scouts and the conferring of decorations upon many American officers and enlisted men on board the Renown.

New York, Nov. 22.—His last day in New York brought the Prince of Wales many fresh evidences yesterday of the affectionate interest which New Yorkers have in him. A journey to the Roosevelt tomb at Oyster Bay yesterday took the Prince through several small towns, where he was unfailingly welcomed heartily. Big crowds gathered in the city to see him drive away, and later to witness his return from a luncheon at the Piping Rock Golf Club.

New Friends.
The Prince leaves behind in New York a host of new friends who will look forward eagerly to his next visit. He leaves also a tradition which is new to this part of the world, a realization that a Prince can be very human.

(Concluded on page 4.)

SAY CONVENTION IS BEING BROKEN

**Egyptian Nationalists Allege
Britain's Policy Is Not
Just**

London, Nov. 22.—A dispatch from Cairo, where it was filed four days ago, says:

"The local committee of the Egyptian Nationalists has issued a statement to the native press quoting the recent British statement of policy. Commenting upon this statement, the committee says:

"The publication of the statement of policy has provoked public astonishment because it is contrary to the principles of right and justice and to the London Convention of 1949, which guarantees the independence of Egypt, which was conquered by Egyptians at the price of their blood."

200 COAL MINERS IN NEW BRUNSWICK WILL STRIKE MONDAY

Fredericton, N.B., Nov. 22.—The strike of miners at the Minto Coal Company's mine will become effective next Monday afternoon, it was announced this morning by John Henderson, manager of the Minto Coal Company, who had been so informed by William Hays, United Mine Workers' representative. Two hundred men will be affected. They demand a ten per cent. increase in wages and an eight-hour day.

ONTARIO BY-ELECTIONS ARE SET FOR DEC. 22

Toronto, Nov. 22.—Nominations for the Ontario provincial by-elections, necessary following the creation of the Drury Cabinet, will be held on December 15 and the polling one week later.

This was officially announced this morning.

R. CAMPBELL DIES IN TERMINAL CITY

Vancouver, Nov. 22.—Rod Campbell, Jr., member of the firm of Storey & Campbell, and one of the best known business men in this city, died this morning. He was forty-five years of age.

PEOPLE OF U. S. MAY DECIDE TREATY ISSUE AT ELECTION IN 1920

**Question Whether There Will Be Compromise
in Senate or Declaration by People at Polls
Causes Speculation in Washington**

Washington, Nov. 22.—Whether further compromise efforts will be made to ratify the peace treaty or the whole controversy be thrown into the 1920 Presidential campaign for decision was a question which aroused lively speculation to-day in official and political circles here.

It was agreed everywhere that the statement issued last night by Senator Lodge, the Republican leader, declaring the time for compromise had passed and that it was his desire that the majority reservation programme be carried into the campaign, had advanced materially the movement to leave the treaty situation as it is for the present and give the people a chance to decide the issue next year.

The first expressions of administration Senators regarding the

statement were defiant in tone, though they still predicted that before the campaign began the Republicans would enter into a compromise agreement that would make ratification possible.

Senator Hitchcock, acting administration leader, declared that while the Democrats would be loathe to see the treaty made a political issue, they would accept it if the Republicans should insist, with entire confidence in the outcome. "If the Republican leader wants to make it a political issue," said Mr. Hitchcock, "of course he will not compromise. But if he really wants the treaty ratified, he will make a reasonable effort to compromise. The question is one of patriotism or patriotism."

To Congress.
Senator Hitchcock predicted that President Wilson would submit the treaty at the beginning of the next session of Congress on December 1 and that a compromise would result. It was admitted by the administration leaders, however, that they had no definite assurance the President would prefer that course to a postponement of further action until the people had spoken in 1920.

No Ship Available.
C. H. Harvey, agent here of the Marine Department, stated this morning that he had endeavored to interest Halifax shipping men in the plight of the Paul, but apparently there was nothing available here for the purpose of bringing her to Halifax. The Paul, a barque of 1,926 tons, sailed from Hamburg on October 15 for Philadelphia and has had an exceptionally eventful voyage. She was spoken on November 3 in latitude 49.28 north, longitude 22.22 west, with her foremast badly damaged.

So far as known here, the Paul is the first German vessel to appeal for assistance in the North Atlantic since the gap was created in German shipping by the war.

(Concluded on page 4.)

DEMobilIZATION AT ONCE ASKED

**Italian Socialist Deputies Also
Will Demand War In-
vestigation**

Rome, Nov. 22.—The Socialists elected to the Chamber of Deputies at the recent general election have decided, according to a dispatch from Milan, to demand besides the immediate demobilization of the army, the replacement of the present Ministers of War and the Navy, Lieutenant-General Albrici and Rear-Admiral Sechi, by civilians.

In addition, they are reported to have decided to ask, it is stated, an investigation as to the reasons which caused Italy's entrance into the war and why she received several offers of peace.

New Minister.
Vittorio Scialoja, Minister without portfolio and Italian representative on the Supreme Council of the Peace Conference, may succeed Foreign Minister Tittoni, who is said to have asked the Premier for permission to resign, according to The Epoca.

TURKEY ASKS CONFERENCE TO HASTEN SIGNING OF TREATY

Paris, Nov. 22.—The Sublime Porte has applied directly to the Peace Conference for an early solution of the Turkish question, giving serious reasons necessitating the rapid conclusion of peace.

The Serbian delegation here has received notice from its home Government that after an examination of the Hungarian treaty, the Government has no longer reason for not signing the document.

Vienna, Nov. 22.—The first year of the new Austrian Republic has closed with a deficit of 13,000,000,000 crowns.

PHYSICAL WRECK SENT TO JAIL FARM

Man Was Blinded When He
Tried to Rob Ontario
Bank

Toronto, Nov. 22.—W. J. Putwain, who is blind and a permanent physical wreck as the result of a bullet received in his brain when he and a young companion attempted to rob the branch of the Bank of Nova Scotia in the village of Agincourt last winter, and who had pleaded guilty to having shot with intent to kill the manager of the bank, Robert Lang, and having attempted to rob the bank, was sentenced yesterday by Chief Justice Mutch to the jail farm for two years, less a week. His Lordship pointed out that it was because of the prisoner's condition the sentence had been made so light. At the time of the attempted holdup of Bank Manager Lang and a young lady assistant, Putwain's companion was shot and instantly killed by the manager and, as stated, Putwain was blinded for life and generally incapacitated. Manager Lang was severely wounded and spent some time in a hospital after the affair.

ATTORNEY ATTACKED.

San Francisco, Nov. 22.—Complaint that two would-be assassins fired at him at night while he was driving home in his car has been made to the police by James McKenzie, attorney for Lieut. Wesley Crothers, of the Canadian army, who is waging a contest on the \$12,000,000 estate of the late Senator James G. Fair, of Nevada. Two shots were fired, both striking the car, McKenzie said.

NEW EDUCATION DIRECTOR NAMED

L. W. Gill is Made Dominion
Director of Technical
Education

Ottawa, Nov. 22.—Official announcement is made of the appointment of L. W. Gill, of Kingston, Ont., to the position of Director of Technical education under the Department of Labor. This is a new post, the creation of which was made necessary by the action of Parliament in voting the sum of \$10,000,000 to be spent on the encouragement of technical education throughout Canada. The money for the most part is to be spent by the provinces on the basis of agreements to be reached with the Provincial Governments in much the same manner as Federal votes in aid of agriculture have been distributed. Mr. Gill, who will now take up this work, served with the Canadian forces overseas.

How Sallow Skin Can Be Changed to Rosy Complexion

Every woman with pale cheeks and poor complexion needs medicine—needs a potent tonic to regulate her system. To tone up the stomach—to insure good digestion—to give new life and vitality to the whole system—where is there a remedy like Dr. Hamilton's Pills? Dr. Hamilton's Pills enable you to eat what you like—their correct constipation—make nourishing blood—instill force and vim into a run-down system. If nervous and can't sleep your remedy is Dr. Hamilton's Pills—they search out the cause of your condition and you rise in the morning refreshed, strong, vigorous, ready for the day's work. Dr. Hamilton asks every weak and debilitated person to use his mandrake and Butternut Pills. They make old folks feel young, and weak folks feel strong. Their effects upon insomnia and languor is marvellous. Hundreds declare they soothe and quiet the nerves so that a good night's rest always follows their use. To look well, to feel well, to keep well, use Dr. Hamilton's Pills. They are mild, cleansing, strengthening—good for the young and old. Sold by all dealers in 25c boxes.

ANNOUNCEMENT SOON ON WAR-TIME ORDERS

Ottawa, Nov. 22.—Whether the Government will continue to enforce Orders-in-Council and regulations passed by virtue of the War Measures Act after the proclamation of peace between the Allies and Germany and Austria is apparently still to be decided. The fact that, strictly speaking, Canada is still at war with Turkey and Bulgaria, would, in the opinion of the Department of Justice, continue the War Measures Act, and all orders passed under it, in force until such time as peace was concluded with these powers. It follows that the prohibition Order-in-Council would remain operative until a proclamation of peace between Canada, Bulgaria and Turkey was made. In the view of the Justice Department, the matter is one to be decided by the Government, and its final decision may await the formal ratification of the German treaty. If the Government should think it advisable, any order passed under the War Measures Act may be repealed, even though the Act remains in force. It seems likely that the matter will await the return of Sir Robert Borden next Wednesday before being finally disposed of.

ADMIRAL JELlicoe SPEAKS AT CALGARY

Urges Against Too Great
Haste in Reducing
the Navy

Calgary, Nov. 22.—A speech which was a practical answer to the action of the United States Senate in rejecting the peace treaty was made by Admiral Lord Jellicoe here last night before citizens at a civic dinner tendered him during his stay here. He was welcomed by Lieut. Mayor Marshall, Premier Stewart, Mayor Marshall, Commander Irvine, of the Navy League, and others. He said, in part: "It is my mission in Canada to advise the Dominion Government where my advice is sought, and only where it is sought, as to what manner, if it so desires it, it can co-operate in maintaining the sea-power of the British Empire. There is a feeling abroad that the millennium is in sight, and that there will be no more wars. I sincerely hope that the League of Nations will meet with the best possible success, but events of the last few days have disheartened those who have had faith in the immediate result of the formation of the League of Nations.

Assurance Needed. "There events need not made us pessimistic as to its future possibilities. But where the existence of an empire is the consideration, I cannot help thinking that the people will want to be sure that they will be absolutely secure under a League of Nations before they will consent to cut down expenditure for naval defence. Everyone knows that the need for economy in everything in which economy is possible. I should imagine that people would want to know that every other economy has been effected before consenting to see the navy reduced to a dangerously low level. I should imagine they would want to know whether there is not a good deal of personal economy that might be practised. The spirit of luxury is not dead. Certainly it was not dead in Britain when I was there last. Before duck and drakes are poked with the navy, let us be sure that we cannot economize in personal expenditure, when we have at stake our whole national existence."

KILAUEA VOLCANO UNUSUALLY ACTIVE

Hilo, T. H., Nov. 22 (Associated Press)—Kilauea, said to be the most constantly active volcano in the world, is showing the greatest activity in ten years.

Mauna, which recently overflowed its crater, the lava stream flowing into the ocean, is quiet. Kilauea is a crater at an altitude of about 4,000 feet on the lower slope of Mauna Loa, on the island of Hawaii. Nearly eight miles in circumference and 600 feet deep, it encloses an area of 2,500 acres of solidified lava, in the centre of which is a vast pit more than 1,000 feet in diameter, called "the house of everlasting fire."

ASSISTANCE URGED FOR SHIPBUILDING

Toronto, Nov. 22.—Government encouragement to the steel shipbuilding industry of Canada met with the favor of the convention of the Ontario Boards of Trade yesterday. The convention was not unanimous, however, a motion submitted by the Kingston Board calling for payment of a bonus on tonnage distributed, and urging that foreign-built ships at least more than five years old be not permitted to engage in coastwise trade. Several delegates expressed the opinion that the methods proposed were too drastic.

CRERAR ADVOCATES FARMERS' PLATFORM

Saskatoon, Nov. 22.—Urging that the new National Policy movement has for its aim the creation of a greater spirit of national unity in Canada, Hon. T. A. Crerar, former Federal Minister of Agriculture, addressed a large gathering here last night on the Farmers' platform. He again pointed out that the new policy was not a class movement, but that it welcomed all classes. The old parties had outlived their day and the old-time system of party government had proved its worthlessness, he said.

ACQUISITION OF GRAND TRUNK STOCK

Ottawa, Nov. 22.—The return of Sir Robert Borden probably will be the signal for renewed activity in connection with the acquisition of the Grand Trunk Railway stock by the Government. Shortly after the arrival of the Prime Minister in the capital, it is expected, the agreement which is to be submitted by Sir Alfred Smithers to the Grand Trunk shareholders, will be passed upon by the Government. This agreement, it is understood, is now in course of preparation.

RUMOR ABOUT FLAVELLE.

Toronto, Nov. 22.—According to a rumor being circulated here, Sir Joseph Flavell, president of the William Davies Co., Ltd., has sold his interest in that company and affiliated concerns to a Cleveland packing firm. It is said the change was made in consideration of the sum of \$3,000,000.

BECAME SO THIN SHE WAS AFRAID

"FRUIT-A-TIVES" Made Her Well,
Strong and Vigorous

MADAME ARTHUR BEAUCHER

805 Cartier St., Montreal.
"I suffered terribly from Constipation and Dyspepsia for many years. I felt pains after eating and had gas, constant headache, and was unable to sleep at night. I was getting so thin that I was frightened and saw several physicians who, however, did not seem able to help me.

"At last a friend advised me to take 'Fruit-a-tives'. I did so and soon I felt some relief. I continued with 'Fruit-a-tives' and in a short time, the Constipation was banished, I felt no more pains or headache or the disagreeable sensations that follow dyspepsia. Now I am well, strong and vigorous."

Madame ARTHUR BEAUCHER.

50c. a box, 6 boxes for \$2.50, trial size 25c. At all dealers or from Fruit-a-tives Limited, Ottawa, Ont.

WM. E. JOHNSON LOSES ONE EYE

London, Nov. 22.—Three specialists who yesterday examined the eye of William E. ("Pussyfoot") Johnson, the American Anti-Saloon League campaigner, which was injured during a students' demonstration against him recently, found Mr. Johnson utterly unable to see with the affected eye.

They discovered, however, a hopeful sign in the fact that a strong electric light held in front of the eye, although unseen by the patient, caused him pain, indicating that there was sensitiveness in the injured member.

IF BACK HURTS USE SALTS FOR KIDNEYS

Eat less meat if Kidneys feel like
lead or Bladder
bothers.

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headache, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications. A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

INCREASE IN WORK IN NELSON DISTRICT

Nelson, Nov. 22.—A six-day thaw accompanied by light rains, which cleared the snow from all the lower altitudes and restored autumn conditions, has had a most important result in the hills, increasing the flow of water in the creeks to the largest volume since last spring, and providing power for all the air compressors in the country. The abnormal water shortage had reduced the majority of the operating lines, except those with electric power, to using one-half or one-third of their drill power, and the apparent early winter made the prospects for any increase in flow seems gloomy. The immediate result will be that many properties will go back to a two-shift basis.

AN UNUSUAL DEATH.

Toronto, Nov. 22.—Miss Millicent Collier, nineteen years old, died yesterday from a clot of blood on the brain, the result, it was said, of her running out to the gate at her home at night without hat or coat, while in a heated condition, to say goodbye to a departing friend.

MEDALS BESTOWED.

St. John, N. B., Nov. 22.—A heart-stirring scene, one which recalls anew the part borne by New Brunswick in the great war, was witnessed yesterday, when upwards of 100 men received from the hand of His Honor Lieut.-Governor Fugleby decorations and medals they had won in France during the war.

A sad and yet impressive part of the presentation was when the Governor presented the medals of those who had given their lives on the field, to the widows or parents of the departed heroes.

PUBLIC WORKS ARCHITECT.

Ottawa, Nov. 22.—J. H. Stevenson, a returned soldier, is the successful candidate for the position of resident architect for the Public Works Department at Calgary.

HOUSING SCHEME IN UNITED KINGDOM

London, Nov. 22.—In the House of Commons yesterday Dr. Addison, Minister of Health, unfolded fresh proposals to overcome the housing crisis. He emphatically denied that the Government's housing scheme had been a failure, and declared that he had found the situation black when he started in office and that the country now was suffering from the negligence of his predecessor.

Alluding to schemes for new and cheaper types of houses, Dr. Addison said the Department had been engaged on this, but the newspapers had taken the matter up. The Department ought not to be stampeded into urging local authorities to build

dwelling which might prove rotten. Complaints were now coming that converted army huts were very cold. That had been known all along, the Minister said, and added that manpower was short in the building trade. Even so, there was a considerable amount of extravagant building. The Government proposal to give a subsidy of £150 per house was limited to a certain number of houses to be built within a limited time.

Dr. Addison mentioned that practically every house in the United Kingdom wanted repairing.

"The Government is not going to be stampeded by any cry," added the Minister. "We shall stand by the scheme and be no party to delivering the country again to the sporadic system of house building which has given us slums in every town."

GAIDA ORDERED TO LEAVE VLADIVOSTOK

Deportation of Czech Leader
Follows Unsuccessful Up-
rising There

Vladivostok, Nov. 18.—Rudolph Gaida, the thirty-year-old Czech general, until this morning the most dramatic figure developed during the five years the Czech-Slovaks have been in Russia, to-night was the most tragic. Gaida, who rose from private to general, and who twice freed Siberia from organized Bolsheviks, at daylight, wounded, wet and dishevelled, limped along the streets of Vladivostok, a prisoner of soldiers of the Omsk Government.

To-night, the anniversary of the coup d'état by which Kolchak placed himself in power through promising a Constituent Assembly and immediate representative government for Siberia, a plot to overthrow Admiral Kolchak was completely crushed here.

At Station.

Gaida was captured at the railroad station when the revolutionary troops surrendered after suffering from the cross-fire of a field place placed at the corner of the station plaza. This fired at a range of 100 yards into the revolutionists. Russian torpedo boats were in the harbor.

Wounded in the leg by a grenade, Gaida was marched through the streets under heavy guard to the headquarters of the All-Russian staff. A few hours later he was turned over to the custody of the Czech-Slovaks, to be deported within three days.

Vladivostok is quiet. There has been no firing since early this morning, with the exception of the volleys of the execution squad. Martial law has been declared.

Bodies Lay About.

The revolution and winter arrived simultaneously. A rainstorm yesterday turned into a blizzard to-day, and to-night the bodies of the dead revolutionists, still lying in the station plaza, were snow-covered mound, unmolested except when robbed of boots and clothing by some prowler. A hundred bodies are scattered through the railroad yards in this vicinity. The bodies of eighteen dead revolutionists are lying on the station steps, where they were shot this morning.

Officials of the All-Russian Government are holding 400 prisoners, including many railroad workers. The Government loss in the fighting is unknown its dead having been

BABY GOLDBERG.

Thought she
would not live.

The New Commercial Hotel,
Hamilton, Canada.
July 27th, 1916.
I am enclosing you a photograph of my little girl Helen. Her life was undoubtedly saved by Virol. She weighed eight pounds at birth, but she did not thrive and when five months old her weight was seven pounds. She was in Grant Avenue Hospital in this city, suffering from a complication of meningitis and pneumonia and we had simply given up hope that she would live. The doctor then put her on Virol and the immediate improvement was so remarkable that the Virol feeding was continued and I am perfectly satisfied that she owes her present condition of splendid health to your wonderful food.

Yours very truly,
GEORGE GOLDBERG.

Virol increases the power of resistance to the germ of disease, and replaces wasted tissue. It is therefore a valuable food in Measles, Whooping-cough, Infantile Diarrhoea, Influenza, etc.

removed. Occasional wounded soldiers and civilians continue to arrive at the American Red Cross emergency hospital.

As a last chance, Gaida appealed to the Czech-Slovaks in the city for assistance, but they remained neutral.

Russian Officer.

Gaida is a Czech citizen, holding, with permission of the Prague Government, the rank of lieutenant-general in the Russian army. He commanded the left front of Kolchak's Ural army. When his recommendations regarding democratic reforms in the army failed to secure approval, he left his command and arrived at Vladivostok in July.

The Omsk military headquarters struck Gaida's name from its roster of officers, but Gaida did not resign, and continued to denote himself as a Russian officer.

During the present uprising the Czechs considered Gaida to be an officer of the Russian army, as evidenced by an order regarding the status of Czechs who joined Gaida's forces.

Famous.

Gaida is famous throughout Siberia as the youthful leader who led 4,000 Czechs 4,000 miles against all the Bolsheviks in Siberia early in the fall of 1918, cleared the Trans-Siberian Railway of Red forces and opened the way to Vladivostok. When the Allied expeditionary forces landed here he was regarded with the rank of general in the Czech army.

Fighting under Kolchak in the bitter cold of last January, he led the Ural army to the capture of Perm, beyond the Urals. This is the most westerly point ever attained by the Kolchak forces fighting against the Reds of European Russia.

A WINNIPEG DEATH.

Winnipeg, Nov. 22.—The death occurred yesterday of one of the oldest and best known locomotive engineers in the employ of the Canadian Pacific Railway, James Dobson, aged seventy-four. He was super-annuated in 1914 after thirty-two years' service on the line. He came from Cheshire, Eng.

The Best of
This Is What
You Get

Down around Ladner one sees British Columbia dairymaking at its best.

It is among the finest dairymaking districts on our continent.

A few places may have individual herds as well bred and cared for, but taking the district as a whole it is wonderful.

Nearly all the milk (certainly the best of it), is what you get in Pacific Milk.

COMPROMISE NOT LIKELY.

Official and political circles at Washington are bestirred this morning with speculative suggestion as to whether further compromise efforts will be made to ratify the Peace Treaty or whether the whole controversy will be thrown into the 1920 Presidential campaign for decision.

Senator Lodge, of course, would prefer the majority reservation programme introduced into the election atmosphere in order that it could continue to attract the political attention of himself and his friends. He contends that the time for compromise has passed and apparently regards consideration for the Allies of his country as a matter of little moment.

Senator Hitchcock predicts that President Wilson may submit the Treaty to Congress on December 1. He goes a little further, however, and suggests a compromise, although there has been no definite assurance given by the President as to the manner in which he would prefer to deal with the situation. It goes without saying, moreover, that the Senate majority does not intend to be balked of any particle of its "victory."

In the meantime the great Republic, by the Senate's action, stands detached from its Allies, to all intents and purposes still rooted to the old isolation policy, and unresponsive to a new condition in world affairs which limits no great nation's responsibility to civilization to its own territorial confines.

The fusion of the Treaty of Versailles with a Presidential election campaign offers the prospect of an entirely novel sequel to America's magnificent assistance to the Allied cause.

COMMERCE BEFORE TRADITION.

It has been decided by the British Government that every British battleship sailing to foreign ports may take British commercial travellers as passengers. This is something unique in the history of the empire and its methods of expanding empire trade connections. In giving his personal consent to the scheme, Mr. Walter Long, First Lord of the Admiralty, confessed that it had been a difficult task for him to convince the Lords of the Admiralty that they could serve the country in no better way than by sending commercial travellers to the ends of the world.

Undoubtedly the proposal would come as a shock to the deep-rooted traditions of the British Navy; but the fact remains that until Britain's trade agents can resume their normal journeys within the empire and to other parts of the world Great Britain's commercial expansion is at a disadvantage. Some expedient, therefore, is necessary while ordinary transportation facilities are lacking. Britain's industrial centres already are beginning to recover their normal appearance, and the sooner production can be increased to something approaching pre-war level the sooner will it be possible to reduce the adverse trade balance which at the moment, for instance, compels the pound sterling to bow to the American dollar.

It must be possible, however, for the British producer to get into direct touch immediately with empire and foreign needs as dictated by the march of events since August, 1914. It is a fact that many houses were compelled to suspend export operations altogether on the outbreak of war and during the intervening period markets looked upon as essentially British have been captured by other countries less hampered by war conditions.

Nor is it less important that aggressive commercial methods should characterize the re-establishment of the British consular service. The time is no more when these important posts may be held by other than men of tried business acumen, men who are able to plumb the foreign market with something more than the superficial survey which has marked the average activity of sons of noble families who have filled these positions to some extent in the past.

It must be recognized, too, that Oriental competition is a factor that cannot be treated lightly. The importation of American steel and American coal by Great Britain similarly is a new condition which British industry regarded as an extremely remote possibility until a year ago. Only by going after the business and setting up new standards more in keeping with the spirit of the times can Great Britain regain and maintain her commercial supremacy.

That the world's credit pit should be transferred to this side of the Atlantic for the moment should be a stimulant. London after all, however, is contiguous to the greater European commercial field, a geographical factor which an increasing crop of pessimists would do well to remember.

CHANGING PROHIBITION LAW.

In an address at Nelson on Thursday the Hon. J. W. deB. Farris, Attorney-General for British Columbia, foreshadowed new prohibition legislation. He has come to the conclusion that the Government is selling liquor under the guise of medicine. Mr. Farris does not blame anybody and he removes the responsibility from the medical profession because the statute law of the

Province imposed upon it an obligation against its will. Nevertheless, the fact remains that an epidemic of Spanish Influenza is the real culprit. It uncovered the doubtful virtues of alcohol in popular form as an antidote to the unwanted germ. However, in view of the fact that monthly sales of liquor exceed \$150,000, it would appear to the casual observer that the health of the Province never recovered from the original epidemic which seems to have undermined it. Obviously with a subject upon which there is such a diversity of opinion, accentuated by a two years' operation of "dry" law, if a corrective is to be applied it is right and proper that the electorate should be able to look to the Legislature for the initiative.

EVADING THE FORTUNE TAX.

One of the pioneers of the Excess Profits Tax in Great Britain recently has carried the discussion on the expropriation of fortunes made during the war to an extent which appears to have escaped the notice of official experts dealing with the subject. Nor by reason of the condition of the British Treasury at the present time can the Chancellor of the Exchequer afford to ignore any direction towards recovery of revenue. Attention now is being diverted to suspected cases of capital leaving the country only to become absorbed by United States and Canadian "holding companies." It is contended that relatively small capitals are used to take over the securities of rich men and thus conceal a great deal of income that is properly liable to income tax on the other side of the Atlantic. If this is the case, moreover, it is altogether likely that much of it may be liable to the war fortunes' tax. Reports from this country have been furnished to the British Treasury indicating that a considerable number of wealthy British subjects are evading income tax by means such as these. Canada assuredly would countenance nothing that would hamper the British Chancellor of the Exchequer, and doubtless some process may yet be evolved that should catch the evader.

WHY THE SMALL ATTENDANCE.

At yesterday afternoon's session of the City Council five aldermen were present. The principal item of the agenda was the reception and discussion of the new agreement to be entered into between the city and the Canadian Pacific Railway Company in respect of the Johnson Street bridge. By reason of the small attendance, however, consideration of the question was held over until next week.

We agree with Mayor Porter in his view that the subject is of sufficient importance to warrant a better attendance. For nearly a decade the people of this city have watched the progress of the controversy which appeared to reach a satisfactory conclusion on Monday last. Yesterday's discussion, with better attendance, should have taken no more than a few minutes. All that remained to be done was the formal ratification of the agreement, whose terms by this time should be thoroughly familiar to the aldermanic circle.

Apparently an overloaded preamble appealed to Alderman Sargent as unnecessary. He saw the possibility of a wrong impression arising out of too much useless verbiage. This is no reason for delay. There will come a day, perhaps, when legal documents will be prepared in plain understandable English; but as long as there is no "joker" in the instrument now in possession of the City Council its ratification should take place not later than Monday next.

RECORD MUNICIPAL APATHY.

Apathy towards municipal government and the annual selection of civic representatives is by no means peculiar to the cities of British Columbia. An Old Country exchange gives prominence to a case of a thriving London suburb with a qualified electorate of 6,300 where only thirty persons voted in a Board of Guardians by-election. There were five polling stations and it cost exactly \$250 to record the thirty votes. Victoria will not find it an effort to leave the London suburb in the novelty class.

CANADA WOULD NOT ESCAPE.

Any considerable curtailment of the output of coal in the United States would affect not only that country but Canada and the continent of Europe. Canada's annual importations of soft coal are about 16,000,000 tons. Hydro-electric industries furnish the motive power of many Canadian industries, particularly in Ontario, but even in factories so served soft coal is necessary for heating and for subsidiary operations. The steam railways are utterly dependent on American supplies, except in the Eastern and Western Provinces. Canada would not escape some of the serious consequences of a widespread strike.

TRIBUTE TO A NOBLE CITY.

The award of the Croix de Guerre by President Poincaré to the City of Paris will thrill all France. Paris, the many-sided capital of the country, represents in herself all the qualities of superb heroism that has made the name of France immortal in the history of human freedom. To the Parisians, their city is invested with a personality and a soul that is deathless. It is that personality, and that soul, which President Poincaré honored, when he pinned the Croix de Guerre on the cushion which bore the arms of the City of Paris. Similarly "La France" to Frenchmen represents something more personal, more readily capable of inspiring eternal allegiance than our idea of a government or nation. "La France" is the symbol and personification of the ideal, in the Platonic sense, of all the heritage of tradition, thought and achievement of the nation which during the last five years has stood as the first line of defence for civilization. The French conception of their cities and provinces is practically non-existent in the United States. It is similar, in many respects, to the love and pride of the ancient Greeks for their city-states. The Frenchman regards Paris with much the same feeling that Thucydides, in his history, displayed for Athens, "the School of Hellas." Such love of city is born of long attachment, and deep-rooted admiration for its deeds of the past. The great majority of Frenchmen still live in the house in which they were born. In America it is not often easy to find a man who lives in his native town, much less in the ancestral home. This difference in habits of life explains the absence in America of the fixed attachments which the French have for their native town or department. Eventually, in the course of centuries we may regard our cities with the same fondness which the French bestow on Paris, Orleans or Nancy. For the present, however, the patriotism which comes from a passionate love for the ideals and the principles which lay behind the magic name "America."

TARIFF MUST NOT BE POLITICAL ISSUE

Victoria Advocates Board of Trade Appointment of Advisory Commission

In order that the much discussed and debated question of tariffs may be removed from the field of politics the Canadian Manufacturers' Association is conducting a campaign to have a board of efficient men appointed by the Dominion Government to deal with this baffling matter. In response to an appeal for support from this organization the council of the Board of Trade at a special session this morning passed the following resolution, which will be forwarded to the acting Premier, Hon. Dr. Tolmie, Minister of Agriculture, and the Canadian Manufacturers' Association in Toronto.

"The Victoria Board of Trade respectfully urges the immediate appointment of a commission composed of men of recognized suitable qualifications to serve as a permanent advisory body to the Government in all matters pertaining to the enacting and execution of all tariff laws and regulations. We believe that all tariff questions should be removed from political influence."

Political Football

It was stated by members of the council that the tariff question had been a political question for many years.

It was emphatically stated that this commission must not be formed as most commissions were—of men who knew nothing about the questions they were to investigate. The commission must comprise efficient men, including those who were informed of the financial condition and needs of the country, and others who were conversant with what tariffs were needed and the best manner of enforcing and collecting duties.

N. Yarrow stated that the tariff had not been revised for twelve years, which was deplorable in a country so young. He thought there was entirely too much fostering to duties, which was not conducive to good business and the prosperity of the country. Less duties would bring about keener competition.

No Tariff After Election. "There'll be no tariff question after the next election," announced George McGregor. "The farmers will be elected and they'll shift all the duties for you. There'll be no taxing farming implements, and if you don't tax them you can't tax other things."

The Canadian Manufacturers' Association was moved to action when it was announced from Ottawa that a party of Cabinet Ministers would tour the country to investigate tariff conditions. The association contends that this would only result in a prolongation of the party fight over the tariff.

WAS HONORED AT CHARMING "SHOWER"

The home of Mrs. Kate Lothian, 20 Bushby Street, was the scene of a delightful little affair on Wednesday evening, when the members of the now defunct W. A. R. Club gave a miscellaneous shower to a former president, Miss May Dorrell. The reception rooms were charmingly decorated in mauve and white, the color scheme being reflected in the presentation of the gifts. These were piled high upon a miniature express wagon, which was covered in mauve and white crepe paper and drawn into the room by two-year-old Margaret Johnson, who looked like a winsome little fairy. When she and her load arrived at her destination, a silver and white bell suspended from the ceiling released a shower of miniature hearts, enveloping both the recipient and the little donor, and presenting a pretty picture. The number and beauty of the gifts gave eloquent testimony to the affectionate regard in which the guest of honor was held. After the taking of a flash-light photograph of the party, dainty refreshments were served and the remainder of the evening was passed in music and social discourse.

It will be remembered that during the four years of the war this club of thirty young women accomplished much for the Red Cross—the office of the president being most ably filled in turn by Miss Hazel Wright, Miss Edna Dorrell, Miss May Dorrell, Miss Theresa Dorrell and Miss Kate Lothian.

LAUNCHES CAMPAIGN

Proportional Representation Organization Prepares For Work.

To start a campaign for the enforcement of proportional representation legislation in regard to municipal elections, a meeting was held last night in the City Hall, and an organization launched for the purpose.

With W. Marchant as chairman, a committee of seven, which was appointed last night, will promote propaganda and will secure signatures to a petition favorable to the introduction of the measure. It was stated that the City Council may enforce the act by a three-fifths vote, and the Council will be approached in the matter. Failing success in this channel, a plebiscite is suggested providing the petition secures five per cent. of the electorate.

E. S. Woodward, secretary, and Chairman Rand, both spoke in support of the movement. It was claimed by Mr. Marchant that the present City Council is not representative of the community, as professions, re-

turned men, women and labor were not represented. He declared that in Nelson, New Westminster and Calgary proportional representation had proved very successful. He claimed that City Councils naturally treated with indifference a matter that might make more difficult the securing of their election. It was suggested that falling action by the Council a special ticket supporting proportional representation should be organized.

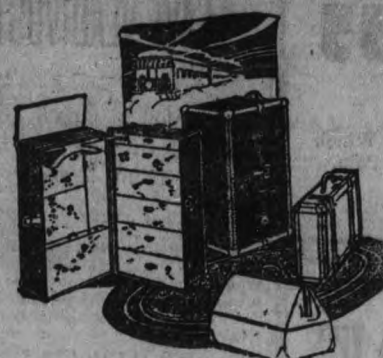

"Papa," said Tommy Treadway. "Now, Tommy," replied Mr. Treadway, "I shall only answer one more question to-day. So be careful what you ask."
"Yes, papa."
"Well, go on."
"Why don't they bury the Dead Sea?"

PRINCE OF WALES LEAVES NEW YORK

(Continued from page 1.)

Decorated Heroes. New York, Nov. 22.—More than 100 British and American officers, soldiers and sailors, were decorated to-day by the Prince of Wales in a farewell ceremony on the battleship Renown before his departure for Halifax on his way to the United Kingdom. Representatives of the state and city governments and men and women who had entertained him in New York then shook the Prince's hand and bade him Godspeed and au revoir.

Enjoyed Himself. "I have had a splendid time," he remarked. "I am only sorry that I am unable to stay longer and I hope to return soon and see more of your country."

After the reception the Prince came ashore and reviewed 5,000 Boy Scouts massed on a branch along the Hudson.

Five carrier pigeons were taken on board the Renown to be released 500 miles at sea and return to New York with greetings from the Prince to his New York hosts.

Sir Robert Borden went aboard to accompany the royal party to Halifax.

A Send-Off. New York, Nov. 22.—The British battle cruiser Renown, with the Prince of Wales on board, weighed anchor this afternoon and steamed down the Hudson River into the harbor on the way to Halifax.

Whistles of the harbor craft shrieked a farewell and the guns of the forts which guard the narrows boomed a salute as the great warship passed out to sea. The Renown was escorted by the United States battleship Delaware and seven American destroyers. The Delaware flew the Stars and Stripes from her foremast and the British Ensign from the main peak.

(Continued from page 1.)

Instructing the collectors of customs there to allow them to load under the regulations and proceed to foreign ports.

Sequel to Embargo. The appointment of Mr. Gaunce follows the embargo on the export of coal from Canada that was announced last Saturday because of the serious coal situation in the east. Mr. Gaunce has been placed in charge of the fuel situation on this coast to eliminate the waste of time coal exporters have been experiencing in applying to Ottawa for permission for each case of export.

Mr. Gaunce was selected by Ottawa for the office of export fuel controller on the Pacific Coast because of his reputation as a student of statistics, economic problems and matters dealing with foreign trade. The appointment came as a surprise to him, as he had heard nothing of the office until he received the telegram appointing him, and instructing him to take control at once. A Victoria man was chosen for the office, as the head offices of the coal companies are located in Victoria, and the coal export trade of the Pacific Coast centres on this island.

BARQUE IN DISTRESS IN THE ATLANTIC

(Continued from page 1.)

Ship Aground. Seattle, Nov. 22.—Officers of the Pacific Steamship Company to-day received a cable stating the new 10,000-ton steamship Elkton, of the United States Shipping Board fleet, while on her maiden voyage, grounded in Yokohama Bay recently. The cable said efforts to float her had been unsuccessful. The vessel, it was said, was resting on a soft bottom and probably would escape damage.

The Elkton left here October 16 for ports in the Orient. She was built here.

Accidents. Quebec, Nov. 22.—Statistics on navigation accidents on the St. Lawrence during the year ending to-day show that there were a large number of accidents from December last to date. Over twenty vessels were either stranded or collided.

Street sweepers in Victoria are to work rain or shine after this, the aldermen decided at their meeting yesterday.

Mayor Porter told the aldermen of the deputation of sweepers who asked him that they be allowed to work every day they pleased, instead of being laid off when it rained, as it is hard enough at the best to make

both ends meet with living costs high.

The Mayor also said that citizens had been complaining to him about the city having old men sweeping up out in the rain, saying that such practice was inhuman and cruel.

City Engineer Preston explained that the men were being provided with rubber clothing against the rain. He said their services were useful during rain, as they prevented the gutters and street drains from being blocked up.

Endorse High School Project.—A special meeting was held at their rooms by the West Saanich Women's Institute on Tuesday afternoon, November 18, when the president gave a lengthy report of the Vancouver Island conference. On motion of several of the members the secretary was instructed to write the reeve and councillors endorsing the idea of a High School in Saanich. Consolidation of schools was also discussed at this meeting. After business was dispensed with a sewing meeting took place, many useful and pretty articles suitable for Christmas presents were brought by the members for the bazaar to be held on Saturday, December 18 at the Agricultural Hall, Saanich, to be followed by a dance in the evening. A military 500 drive will be held under the auspices of the Institute at their rooms, Sluggert's Station on Friday, November 28. After cards a "box social" will be held, also a tombola. A dance will be held in connection with the West Saanich School Piano Fund on Wednesday, November 26, at the Agricultural Hall, Saanich.

IMPASSE CONTINUES ON LIBRARY ISSUE

Saanich Refuses to Give Way
on Two Points in
Dispute

Little progress in the dispute between Saanich and the City Library Commissioners, owing to the call by the latter for a larger appropriation, has been made, to judge by the correspondence read at the meeting last evening.

Two Points at Issue.

Commissioner William Marchant, Secretary of the Board wrote: "I am instructed to say that the Board can and will accept your proposals as to sections 1, 2, 3, and 6. Sections 4 and 5 are unacceptable. The Board therefore, is willing and prepared to immediately open the Library to Saanich residents immediately that your council notifies us to its acceptance of the amended proposals."

"The Board of Library Commissioners feel bound by the decision of the late City Solicitor Hannington as to the status of the resident of Saanich who may be taxpayers of the City of Victoria, which decision debar the board from granting library privileges to all such. It is, therefore, plain that under no circumstances Section 5 cannot be entertained."

"Such suggestions contained in Section 4 of your proposals would not become operative until after January 31, 1920, a further decision on the difficulty might be postponed until after the election of the 1920 Saanich Council and Library Commissioners."

Mr. Marchant wound up with an appeal for an early settlement, so that Saanich residents could use the Library during the Christmas season.

Saanich's Case.

The clerk reported that he had consulted with the Reeve, and replied: "Your letter of November 14 came duly to hand. It is much to be regretted that the Library Commissioners do not see their way to meet the reasonable proposals submitted by the Council. I am instructed to state that the two clauses of my letter of November 1st (viz., 4 and 5) which you state are unacceptable to the Commissioners, are absolutely essential to and are indeed the whole crux of the proposal made by the Saanich Council."

"Clause 4 reads: 'Books from the Library shall not be issued to the Saanich residents unless they shall have had previously issued to them, by authority of the Council, of the Corporation of the District of Saanich, a membership card, such card to be issued upon such terms as the Saanich Council may determine.'"

"It must be remembered that the Saanich taxpayer is not represented on the Board of the Library Commissioners and that the said Clause 4 is the only control that the Saanich Council, their representatives, would have over the expenditure for library facilities made on their behalf."

"Clause 5 reads: 'Residents of Saanich who are taxpayers in the City of Victoria shall be accorded all library facilities as citizens of Victoria, and for the purpose of this agreement, shall not be included as Saanich residents.'"

"Section 37, subsection of the Public Libraries Act, reads in part: 'The board of any library established under this act may, subject to such rules and regulations as it may adopt, and upon such conditions as may be agreed upon, allow persons residing outside the municipality or township in which the library is situated, to use the books of the library.'"

"Under this power the Board of Library Commissioners has the power to agree to the conditions as laid down in the proposed agreement, and therefore your remarks: 'The Board of Library Commissioners feel bound by the decision of the late City Solicitor Hannington, as to the status of residents of Saanich who may be taxpayers of the City of Victoria, which decision debar the board from granting library privileges to all such'—does not apply."

"I am instructed to request that you will again consider the proposition, and to state that it will not be acceptable to the Saanich Council to leave the consideration of any portion of the agreement over until next year."

The Council endorsed the action taken.

NOW CUSTOMS BROKERS

F. V. Homan and R. B. Switzer, Well-known Here, Set Up in Business.

Homan and Switzer is the name of a new firm of Customs Brokers which has just started business in premises at 500 Fort Street, and if the popularity of the members of the concern counts for anything, the future of the business promises to be very bright indeed.

F. V. Homan and R. B. Switzer have a wide circle of friends throughout the entire province, who wish them success in their new venture. Both were formerly connected with Pither & Lelmer, and they are thoroughly experienced in customs and freight work, and are prepared to guarantee quick service coupled with accuracy.

To expedite the clearing and delivery of goods the concern will operate its own trucks at the going charges in case the delivery equipment of its patrons are busy.

In addition to Customs Brokerage, the firm will handle Fire, Life, Accident and Sickness Insurance.

IN WOMAN'S DOMAIN

BRILLIANT BALL

AT UNION CLUB

Five Hundred Guests at Delightful Function Last Night

Last night the Union Club returned for the nonce to its old-time status as the home of brilliant social events with the holding of its long-anticipated members' ball. A perfection of arrangements and a meticulous attention to the smallest detail contributed to the comfort and enjoyment of the guests imparted to the proceedings a zest, and from the commencement at nine o'clock until the departure of the guests at three a.m. everything went with a swing, and made of the affair one of the most delightful functions of a brilliant season.

Over five hundred guests were at the affair, representative of the leading social set of Victoria and including many visitors from Vancouver. The Lieutenant-Governor and Lady Barnard, General Sir Arthur Currie and Lady Currie were present, and among those who came over from the mainland city to attend the function were Mr. and Mrs. Newton Burdick, Miss Dorothy Langford, Mr. and Mrs. Guy S. Rothwell, Mr. and Mrs. Harold S. Cove, Mr. and Mrs. Allan Fraser, W. H. Hogg and Miss Barbara Hogg, Capt. Gardner, Miss Margaret Stewart and Miss Daphne Brougham.

The reception rooms and the main lounge, in which dancing took place, presented the appearance of a transformation scene in a fairy pantomime; hundreds of exquisitely fashioned paper flowers—the artistic handiwork of Mrs. Burton and Mrs. Tilton—were used in the decorative scheme. In the main dancing hall snowy white lilies and greenery were banded before the fireplace and around the walls, while in the entrance hall masses of purple iris mingled in charming effect with pink and white tulips. Under the capable leadership of Professor Heaton, an orchestra of eighteen pieces dispensed an alluring programme of music with perfect rhythm, to the enjoyment of the many devotees of dancing.

On a scale of lavishness commensurate with the general arrangements was the elaborate supper, served in the dining room down the stairs. Here at a table artistically arranged with pale pink carnations and greenery was assembled a collation including galatines of every description, a boar's head dressed with the customary adjuncts of glass and decoration, salads of all kinds, and, in fact, every culinary delicacy dear to the gourmet. Throughout the evening iced drinks and light refreshments were served in one of the smaller rooms opening from the main lounge.

Social Personal

Mrs. (Rev.) W. D. Spence will receive at the parsonage, 953 Empress Avenue, on Wednesday next, November 26, from 3.30 to 6 p.m.

The Women's University Club will meet with Miss Winn at 940 Fairfield Road on Monday evening at 8 o'clock, when various matters of interest will be considered.

Miss Lucy Prichard and her sister, Miss M. C. Prichard, of Margaret Avenue, have gone over to Vancouver, where they will visit friends for a few days before continuing their journey to England. They will sail from Halifax on S.S. Metagama and will remain in the Old Country for some time visiting relatives and friends.

one hundred and fifty dancers who gathered for the occasion. Watson Brothers' orchestra supplied excellent music, and supper was served at eleven o'clock, dancing being resumed and kept up until two o'clock this morning.

Sir Arthur and Lady Currie were the guests of honor at a delightful little dance given in the Alexandra Club on Thursday evening by the officers of the 5th C. G. A., of which regiment the distinguished soldier was formerly in command. About two hundred were in attendance, including many former officers of the regiment, who have seen considerable service in France, among them being Major Stern, who came down from Cowichan, especially for the event. A large number of the nurses and staff from the local hospitals were also present. Heaton's orchestra furnished the music for dancing, which was kept up till an early hour.

Mrs. F. Tyrrell-Godman (nee Josephine Ellison), who returned to Victoria with Mrs. Alfred T. Watt, on Tuesday evening, was responsible in no small degree for the success of the Women's Institute movement in England. She was especially interested in the movement in Sussex, where she held the position of president of the Sussex Federation of Women's Institutes. At the exhibition of Women's Institute work held in London last year, she shared with Mrs. Watt the honor of being photographed with Queen Mary and Princess Mary. Mrs. Godman's husband, Capt. F. T. Godman, 9th Sussex Regiment, died while a prisoner of war in Germany.

Dates of Bible Conference.—Dr. Harris Gregg, who will come to Victoria next month to conduct a Bible Conference, will open his services December 7, continuing to December 19. He will hold three Sunday meetings, week night meetings, and noon day business men's meetings, the last named downtown.

WOMEN SUGGEST

MUNICIPAL REFORMS

Interesting Discussion at the Meeting of Women's Independent Association

That the women of this city do not intend to adopt a passive attitude in matters bearing upon municipal government was shown yesterday when a large gathering assembled under the auspices of the Women's Independent Political Association formally adopted a proposed platform of municipal reforms.

Suggested Reforms

The clauses adopted were as follows:

1. The establishment of a municipal auditor and the acquiring of a cold storage plant.
2. A market committee for fixing maximum prices, composed of the market clerk, a stallholder and a member from the public, preferably a woman.
3. A technical school, irrespective of any preliminary training, open to both sexes.
4. A vigorous policy of vacant lot cultivation and the continuation of the Greater Food Production Act.
5. Compulsory registration of all women under the protection of the Minimum Wage Act, and those who receive salaries above the minimum.
6. Abolition of meter charges after the cost of installation is met, company to retain ownership by the payment of a nominal yearly charge.
7. Improve park system and playground supervision (the opening of a tea-house and better lighting were advocated).
8. Provision of clerical arrangements for the striking of a temporary balance sheet to be made public before the elections.
9. That all public schools should be open for citizens' meetings upon the payment of actual cost entailed.
10. That the fifteen per cent penalty should be abolished and rebate on taxes. (Two forms of redress, it was pointed out, are open to municipalities—a suit and tax sale).
11. The licensing of all rooming and boarding houses and hotels where three or more rooms are rented, and that no person of known immoral character should be allowed to procure a licence.
12. That a plan be secured for the development of the Government jail reserve with a view to its laying out on a landscape basis; all permanent underground work to be done and streets to be constructed by returned soldier labor; such work to be carried on as a general local improvement scheme, chargeable to the whole area, work to be started immediately, in preparation for the houses.

Poor Man Penalized

Much discussion was waged on the various matters. That suggesting the abolition of the fifteen per cent penalty tax, which tax was characterized as "usury," met with some opposition, one member contending that if people were property owners they should be penalized for non-payment of taxes. In explaining the object of the proposed reform, Mrs. Johnson stated that it was not intended to ask for a lessening of the taxes, but that under the present system the poor man was penalized to an unjust extent.

In connection with the suggested compulsory registration of all women with the payment of the \$2.00 road tax, it was pointed out by one speaker in supporting the motion that the levy was but a small one in return for the benefits accruing. Business women, in common with householders, shared the privilege of police protection, and benefited by the proper upkeep of the roads, street lighting, etc., and should be prepared

All Royal Crown Products carry Coupons, redeemable for useful articles.

to contribute the small sum of \$2.00 yearly in return.

In explaining the clause advocating the development of the jail reserve on Topas Avenue, Mrs. Johnson declared that no extra expense would be incurred by this action, whereas the taking in hand of the work right away would help to solve the problem of the unemployed returned man. At the conclusion of the discussion and formal adoption of the report, it was suggested that the programme be published in the press for perusal and study by the candidates at the coming civic elections and by the public generally.

In the unavoidable absence of the first vice-president, Mrs. Gordon Grant presided at the meeting, which was of a social nature, tea being served at the close of the business. Miss Ede and Miss Winifred Bell contributed two vocal solos which were much appreciated. Nine new members were enrolled during the afternoon.

Mothers! NEVER NEGLECT WHOOPING COUGH

Many mothers make the mistake of thinking that whooping cough is not of serious importance, but unfortunately this mistake often leads to the neglect of this dangerous child's disease.

Never neglect whooping cough, for it may be followed by some serious lung trouble.

Dr. Woods' Norway Pine Syrup is highly recommended by mothers everywhere for the relief of this trouble. It will clear the clogged-up air passage of the mucous and phlegm that has collected, and in this way bring on the "whoop" which brings the so-much-sought-for relief. Mrs. Francis Burlingham, New Gate, B. C., writes: "This spring three of my children took the whooping cough, and they had it so bad I thought they would choke. I was getting pretty worried when my sister wrote me, telling me to try Dr. Wood's Norway Pine Syrup. I sent for some right away, and believe me, I will never forget how it worked. I will always have it in my house."

There are many imitations of Dr. Wood's on the market. Get the genuine when you ask for it. It will pay in the end. Put up in a yellow wrapper; 3 pine trees the trade mark; price 25c and 50c. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

Shipyard Workers Arrange Dance—The shipyard laborers, riggers and fasteners have planned to hold a dance at the K. of P. Hall on Thursday evening next November 27. Beattie's orchestra will provide the music for dancing, and during the evening a grand tombola with thirty valuable prizes will be held. The committee in charge of the arrangements includes F. C. Bindon, chairman; Frank Slavin, O'Hara, T. Beattie and T. Lavin.

Wincarnis gives New Health to all who are Weak, Anaemic, Nervous, Run-down

DON'T let your life be clouded by indigestion health. Don't let ill-health steal your good looks. Don't remain weak, or anaemic, or nervous, or run-down. Don't suffer needlessly. Get well the Wincarnis way—the quick, sure and safe way to new and vigorous health.

Wincarnis is the quick way, because the benefit begins from the first dose—the sure way, because it has given new health to countless thousands of sufferers for over 30 years—the safe way, because it does not contain depressing drugs. Wincarnis is recommended by over 10,000 Doctors, because it possesses a four-fold power in producing new health. It is a Tonic, a Restorative, a Blood-maker, and a Nerve Food—all in one. Therefore it promotes new strength, new blood, new nerve force and new vitality.

This life-giving Wincarnis is the one thing you need when you are Weak, Anaemic, Nervous and Run-down. Because Wincarnis quickly helps back your old-time vigor—gives a sparkle to your eyes—and coaxes the blood back to your cheeks. You look well—feel well—eat well—sleep well—and can revel in the new health and new life Wincarnis creates. But, remember, that only Wincarnis can give you this new and vigorous health. Imitations only waste your money and disappoint you.

Remember that Wincarnis is not a new untried preparation. Wincarnis has an unimpaired reputation of nearly 40 years' standing. Begin to get well now. Buy a bottle to-day. Sold only in two sizes—\$1.00 and \$1.75.

Ask your Doctor. Get it at your Druggist's.

A combination of Extract of Beef, Extract of Malt, Iron and Manganese, Glycophosphates of Calcium, Potassium and Sodium with a specially selected wine. A Tonic, Restorative, Blood-builder and Nerve Food. Prescribed by the Medical profession for Anaemia, Debility, Sleeplessness, Brain Tiredness, Nervousness, Headache, La Grippe, Maternity weakness and Convalescence from any illness.

In two sizes: \$1.00 and (extra large bottle) \$1.75

FIRE DEPARTMENT WILL HOLD DANCES

First of Popular Season's Programme to Be Held
December 11

The local fire department is planning to hold a dance at St. John's Hall, Herald Street, every Thursday evening commencing December 11. At a meeting just held, it was decided by members of the Victoria Fire Department that these dances should be inaugurated and continued throughout the winter months.

For some years past it has been the practice of the local department to hold dances at the Central Fire Hall, but this has been discontinued ever since the war began. The many friends of the members of the Fire Brigade will be glad to hear that the dances which have proved so popular in previous years are about to be resumed, and great preparations have been made to insure their success.

The dances will be strictly invitational, and the list of invitations for the first dance on December 11 has already been made out. It is anticipated that there will be an attendance of 250 at this affair. Negotiations are under way for one of the best orchestras in the city. The dancing hours will be from 8.30 o'clock until midnight and the dances will be conducted along the same lines as the City Police dances. Christmas and New Year will both be celebrated by a firemen's dance.

Anyone wishing to obtain an invitation may do so by phoning 538 or 5541, and asking for M. Woodburn or P. Guy.

NEWS IN BRIEF

Speaks on Zeebrugge—Lieut. Helmsing, provincial secretary of the Navy League of Canada, spoke on the Zeebrugge attack at the Provincial Normal School last night.

Adjourned Till March—The action of Robertson vs. Gardiner, claim for damages for the alienation of plaintiff's wife's affections, which has been before the Supreme Court for some time, has been again adjourned by Mr. Justice Murphy until March 15, next.

Gets Divorce Decree—In the divorce action of Williams vs. Williams, Mr. Justice Murphy granted the petition of H. C. Williams for a decree absolute against his wife, Florence Palmer Williams, on the ground of misconduct of the latter with Elton C. Hodgins, who was the co-respondent in the case.

Willows Wins Match—The football team of the Willows School defeated the Monterey School team in an exciting game yesterday. The score was one to nothing. The Willows players, Gilman, and their back, Showers, were responsible to a great extent for the Willows' success. G. Owen and the Laundry brothers starred for Monterey.

High School Basketball—An exhibition basketball will be played at the Victoria High School to-night. The House League game, scheduled for this evening, will be played on Monday at nine o'clock in the Y.M.C.A. The First Presbyterian five will try conclusions with the Y.B.M. bunch at the "X" to-night at eight o'clock.

Sentence Confirmed—In the County Court yesterday afternoon Judge Lampman confirmed the sentence imposed by Magistrate Jay in the case of Rev. vs. Lemuel and Porter, charged with an immoral offence. Magistrate Jay sentenced Lemuel to one year's imprisonment and Mrs. Porter to pay a fine of \$100. C. L. Harrison appeared for the Crown, and Harold Robertson and E. S. Tait for the appellants.

Victoria Skating Club—Final arrangements are now complete for the first meeting of the Victoria Skating Club at the Arena on Monday afternoon from five to seven. Special music has been provided, and it is anticipated that the members will turn out in force. Members who have not been given an opportunity of subscribing yet will be able to do so at the opening meeting. It is expected that this year's service, the most successful in the Club's history.

Want Service to Skagway—The Council of the Board of Trade at its session this morning decided to wire Hon. Dr. Tolmie and request that the Government provide a steamer service between Victoria and Skagway during the winter months in order to provide the inhabitants of Whitehorse with supplies. It was brought to the notice of the Council that the C. P. R. will only have one sailing to Skagway next month and after that will discontinue the service. The Council suggested that the Government place one of the G. T. P. steamers on the run.

To Discuss Boy Work Scheme—A meeting of all interested in the boy work movement will be held in the Y.M.C.A. building to-morrow afternoon at 4 o'clock when the committee recently appointed to formulate a scheme will present its report for consideration and discussion. The plans will be finally considered and, if necessary, the committee will be extended to embrace other organizations interested in this movement. It is announced that working boys desirous of entering the competition for the \$50 Victory Bond may register at the city drug stores, where cards may be obtained.

CUTICURA HEALS BABY'S FACE

Could Not Sleep Eruption Itched and Burned So.

"I noticed a little pimple on my baby's face. I thought it was from the sun but it kept getting worse and the skin was red and very hot. He could not sleep or rest the eruption itched and burned so, and it caused him to scratch. I was quite discouraged."

"I saw an advertisement for Cuticura Soap and Ointment and sent for a free sample. I bought more and after using two cakes of Cuticura Soap and two and a half boxes of Cuticura Ointment he was healed." (Signed) Mrs. S. D. McGuire, Clarkburg, Ont., Dec. 18, 1918.

Use Cuticura Soap, Ointment and Talcum for every-day toilet purposes. For free sample each of Cuticura Soap, Ointment and Talcum, write to: Dept. A, Boston, U. S. A. Sold everywhere.

TO FORCE SQUATTERS FROM CITY STREETS

Public Lanes and Roads Blocked by Encroachments

Too many people are using city lanes as their own private property. Mayor Porter and the aldermen declared at their meeting Friday afternoon. They decided to take steps to have all squatters removed to within their own boundaries so there will be no chance of complications in the future. It was pointed out that some people who have been occupying city property may lay legal claim to it if their occupation is not disputed and the city's rights asserted.

Discovery of conditions in a city lane running north from Bay Street between Government and Douglas Streets and coming out on Douglas Street "opposite the North Ward School led the aldermen to take action. It was discovered that fences have been extended to encroach on this lane, and that some persons even have built chicken houses there, blocking the use of the thoroughfare to the public.

"We have too many places where people are encroaching on the streets, and we must get them removed before they have a claim to the property," said Mayor Porter.

Conditions on Oliver Avenue from Gorge Road to Cecilia Street were also reported where fences have been extended out to take in part of the roadway, leaving only room for a two-wheel sidewalk, which has proved dangerous to children attending the Burnside School, many of whom have slipped on the steep grassy surface during the recent wet weather and injured themselves.

City Engineer Preston reported that it was impossible to locate telephone poles in parts of the city because of the number of people taking in part of the thoroughfare. City Solicitor Pringle was instructed to take action against all encroachers.

RECEIVES BAR

Capt. G. G. Aitken, M.C., is Cited Again For Heroism.

Capt. George Griffiths Aitken, M.C., Canadian Field Artillery, formerly attached to the Canadian Corps Survey Section, and now home in Victoria, has been awarded a first bar to the Military Cross. The citation read: "For courage and devotion to duty. On September 3, 1918, at a time when the actual line was in doubt in the vicinity of the Arras-Cambrai road, along the line of the Canal du Nord, he made a daring personal reconnaissance, obtaining much valuable information. Throughout the operations of the Canadian Corps, covering the period August 8 to September 20, he has at all times displayed tireless energy and devotion to duty, and has set a fine example to his men."

K. of C. Hut Festivity—Over three hundred ex-service men and their lady friends spent a very enjoyable evening at the K. of C. Hut last night. The military five hundred was ably looked after by M. Steele, and the winners of the prizes were Miss D. Allen, Mrs. Rogers, J. Stewart, A. L. Neelings. Immediately after the cards were over the large hall was cleared and dancing continued until midnight. Fred and Herbert Broughton kindly volunteered their services again for the dance music, and it was all that could be desired.

COMPTROLLER HAS CHALLENGED AWARDS

Refuses to Pass List of Civil Service Salaries; Gives Reasons

Comptroller-General Moutat has challenged the whole situation with regard to the new grading schedule and salaries prepared by Civil Service Commissioners MacInnes on the grounds that the Civil Service Act has not been complied with. He has, therefore, declined to pass the list of salaries submitted, according to a statement issued to-day by the secretary of the Victoria branch of the Civil Servants' Association.

The salaries submitted by the Commissioners are very unsatisfactory to the Civil Service who have this morning expressed their dissatisfaction in no uncertain terms. They complain that the figures issued yesterday by Commissioner MacInnes are very misleading as in each case only averages are dealt with and that averages mean nothing in a case of this kind.

A DYSPEPSIA CURE

M. D. advises: "Persons who suffer from severe indigestion and constipation can cure themselves by taking fifteen to thirty drops of Extract of Rosta after each meal and at bedtime. This remedy is known as Mother Selgel's Curative Syrup in the drug trade." Get the genuine. 50c. and \$1.00 Bottles.

A BEDTIME STORY

UNCLE WIGGILY AND THE HOLLOW TREE

Copyright, 1919, by McClure Newspaper Syndicate. (By Howard R. Garts.)

Uncle Wiggily, the bunny rabbit gentleman, was hopping and skipping through the woods one day, when, all of a sudden, he heard a rustling in the bushes, and—

No, the bad Pipsesewah didn't rush out at him. That may happen a little later in the story. I can't say for sure, but it may. Anyhow, there was a rustling in the bushes, and, all at once, out popped Johnnie and Billie Bushytail, the two squirrel boys.

"Oh, Uncle Wiggily!" chattered Billie, trying to speak plainly with his mouth filled with hickorynuts. "Come over and see what's here!"

"Yes, maybe you can tell what it is," said Johnnie. "We're sort of scared of it."

"Nonsense! Scared? In the woods in broad daylight; and you two, big squirrel boys, with tails as large as dusting brushes!" laughed Uncle Wiggily. "Nonsense and fiddlesticks!"

"Well, you just come over and see!" went on Johnnie. "Billie and I were going through the woods, looking for nuts, and every time we came to a tree we knocked on it to shake down some nuts if it had any on it."

"And when we knocked on this tree, somebody hollered at us!" said Billie, taking up the story.

"What did they say?" Uncle Wiggily wanted to know.

SORE THROAT
IS A COMMON AILMENT WHICH UNLESS CHECKED IN TIME MAY LEAD TO A SERIOUS CONDITION. SIMILARLY, A COUGH OR COLD MAY DEVELOP AND BECOME A CHRONIC AFFECTION. BUT IF TREATED BEFORE IT GETS OVERCOME, IT IS EASY TO GET RID OF. DR. THOMAS' ECLECTRIC OIL IS FOUND IN

He won't hurt you, will you, Mr. Owl?"

"No, indeed," was the answer. "But every time some one knocks on my hollow tree, where I live, I ask 'Who? Who? Who is there?'"

"That's what we heard," said Billie. "And we thought it was maybe Pumpernickel, the Halloween fairy," went on Johnnie.

"And so you were frightened!" laughed Uncle Wiggily. "Well, after this boys, look first and make sure whether it is worth while to be afraid. Most hollow trees have owls in them."

"I'm sorry if I frightened the squirrel boys," went on the owl. "I always ask 'Who? Who?' whenever I see any new animals in the woods."

The squirrel boys, and Uncle Wiggily and the owl gentleman were having a nice talk together when, all at once, there was another rustling in the bushes and—

Yes, this time I wouldn't be surprised if it was the Pipsesewah, the Skeelsicks or something like that. "Start!" exclaimed Uncle Wiggily. "I think some one is coming!"

"We'd better run!" chattered Johnnie and Billie.

Mr. Owl stuck his head out of the hollow tree and cried out:

"Who? Who? Who are you?"

There was no answer, but the rustling in the bushes came nearer and nearer and nearer.

"Who? Who? Who are you?" hooted the owl again.

Still there was no answer, but the rustling in the bushes came closer and closer and closer.

For the third time the owl cried: "Who? Who? Who are you?"

And then a voice answered him said:

"Oh, I'm the bad old Pipsesewah, and you know it! What'd you want to ask for, when you knew all the while? If you had kept still I could have sneaked upon Uncle Wiggily and gotten some of his house! No, he knows I'm here!"

"Of course he does!" hooted the owl. "That's why I called 'Who? Who?' to make you answer. Run, Uncle Wiggily, run!"

So the bunny ran, and the squirrel boys, too. The Pip didn't get them, nor the owl, who hid in the hollow tree. And if the door mat doesn't try to climb up on top of the clothes pole and jump over the fence, I'll tell you next about Uncle Wiggily at the movies.

MUSIC IN THE HOME

"RE-CREATION"

The United States Government has granted Mr. Edison the exclusive right to use the word "RE-CREATION."

BECAUSE

The New Edison

is the only Phonograph which is capable of sustaining the test of direct comparison with living artists.

The NEW EDISON

is the only instrument which is capable of RE-CREATING music or to which the word "RE-CREATION" can be lawfully applied.

The foregoing is written with the earnest resolution to avoid overstatement or embellishment of the facts.

Your own local papers have reviewed the astonishing comparisons as proved by four actual Tone Tests held in this city.

Ask us for our booklet, "What the Critics Say," but better still ask to hear The New Edison and the true to life RE-CREATIONS.

CHAMBER MUSIC.

Devotion to chamber music is one of the marks of musical culture; a musician who does not relish it must be lacking in taste. It is essentially related to the mental side of the art, and the musician who merely represents the executive side cannot see its merits. The noblest compositions in chamber music have been written by the greatest musicians in the world, and it is in this form that they have expressed themselves at their best. No person who is deeply endowed with the artistic spirit can fail to enjoy quartet music. We cannot say that we truly understand the great masters of the art of music until we have imbibed the spirit of their ensemble works. Through the study of these works one gains a knowledge of phrasing and a conception of tone, free feeling, quickness of perception and a most thorough musical individuality.

St. Paul's Choir Concert.—For the past few years St. Paul's Presbyterian Church choir have been treating the residents of Victoria. West from time to time with excellent entertainments, including Scottish, Irish and general programmes. Next Friday evening these three characteristics will be embodied in a concert to be given by the choir in Semple Hall, the numbers being "Maistly Scotch." Among those assisting will be the well-known artists, Mr. Edmund Petch, Capt. R. Morrison, Mr. Guy, Miss Peatt, Mrs. Butler, Mr. Jas. Walker, Miss Wallace, J. G. Brown, choruses by the choir and male quartette, duets, etc. Mrs. Lewis Hall organist of the church, will be the accompanist. It is safe to predict that Semple's Hall will be filled to its capacity on this occasion.

Music is the property of all time. A thousand years from now music will be just as great as it is now.

BUYING A PIANO

Is no light matter. It should not be hastily purchased. Make sure that you choose an instrument that will be a constant source of pleasure to you and yours.

The Willis Piano

Is a Piano that will give you this pleasure and satisfaction. It possesses all the attributes of the best known makes, and excels in tone quality and appearance.

Convenient terms of payment make the Willis Piano easy to buy. Call and see them to-day.

THEATRE ORGANIST AND INSTRUMENT

House Organ Has Important Bearing on Success of Theatre

Why is it that many beautifully fitted picture houses, fall short of the acme of perfection by not keeping their house organ in tune? The use of the pipe-organ in the movies is surely a further illustration of the famous phrase "the survival of the fittest," for, before it came to be universally adopted, all sorts of combinations had been tried out and only too often found wanting. Now, no picture house of any distinction is complete without a pipe-organ, which however, is not always kept in the state of perfection of pitch and tune that it ought to be. The organ has been named "the king of instruments," but to deserve this little title it must not have clattering notes, nor must the pedals rattle like a box of dice.

The success of the pipe-organ as an intensifier of the pictures is now a matter of history and in many cities one may count a round dozen in use in the various theatres. Unfortunately some picture houses possess an instrument which has been capotized by the press-agent publicity into appearing as the genuine goods, and for a time the public may be fooled about it—but the deception cannot for long, escape detection by keen musical ears. The genuine photo-play organist is (or should be) an artist, one who is able to interpret the music score of any instrument or set of instruments. The field is a wide one and should not be the one which church organists affect to despise. For it is necessary that such an organist should be able to make a capable translation of piano music, so that it may not lose any of its original character or attractiveness.

Organists who sit up in the church organ-loft in all their dignity, may even claim that this cannot be done. However, their claim is easily refuted by a tour through the various big theatres in the Provinces, where the clever organ work has made a big appeal to public taste. It is now well-known that almost all the piano music ever written, from the most syncopated "rag" to Chopin, Chaminade and Liszt, can be adapted to the organ. Ability to improvise is another essential for the theatre organist, and he should be able to offer attractive variations on any theme. In this case, of course, a good memory is a great help, in addition to a wide knowledge of musical literature.

And the organist must not forget to make his modulations both in the major and minor modes interesting. In the last analysis, the real photo-play organist need not be born—he can be made through diligent application and much experience as a musician. If he is new to the theatre, he must become a student all over again and he must be susceptible and alert, for his is a man's job. And finally, the management must give him an organ that can be kept in tune.

CHICAGO'S GREAT OPERATIC PLANS

The Chicago Opera Association is out with its announcement for the season 1919-20, proclaiming seven novelties and a dozen revivals in addition to the already large repertoire of the Campanini organization. There are to be two French novelties, "Aphrodite," by Camille Erlanger with Mary Garden in the name part, heading the list. Messager's "Madame Butterfly" is said to be "another Madame Butterfly," is to be given with Tamaki Miura as the prima donna. The Puccini trypit, produced last season by the Metropolitan; Montemezzi's "La Nave," and a new opera, "Jacqueline," by Gino Marinuzzi, the new principal conductor for Chicago, comprise three Italian novelties announced. "Rip Van Winkle," the new American opera by Reginald de Koven, book by Percy Mackaye, will have Evelyn Herbert, a young American artist of great promise, in the leading woman role, and is the only novelty in English that will be attempted this year.

Rosa Raisa, in fully restored health will be heard in "Norma" and "The Jewess," the revivals of which were postponed last season on account of Raisa's illness; Galli Curci will be heard again in all of her coloratura operas; Mary Garden will be heard in "Aphrodite" and in one Italian opera; "Titta Ruffo is sure to bear a full share of the season's work, and Dorothy Jordan will be heard in "Il Tabor," "Manon," "Zaza," "Fedora," and one other Italian opera. Borghild Langgaard, heralded as "Scandinavia's most glorious voice," is a new dramatic soprano in the cast, and Nina Morgana will be heard in several important roles.

FINE PROGRAMME FOR 'CELLO RECITAL

Miss, Maud Scruby to Be Assisted by Well-known Artists

A particularly attractive programme has been arranged by Miss Maude Scruby for her recital to be given at the Empress Hotel on Thursday evening, December 4. The talented cellist will be assisted in her programme by Miss Eva Hart, Mrs. Gertrude Huntley Green and Miss Mary Izard.

The complete programme follows: Sonata in E Minor for Pianoforte and Violoncello (Op. 38) .. Brahms Allegro nontropo Allegretto quasi Mennetto Trio Allegro.

Violoncello Solo—Sonata in F Major (Op. 2) Marcello Songs E. A. Macdonald Violoncello Solo—Variations Symphoniques (Op. 23) Boellmann Trio—Waltz-Marches (Op. 54) Ed. Schmitt Allegro Moderato Allegretto Allegro vivace.

Songs (a) Romance (Op. 35) E. A. Macdonald (b) Serenade Frank Bridge (c) Tarantelle David Popper

TO SING IN VANCOUVER

MISS EVA HART left last night to sing at the Twilight recital to be given by Frederick Chubb at Christ Church, Vancouver. Miss Hart will sing, among other solos, a Bach number.

G. W. V. A. BAND

Concert Will Be Given Under Direction of Bandmaster Miller Tomorrow.

A splendid programme is arranged, the band selections and vocal items being as follows: March—The Menin Road W. Guitard Overture—Merry Wives of Windsor Selection—Zigzag O. Nicolai Selection—Selected H. F. Helmsing Selection—Bing Boys on Broadway Nat. D. Ayer Italian Serenade—Lola C. Friedemann Song—Selected, Mrs. J. H. Burbridge Selection—Reminiscences of Donizetti F. Godfrey March—Territorial Blakenburg God Save the King.

TO GIVE RECITAL HERE SHORTLY

MISS MAUDE SCRUBY Well-known Cellist.

PLAN TEA-DANCE AT GOVERNMENT HOUSE

Ladies' Musical Club to Hold Big Social Event Next Week

The Ladies' Musical Club will devote somewhat from its usual course of concerts and "musical at homes" on Saturday afternoon next, when by kind permission of Lady Barnard it will hold a gala social event at Government House.

It is the intention of the club to have an attractive musical programme, to which Mrs. R. Baird, Miss Heming and Miss Mary Izard will contribute numbers. An additional feature, which it is hoped will prove a big attraction to the members of the younger social set and other friends of the club will be "the dancant" to be staged in the lovely ballroom. Dancing is to take place during the intervals between the concert numbers, and a good orchestra will provide the music for the dancing. Afternoon tea will be served under the direction of the club, and altogether a delightful time is promised to all who attend the affair.

Prof. J. D. Town—Lessons in voice culture. Pupils specially coached for concert, oratoria and operatic work. Phone 4206L. Address 1149 Leonard, Fairfield.

An interesting visitor to Victoria this week was David Scheetz Craig, the publisher of the paper "Music and Musicians," which chronicles musical events of the Pacific northwest.

Caruso on his trip from New York to Mexico had fifty armed guards, who accompanied his train, but the trip was uneventful and the guards were not called to active duty.

Madame Francia E. Meakin-Mahoney

(Gold Medalist) of LONDON, ENGLAND. Receives pupils for singing and the art of voice production, and prepares students for the concert platform. For appointment and terms apply 1025 Linden Avenue, or Phone 2747.

STUDENTS TO GIVE ANNUAL RECITAL

Miss Heming Plans Attractive Programme; Proceeds to Ladies' Musical Club

For several years past, Miss Marian Heming, the well-known local teacher of the Virgil-Clavier method, has given a students' recital, the proceeds from which have been handed to one or another of the many patriotic causes extant during the war. It will be a matter of much gratification to her many friends to learn that Miss Heming has planned to give this annual recital on December 12 at the Empress Hotel, when her pupils, many of them but tiny tots, will demonstrate the results accomplished under the Virgil-Clavier method.

Miss Heming will contribute pianoforte solos to the programme, and assisting in the recital will be Miss Mary Izard, the talented young English violinist, whose playing at her recent appearance on the concert platform, created much admiring comment.

The proceeds of the recital will be handed by Miss Heming to the Victoria Ladies' Musical Club, as a contribution to the sinking fund which has been started by the club to enable them to bring leading artists to this city.

ENGLISH AND IRISH UNITE IN MUSIC

Federated Board of Music Industries to Be Established

At the ninth British music convention held at the Grand Hotel, Birmingham, under the presidency of Sir Frederick Dyson, it was decided to establish a Federated Board of the Music Industries of Great Britain and Ireland. The subject was introduced in a most illuminating way by Alexander Dow, of London, who dwelt upon the value of united effort in the industry, and particularly in view of the many problems now being faced following the war. He pointed out what groups of firms strongly knitted together had done during the war, and what a federated board could accomplish in the music industry.

He discussed at length how the federated board could be constituted through a grand council consisting of five members elected from each association in the industry, with a chairman and secretary of each association acting as ex-officio, making therefore seven representatives from each association on the federated board. He remarked that by a curious coincidence the American Music Industries Chamber of Commerce had also a representation of seven from each of its associations.

He discussed the financial end of the movement and how it might be prepared and successfully developed, and advocated the use of a stamp of one penny to every £5 or one-twelfth per cent, which would bring in about £12,000 a year.

Following a lengthy discussion a resolution was adopted approving the object and constitution of the federated board and recommending the appointment of representatives from the various associations so that the federated board could be started in the autumn. It was also provided that the constitution was subject to revision at the convention of 1921.

A resolution was also adopted approving of the collection of the sum of £5,000 by voluntary subscription from the trade to cover the expenses of furnishing rooms for the federated board and to meet other preliminary

Little Hands

How Will They Grow? Trained or Untrained?

THOSE little hands are now in your care, mother. You can train them to bring lifelong happiness or let them go untrained. But now is the time to begin their education.

For more than half a century the

Gerhard Heintzman

(Canada's Greatest Piano)

has trained little hands and little ears. It alone has the easy action, delicate touch and resonant tone that teaches a true appreciation of musical values.

May we talk to you to-day about this splendid piano?

MUSICAL NOTES

(By George J. Dyke.)

Of late French composers have been quite popular and occupy a prominent place in all programmes. French song is the exquisite flower of the old Gaelic temperament, and taste, poetry and music. The French are the heirs of the classical Latins, and their art, their poetry. Their music have wealth of color and they have besides that indefinable quality "nuance." Hence the gamut of French song is so much larger.

One of the finest musical events held in Toronto so far this season was an organ recital given recently by leading organists of Canada, in connection with the tenth annual meeting of the Canadian Guild of Organists in session in St. James Cathedral Parish House. The recital was held in Convocation Hall and attracted a large audience.

A young Polish pianist has given us words of comfort. He says: "Everybody has a right to some troubles, and if they come—why, we are just only like tiny flies in the scheme of life. Why should one little fly demand to be happier than the rest?"

Jules Daiber, manager of Bondi, the tenor, has returned from Europe, and this is what he says of London: "Every concert hall, not only in London, but throughout England, is crowded, and the English are absolutely mad for music, so is the whole of Europe for that matter, but London is not what it was. The heart

of the upper class is gone. I mean it in two ways. All those splendid young fellows, or nearly all, are killed, and the joy seems to be gone out of life for the others. What they want is just to forget. Just to get away from the thought of it all. And you can't talk to anyone about the war. Ask about an air raid, or something of the sort, and they change the subject to the newest play, or a dancer, or a new book, anything to get away from the talk of the war.

Our suggestion of a music festival to be held here next summer if possible has, we are glad to say, created considerable attention. Many citizens have promised to give their support to the project. There is no better place on the coast than the capital city for such an event, and the situation for the "setting" is an ideal one.

Queen Elizabeth of Belgium is said to be a fine musician and plays the violin beautifully. She encourages both in her home and throughout her native land.

What a gift to be a real accompanist! The one who can anticipate the effects that the singer or the instrumentalist desires to make, who can cover up any slips, and above all who can subordinate his playing and really accompany the singer or player, possesses an ability, an accomplishment, rare indeed. And when such an one does accompany thus effectively, he or she deserves just as much recognition as the artist they support.

YE OLDE FIRME

Because of its construction, its beauty, its elasticity, its delicacy and its strength of action, its general excellence and its superior qualities, the

Heintzman & Co. Piano

has won for itself the leading place among the pianos of the world.

—The choice of De Bachmann, Friedheim, Melba, Nordica and other great artists.

MUST RESERVE TAXES FOR OBJECTS LEVIED

Alderman Protests Habit of the City Shuffling Income

The annual habit of the city levying for local improvement and other work, then not carrying out the work specified, but diverting the funds to other purposes, was protested against yesterday by Alderman Sargent, before the council meeting.

The alderman told of the practice of the city during the last couple of years levying \$5,000 for improving Fairfield Road, north of the cemetery and then diverting the money to other purposes.

"We should endeavor to do the work that we collect the taxes from the citizens to pay for and complete that work," said the alderman. "I suppose this \$5,000 for Fairfield Road will be placed in the estimates again for next year, and the work not done, although the citizens will be levied for it. Why continue this levy if we are not going to do the work?"

City Engineer Preston explained that the work had not been done because the local improvement commission had not yet reported on it to the council.

Mayor Porter said the aldermen would have to remember that when they levy for something they must reserve the money for what they levy instead of switching it for other things. "If we practice that theory more we will not spend so much money," he said.

Graduate Nurses' Association ball will be held in Alexandra House Friday, November 28. Heaton's orchestra. Tickets \$2, from members.

"J" Unit Chapter, I. O. O. E.—Special meeting Tuesday, November 25, at 8 p.m. Jones Building.

The Natural History Society will meet Monday, November 24, in room 401 Jones Building, at 8. Please note change of meeting place.

AN IDEAL TONIC FOR WEAK PEOPLE

Dr. Williams' Pink Pills Act Directly On the Blood and Nerves.

Food is as important to the sick person as medicine, more so in many cases. A badly chosen diet may retard recovery. In health the natural appetite is the best guide to follow, the sickness the appetite is often feeble and depraved.

Proper food and a good tonic will keep most people in good health. Dr. Williams' Pink Pills are the most popular tonic medicine in the world, harmless and certain in their action, which is to build up the blood and restore the vitality to the run-down system. For growing girls who become thin and pale, for pale, tired women, and for old people who fall in strength Dr. Williams' Pink Pills are an ideal tonic. Thousands of people have testified to the health-giving qualities of Dr. Williams' Pink Pills, and in many homes they are the only medicine used. Among the homes in which the benefit of this medicine has been proved is that of Mr. E. A. Underwood, Kingston, Ont., who says: "I have used Dr. Williams' Pink Pills with the most beneficial results. As the result of hard work I was very much run down, and my appetite was very poor. I got a supply of the pills when I read regularly for some weeks with the result that they restored me to my old time strength. They also proved a blessing to my daughter, who was in a very anemic condition, and who seemed not to get more than temporary relief from any medicine until she took Dr. Williams' Pink Pills. She took the pills for about three months, and is now enjoying the best of health. For these reasons I can strongly recommend Dr. Williams' Pink Pills."

At the first sign that the blood is out of order take Dr. Williams' Pink Pills, and note the speedy improvement they make in the appetite, health and spirits. You can get these pills through any dealer in medicine or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

WANT CONNECTION FOR VICTORIA WEST

But Aldermen Think Esquimalt Waterworks Should Pay More

Mayor and aldermen at the City Council meeting yesterday said they wanted to see the water main connection made between the systems of Victoria and the Esquimalt Waterworks Company so that Victoria West may not be cut off from water service through the failure of the Esquimalt Company, as has been the experience of residents of that part of the city several times lately. City Engineer Preston reported on the whole situation. Aldermen, however, said they did not like the proposal that the Esquimalt Company should be let off with paying only one-seventh of the cost of making the connection and the city have to pay the rest. They asked the engineer how this proportion was arrived at and he said it had been roughly based on the service demand of the two systems.

Aldermen said that the company should pay at least half the cost, as the connection was to benefit its customers and not the residents in other parts of the city. So that aldermen can study the whole situation further action to bring around the Esquimalt company to proper terms was postponed for one week.

Company Willing to Share. "On October 31 I drew the attention of your committee to the fact that Victoria West was without water upon a certain day, and your chairman said the water commissioner was instructed to interview the Provincial Government," reported Mr. Preston. "Before interviewing the Premier, Alderman Sangster and myself interviewed Mr. Sayward, of the Esquimalt Waterworks Company, and he told us that the Esquimalt Waterworks were quite willing to pay their share of a connection between the two districts, such share to be based upon the quantities of water supplied by the two undertakings, namely, one-seventh part by the Esquimalt Waterworks and the balance by the City of Victoria. It was also decided that the Water Commissioners should prepare estimates of cost.

Junction Points. "There are three points at which connections can be conveniently made, each having its advantages. "1. Connection at Wales' barn, near Colwood, where the mains are about 125 feet apart, and the Esquimalt Waterworks Company already have a right-of-way between the two mains, and where the pressures between the two mains are very nearly equal.

"2. A connection down Harriet Road from the city main on Burnside Road, across the Gorge into the Esquimalt Waterworks main on Craigflower Road.

"3. A connection across Point Ellice bridge and the Esquimalt Road.

"The first two mentioned connections will be capable of supplying the whole amount of water required per day either to the Esquimalt Waterworks or to the city, and the cost of the first-mentioned connection at Wales' barn will amount to about \$2,000. "The cost of the connection at Harriet Road would be approximately \$43,000, and that over Point Ellice bridge on Esquimalt Road, about \$8,000. "With regard to the latter it would be necessary to convert the existing 12-inch main on Pleasant Street at Esquimalt Road into a high-pressure main, and the share of this cost should not, in any case, be borne by the Esquimalt Waterworks, as it would be of direct benefit to the city for fire protection purposes. This main would be capable of delivering about two million gallons per day to either the Esquimalt Waterworks or Victoria, and would entirely take care of the water supply in the city during an emergency.

"I therefore consider that the first

mentioned connection at Wales' barn, if made, would take care of any breakdown at the head works of either the water company or the city, and the connection across the Point Ellice bridge would take care of trouble close in. Together they will look after any possible contingency that might arise.

Total Cost. "The total cost would be \$10,000, and if the before-mentioned basis of sharing costs is agreed upon, then the Esquimalt Waterworks' share would be one-seventh, namely, \$1,430, and the City of Victoria's share would be \$8,570, to which should be added \$500 for converting the low-pressure main into a high-pressure one, and the necessary alterations to services, making a total to the city of \$9,170.

"I do not make any recommendations to the effect that this share is a fair one, as I suggested to Mr. Sayward that the cost of the Wales' connection should be based on the one-seventh proportion and that the cost of the Point Ellice connection should be shared equally, as this connection would not be capable of delivering more than two million gallons per day to the city, and that, on the contrary, it could deliver two million gallons per day to the Esquimalt Waterworks.

"I think that Mr. Sayward would be quite willing to discuss the matter with your committee, and lay his view of the matter before you."

Stomach and Liver Trouble

Once the liver fails to filter the poisonous bile from the blood, there is a clogging up and poisoning of the whole system which causes many troubles to arise. Therefore, upon the liver, more than any other organ of the body, depends the general health. Carelessness and neglect, and often-times wilful disregard of nature's laws will put the system out of sorts. The bowels become constipated, the liver inactive and the stomach upset. To bring the system back to its normal state, you should take Milburn's Laxa-Liver Pills. They lighten up the liver, get the bowels back to their proper condition and tone up the stomach.

Mrs. G. L. Cackel, Enchant, Alta., writes: "I have used Milburn's Laxa-Liver Pills and have found them good for both stomach and liver troubles. I have told others about your valuable medicine and they have used them with good results. They are also good for headache."

Milburn's Laxa-Liver Pills are 25c. a vial at all dealers or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

O'Dowd Retains Title in Vicious Ten Round Battle With Gibbons

Fight Was so Close That Several Ringside Experts Gave the Bout a Draw

Ringside, St. Paul, Nov. 21.—Mike O'Dowd, middleweight champion, and Mike Gibbons, the St. Paul phantom, fought a terrific ten-round bout to-night. It was vicious and close all the way, and, although several ringside experts called the bout a draw, the majority gave O'Dowd a slight shade.

The fight was so close that any one seemed entitled to his opinion. O'Dowd outslugged Gibbons when the phantom threw caution to the winds and fought the champion. When Gibbons resorted now and then to his famous boxing tactics he made O'Dowd miss again and again.

After a Knockout.

From the opening gong it was evident that the two St. Paul fighters were determined to settle their long-standing feud by a knockout if possible. Gibbons at times amazed his followers by deliberately taking stiff punches from O'Dowd in an effort to land his dreaded right cross. Early in the fight O'Dowd's right opened a deep cut over Gibbons' eye, and from then on Gibbons fought under a handicap.

Gibbons had a slight shade at the start of the sixth round, but in the opinion of some sport writers he lost his head when he tried to outslug the champion. O'Dowd seemed the stronger when the fight was over. The crowd gave O'Dowd the warmer reception. Promoter J. E. Reddy estimated the total receipts to be slightly more than \$40,000. Gibbons received 80 per cent. of the gross receipts, out of which he paid O'Dowd \$15,000. Gibbons also had the motion picture concession, and agreed to give O'Dowd 25 per cent. of the film receipts.

Tee to Tee.

Round 1.—The men clinched and Gibbons forced O'Dowd to the ropes. O'Dowd landed a right and left to the body. Gibbons made no effort to box the champion, but stood toe to toe and slugged. Gibbons made O'Dowd miss and landed several light blows in return. A tame round.

Round 2.—O'Dowd drove two rights to the jaw, Gibbons landed a light right cross. O'Dowd was cautioned for hitting in the clinches. Gibbons O'Dowd missed again and again. Gibbons landed right and left to the jaw and his speed rattled the other Mike. Gibbons' round.

Round 3.—Gibbons landed a left to the jaw and O'Dowd missed one. Gibbons landed the first hard blow, a right to the kidneys. O'Dowd began to break ground, but Gibbons out-boxed him. O'Dowd landed a right on Gibbons' eye. Gibbons began to bleed and O'Dowd drove right and left to the body. Gibbons landed a hard right cross on O'Dowd's chin. Round even.

Round 4.—Gibbons bored in and seemingly made no effort to dodge O'Dowd's swings in an effort to get close to his opponent. O'Dowd swung a dozen times and landed twice. They traded swings to the body. O'Dowd again opened the cut over Gibbons' left eye. O'Dowd landed a stiff right to the jaw. Gibbons responded with a right upper cut to the jaw. Gibbons' round.

Round 5.—Gibbons landed right and left to the jaw. O'Dowd missed. O'Dowd drove a terrific right to Gibbons' eye, which staggered the phantom. O'Dowd landed a straight left to the head and drove Gibbons to the ropes. Gibbons was bleeding badly. O'Dowd drove Gibbons into the latter's corner. O'Dowd was outfighting Gibbons. O'Dowd's round.

Clever Foot Work.

Round 6.—Both fighters took things easy at the start. Gibbons landed a right upper-cut to the jaw and they clinched. O'Dowd began to miss again. Gibbons began to outbox the champion. For the first time during the fight Gibbons was applauded for his clever foot work. Gibbons' round.

Round 7.—O'Dowd began to rough it and Gibbons kept away from his heavy swings. Gibbons stopped O'Dowd's rush with a left to the jaw. Gibbons landed on O'Dowd's neck. O'Dowd landed a left to Gibbons' ear and Gibbons went to the ropes. They clinched. Round about even.

Round 8.—Gibbons' eye bothered him considerably. Gibbons hooked a right to the jaw. O'Dowd landed two lefts to the jaw. O'Dowd landed two more light blows. O'Dowd sank his left into Gibbons' stomach. Gibbons landed a right squarely on the jaw.

FANS VOTE STALLERS SHOULD QUIT CIRCLE

Toledo, Nov. 21.—After Jeff Smith, of Bayonne, N. J., and Jack McCarron, middleweights, had stalled through six rounds of a twelve-round bout to-night, Mayor Cornell Schreiber, boxing commission director, asked the crowd for a vote as to whether they wanted to see the rest of the programme. The crowd replied in the negative and the bout was stopped by Referee Pecord.

Eye Troubled Him.

Round 9.—Gibbons began to force the fighting, but O'Dowd again opened Gibbons' left eye and sent Gibbons to the ropes. O'Dowd kept on top of Gibbons and kept the phantom busy. O'Dowd crashed a right to Gibbons' jaw. At this stage of the battle O'Dowd had a slight lead. They traded wallops. O'Dowd landed two straight lefts. O'Dowd's round.

Round 10.—They shook hands for the final rounds. Gibbons hooked a left to the jaw. Gibbons again beat O'Dowd to the punch. O'Dowd missed two blows to the body. Gibbons punned O'Dowd's stomach. The men seemed tired and clinched. Gibbons landed a left to the jaw. The men were fighting viciously when the final bell rang.

St. Paul, Nov. 21.—Examination of Gibbons' right hand showed it was badly bruised and that possibly small bones were broken. Gibbons said he hurt it in the sixth round and put it out of commission in the eighth. George Barton, Minneapolis, and Ed. L. Shave, St. Paul, sport writers, who acted as secondary referees, both gave the fight to O'Dowd.

O'DOWD IMPROVING GIBBONS LOSING IS FIGHT FANS VERDICT

Champion Looks Better With Each Ring Appearance

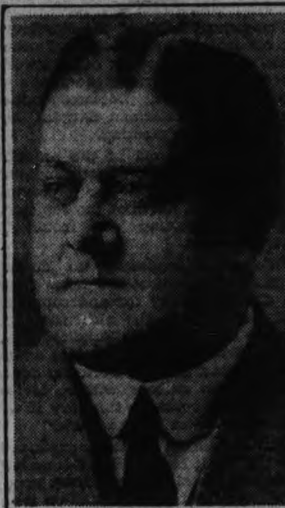

St. Paul, Minn., Nov. 22.—Although opinions of fight experts who last night attended the O'Dowd-Gibbons fight here varied somewhat regarding the outcome, their opinion seemed unanimous that Gibbons has lost some of the remarkable ability which made him the flashing phantom a few years ago. Most of the writers gave the ten-round slugging match to O'Dowd. The opinions varied from a shade to a fair margin. A few of the experts thought that Gibbons' flashes of cleverness, when he landed O'Dowd, entitled him to a draw. Some of Gibbons' supporters admitted he deliberately decided to forget his boxing skill and centre his energies in an effort to engage O'Dowd in a slugging match and put over his right cross for a knockout wallop that would make him champion.

Since Gibbons returned to the ring several months ago, after months of service as a cantonment boxing instructor, it has been noticeable that he lost some of his old time speed. On the other hand O'Dowd, who served in France, and who is only twenty-four years old, has shown improvement in every fight.

LOCAL FIGHTERS TO APPEAR AT PORTLAND

Two local men will box under the V. I. A. A. colors at Portland on the 29th at the tournament to be held under the auspices of the Multnomah Club. The Olympic Club, of San Francisco, the Los Angeles Athletic Club and the V. I. A. A. have been invited to send representatives, and Johnny Morgan, Ray Baker, in the 155-lb. and 125-lb. class respectively will represent the Canadian Club.

LOOKS FOR BIG SEASON

president of the Victoria Amateur Hockey League. After the successful workouts at the Arena last night the popular head of the amateur puck-chasers is firm in his conviction that the race for the bunting will provide lots of good sports this season.

ASKS MEMBERS TO OFFER SUGGESTIONS

Meeting of James Bay Club Wednesday to Discuss Club Improvements

A general meeting of all members of the J.B.A.A. will be held in the club rooms next Wednesday evening, November 26, at 8 o'clock. It is very important that all members attend as many matters concerning the improvements to be made in the club premises will be considered, and the management committee desires to obtain suggestions from individual members as regards these improvements.

Members who play Badminton, hand-ball and basketball or otherwise use the gymnasium are also invited to offer suggestions in order that the highest degree of comfort and convenience may be obtained from the improvements to be made in the gymnasium. The present repairs are proceeding satisfactorily and will soon be completed. The campaign for new members is still in full swing and the various canvassers have been reporting excellent results.

An indoor sports committee will be appointed to arrange for a Badminton and hand-ball tournament for the members. The basketball committee intends to get the players started practicing as soon as the work in the gymnasium is completed, when games will be arranged with other teams.

FREE BOXING NO FUN FOR THE INSTRUCTORS

Thirty youngsters were in attendance at the last free boxing lessons at the Victoria West Hall, and an equally large number is expected at the next lessons Tuesday night. The lessons start at 7 o'clock and last for one hour. The inclement weather had no effect on the enthusiasm of the pupils last week and the increasing number of attendants has made it necessary for more instructors. There will be about half a dozen experienced ringmen on hand Tuesday, and it is probably that each one will be kept busy instructing the young idea in the noble art. "And the job is not so easy as it sounds," says one of the instructors. "You have to allow them lots of rope and some of the lads around twelve and fourteen pack a wallop that has more weight than a feather." Al. Davies is among the new instructors who will be on hand Tuesday.

FIFTY THOUSAND

FRENZIED FOOTBALL FANS ATTEND GAME

Living Stream to Harvard Stadium For Big Encounter

Cambridge, Mass., Nov. 22.—Approximately 50,000 football-mad spectators streamed out to the Harvard Stadium to-day to witness Harvard and Yale in their first contest since 1916. Both teams were reported fit by trainers and coaches. Although experts declare that analysis of previous efforts could show no reason for giving Harvard odds, the Crimson entered the game as the favorites. The results against Princeton showed Harvard the stronger, but Yale's admirers believed the Blue was due for a big come-back. Squad statistics showed the Harvard men taller than their opponents, but one pound lighter in the average weight. The weather is fair and mild.

WESTERN FOOTBALL BODY IS PLANNED

Matter Will Be Discussed at the Annual Meeting To-night

Vancouver, Nov. 22.—The launching of a football association embracing the western provinces, allied with the Dominion Football Association, but to a large extent self-governing, is urged by the officials of the Edmonton City and District Football League. A letter outlining the proposal has been forwarded to the B. C. F. A., and will be discussed at the annual meeting to-night.

The movement does not necessarily mean severing relations with the D. F. A. state Edmonton officials, but would mean fair and equitable consideration for the western provinces in future. For the play-off for the Dominion championship, the champion teams of the east and west would be brought together, the Alberta officials state.

MANCHESTER CUP

London, Nov. 22.—Manchester Cup results: King John won 13 to 2; Planet second, 10 to 1; Chatter third, 9 to 1.

AROUND THE SPORT CAMPS

Germany has been holding out tempting baits in the shape of fat fees to our English crack soccer players. So far they haven't bitten, although Bill Towner, the old Blackburn Rover and International, is returning to act as coach and manager to a club at Munich.

Hand 'em a beating on the battlefield then teach them to play the national game.

"Lots of hard work is what you need," Boyd tells his rugby men. "Hard work never killed any one." "That's so, but I'm looking for a job with an element of danger in it," said one of the fifteen who bucked at the gym grinds.

A touch with the sword and the

King makes men Knights. A few more touches with the glove and Dempsey would have made Willard an angel.

Scientists have discovered a 2,000 year old germ and statisticians have doped it out that soon after 3919 the flu can be definitely stamped out if the ancient germ discovered is near the end of its tether.

By that time we can safely look forward to a season of sport without the interruptions of last year.

Reading soccer club's record wants a bit of bealing. Every professional except one, who was working as a miner and could not get away, served King and country overseas during the war.

TWO NEW ASPIRANTS TO NATIONAL HOCKEY

Applications For Franchise
Will Be Considered
To-night

Montreal, Nov. 21.—At noon to-day President Frank Calder, of the National Hockey Association, received application for a franchise from the National Sporting Club, which is the club that stands financially behind the new Mount Royal Arena. Such application is, in line with the action of the Toronto Arena Company, which held a franchise in the past. Mr. Calder also has received inquiries from a Toronto capitalist asking for the methods of applying for a franchise for a second team in Toronto. These applications will be considered at the meeting to be held preliminary to the annual meeting of the National Hockey League, set for November 29. The preliminary meeting takes place in the Windsor Hotel to-morrow evening.

APPLICATIONS FOR AMATEUR CARDS UP AT CALGARY TO-DAY

Calgary, Nov. 22.—Fifteen or more professional athletes, many of whom were overseas, will know their fate this afternoon when the Alberta branch of the Amateur Athletic Union of Canada considers their applications for reinstatement. Just what the outcome will be is hard to fathom, but it is predicted that all professionals who make affidavit that they will remain an amateur the rest of their lives will be granted a card. This is believed to be the most satisfactory way in which to put amateurism back on its feet in Alberta.

PRINCE AND WILDE HOLD A FANNING BEE

New York, Nov. 21.—Jimmy Wilde, England's sensational flyweight boxer, who is scheduled to make his first American appearance in a bout against Jack Sharkey, of this city, at Milwaukee December 6, was one of the visitors to H. M. S. Renown, headquarters of the Prince of Wales to-day. Wilde, accompanied by his wife and Captain Edward Thupper, seamen's leader of Great Britain, boarded the Renown at 2 o'clock and subsequently had a chat of fifteen minutes with the heir to the British throne.

Prince Edward is a Wilde enthusiast, and it is understood is keenly interested in the British boxer's ring career. Before leaving Mrs. Wilde secured the prince's signature to an autograph book.

LIPTON WILL RACE YACHT NEXT JULY

Hoboken, N. J., Nov. 22.—Sir Thomas Lipton expects to race the Shamrock IV, for the America's Cup next July, he said yesterday at a luncheon given in his honor by the Hoboken Chamber of Commerce. J. B. Herreshoff, one of the designers of many cup defenders, attended the luncheon.

NEW SOLDIER LAND SCHEME IN BURNABY

Vancouver, Nov. 22.—A brand new settlement scheme for the establishment of partially disabled returned men in British Columbia on small farms in groups adjacent to Vancouver and other large centres of population, has been endorsed by the local Soldiers' Re-establishment Board. The Provincial Government, through J. W. Weart, M.P.P., is at the present time being approached with the request that its 400 acres of idle acreage in Burnaby be turned over for use by an organized community, along similar lines to the settlements for able-bodied returned men at Meriville, on Vancouver Island, and Creston, in the Kootenay Valley.

The new scheme is for the purpose of providing facilities for settlement on the outskirts of leading cities of the partially disabled men who, owing to the need of being located close to the big centres to secure special medical or surgical treatment from time to time, and other obvious reasons, are denied settlement in communities already established.

The Department of Soldiers' Civil Re-establishment is lending every support to the idea, and its attitude is largely influenced by the fact that there are concrete examples on record in Vancouver of very severe "problem cases" who, sent out to the soldier settlements already in existence, have completely regained their health and strength and normal outlook on life. The Soldiers' Civil Re-establishment Department, in its experiment with two shell-shocked men, offered to pay the difference between their earning capacity and that of the able-bodied men, but their recovery was so rapid this was found to be unnecessary.

TRIAL OF WINNIPEG STRIKE LEADERS

Winnipeg, Nov. 22.—Practically all the smaller cases on the docket of the present assizes have been cleared away, and the charges against the eight strike leaders and Fred Dixon, M. P. P., and J. S. Woodworth should come up next week.

When the court presided over by Mr. Justice Macleod, opened yesterday afternoon, Robert Cassidy, K. C., leading counsel for the defence in the strike cases, asked that the charges against all the defendants be not heard until after the municipal election, claiming that the present political conditions and the press comment on the civic election would be injurious to the interests of justice.

A. C. Campbell, acting for the crown, agreed to let both cases stand over until Tuesday, when the matter will be brought up again. Joe Moss, proprietor of a fruit store, was convicted of rioting and unlawful assembly and remanded for sentence, as his counsel will appeal for a reserved case to the Court of Appeal on Monday. He was held in custody.

Peter McCook was sentenced to two months in jail on being found guilty of unlawful assembly, to which he pleaded guilty himself.

SUB-COMMITTEE FOR SOLDIERS' RELIEF

Ottawa, Nov. 22.—It is learned that a Cabinet sub-committee will be named to work out the details of the plan for the administration of the \$40,000,000 voted by Parliament on the recommendation of the special committee that inquired into re-establishment problems, to provide necessary relief for returned men during the winter months. The sub-committee probably will be constituted next week, and its personnel is certain to include Hon. J. A. Calder, who was chairman of the special committee of the Commons; Sir James Loughheed, chairman of the Department of Soldiers' Civil Re-establishment; Major-General Newburn, Minister of Militia, and Sir Henry Drayton, Minister of Finance. The sub-committee, before definitely deciding upon its plan of action, will consult the various soldier organizations.

NOW 350 CASES OF SMALLPOX IN QUEBEC

Montreal, Nov. 22.—Three hundred and fifty cases of smallpox were reported to the Provincial Board of Health yesterday. Twelve cases were found in Montreal.

BARNEY SCHREIBER DEAD

Cincinnati, Ohio, Nov. 21.—Barney Schreiber, well-known turfman, died suddenly here to-day of apoplexy.

MR. MILNE FORMALLY RATIFIED IN OFFICE

Burnaby Engineer Will Shortly
Transfer From Mainland
to Saanich

Following the action of the Saanich Council yesterday week, it was inevitable that the Council would select J. E. Milne, municipal engineer of Burnaby, as the engineer. That course was taken at midnight yesterday, by formal resolution, and was carried unanimously.

At that time the Council, with seven members present, voted four to three for Mr. Milne, but declined at the time to pass the auxiliary resolution which always follows a ballot for the appointment of a municipal official.

The new engineer is a returned man with a practical municipal experience in Ireland and Canada. Since he came back from overseas Mr. Milne has been municipal engineer at Burnaby doing work identical to that which is now required by the Saanich Council.

He will be asked how soon he can take up the appointment.

ENJOYABLE DANCE

Robert Burns McMicking Chapter, I.O.D.E., Had Fine Time Last Evening.

A very enjoyable dance was held at the K. of P. Hall last evening by the Robert Burns McMicking Chapter I. O. D. E. There was a very large attendance and the ladies of the chapter are exceedingly gratified with the success. It was the first dance which they have held this season. It is quite likely that others will be held during the winter. The hall was well decorated and the music furnished by Mrs. Roberts' orchestra was all that could be desired. Shortly before midnight a buffet supper was served.

In the absence of the Regent, Mrs. Llewellyn Thomas, the acting Regent, Mrs. R. A. Renwick, assisted by the following officers of the chapter, welcomed the dancers as they arrived, and spared no effort to contribute to their enjoyment and comfort: the Misses Jessie Paul, Mildred Robertson, Myra Renwick, Belle Keown and Jessie Campbell.

WILL CONSIDER ALL APPLICATIONS UNDER THE HOUSING SCHEME

Consideration of applications for loans to be made to returned men under the Federal Housing Scheme will commence on Monday afternoon. All questionnaires under the Scheme have to be deposited at the City Hall before to-night. At the session of the City Council on Monday night, an agreement between the soldiers and the city will be passed. The housing committee will be enabled to proceed with its deliberations at the beginning of the week by the return of Alderman Sangster, who has been attending a fair in Portland.

PROVINCE'S LOAN TOTAL \$37,098,237

Vancouver, Nov. 22.—At a final meeting of the Provincial executive of the Victory Loan yesterday, figures presented showed that British Columbia exceeded last year's splendid total by \$11,418, the exact total being \$37,098,237 and \$36,286,819 this year and last respectively.

The district of Kamloops has won the German gun competition, the interior organization, under the able chairmanship of D. B. Johnstone, having raised a total of \$1,044,250, against a quota of \$326,000, or 322 per cent. of its quota. Vancouver's final figure was \$14,995,700, which places this city tenth in the list.

Victoria occupies eighth place in the gun standing, New Westminster coming fourth.

The comparative statement issued by Accountant G. H. Warde indicates a heavy drop this year in the number of applications. The number of subscribers in British Columbia being 55,557 this year, as compared with 81,125 a year ago. The percentage of applications to quota this year was 216.3, as against 185.1 during the Second Victory Loan drive. In Vancouver the total applications this year and last were 21,641 and 23,398.

Vancouver, B. C.

CITY TO SPECIFY SHOP CLOSING DAYS

So that retail merchants may know exactly what days they are supposed to observe as legal holidays for the complete closing of their stores, the City Council is to take steps to specify the holidays throughout the year, by an amendment to the early closing by-law.

J. E. Wilson, Gilbert D. Christie and P. R. Scutrah, representing retail merchants appeared before the alderman to ask that the holidays be specified as there were a good

many conflicting points as matters stand now, and merchants are liable to prosecution because the law is not clear. The aldermen gave their guarantee that the matter would be attended to at once.

MANY STORES TO CLOSE EARLY ON SATURDAY NIGHTS

By-laws to be passed by the City Council on Monday will force several classes of stores to close at six o'clock on Saturday nights. Decisions to start early closing arose out of agri-

tation by clerks, and a petition necessary number of merchants. The stores affected by the law to be considered by the Council those which sell sporting goods, bicycles, meat and fish, and ware.

WHAT EVERY WOMAN KNOWS

Keating's Powder KILLS Cockroaches. "Keating's" is unrivalled, and harmless to everything but insects. Once a cockroach is brought into thorough contact with "Keating's" it DIES. Sold everywhere in cartons only, 15c, 25c and 40c.

Merit—The Phonola Selling Point

UNLESS made in Canada goods can compete favorably with foreign goods, their makers are unreasonable to expect Canadians to purchase them from a clearly patriotic standpoint.

is a name that means not only a Canadian-made phonograph, but a phonograph that stands out prominently in the world of musical instruments. Foreign as well as Canadian music authorities have proclaimed its merits.

Clear-headed, scientific experimenting since our firm was established has resulted in the master machines we are turning out to-day. Every part of the "Phonola" is built in our factories at Kitchener and Elmira by skilled workmen.

Scientific construction of the amplifier, tone-arm and reproducer, resonating tone control pipes, beautifully designed free swinging universal tone-arms, which enable you to play all makes of disc records; new Angelus Reproducer with its wonderful tone—these are some of the features that spell the superiority of the various Phonola models.

Hear a Phonola at our dealer's, or write direct to us. The Phonola is an artistic treat that will amaze and delight you.

COMMERCE and STANDARD TRUCKS || ELGIN CARS

Commerce Motor Co., Detroit, Mich., ninth year exclusive manufacturers of Motor Trucks.

VALUE OF TRUCK TOLD BY UPKEEP

Expense Record Is Admittedly One of the Chief Features

"When you approach the question of transportation, the problem is merely one of covering certain distances with certain loads; when transportation by truck is considered, the first consideration is the truck itself," says a member of the firm of Milliken-Downer Motor Co., View and Vancouver Streets, Island distributors for Commerce and Standard trucks.

"You don't buy a truck because it has a certain axle, a famous engine or a special steering gear. You buy it because you have been sold it on the idea that it will haul your goods at a lower cost per unit, whether it be the ton-mile of the intercity express or the stop of city delivery.

"Looking at it in this light, it isn't a question of the amount of money you pay for the truck; what interests you is the amount of money it is costing you per unit of hauling.

"There are many considerations which should aid you in determining the make of truck for your business.

Reputation Counts.

"One is the reputation and financial standing of the manufacturer and the facilities he has for manufacturing a product of the highest grade.

"Another is the local dealer from whom the truck is bought and to whom you must look for service.

"It is true in the truck business as in all other lines of business that no one can give you something for nothing, and it has been the experience of large truck operators that it is economy in the long run to buy and pay for the best trucks which can be bought.

"If the reputation, experience, financial standing, etc., of the company are what they should be, your truck will be one of unquestionable merit and worth, instead of low first cost.

"But no matter how good the truck when delivered to you, it requires the best attention in order to remain at its maximum efficiency and deliver ton-miles to you at lowest cost.

"An investment in a truck runs into a considerable number of dollars and when the truck is turned over to a driver you should realize the responsibility you are placing upon him.

"He should realize it, too. Regular inspection.

"It pays to secure good drivers and insist that they go over their trucks regularly and treat them in a proper way, which will insure the maximum results.

"The railroad practice of sending a locomotive to the roundhouse after a certain number of miles, where expert machinists, wipers and oilers go over it carefully to discover and correct any weakness or defect which might later cause delay on the road, is a wise procedure and could well be copied by truck operators.

"Remember, that the whole thing you are seeking is a low delivery cost or a low cost per ton-mile.

"This can be obtained by buying good trucks and giving them the proper attention."

A New Esquimalt Firm.—Peters & Godfrey have started up a new business at the corner of Esquimalt Road and Russell Street, and it is their intention to specialize in the manufacture and repair of automobile carriage springs. Mr. Godfrey served overseas with the Mechanical Transport section and prior to that was engaged for twelve years in one of the largest iron and steel shops in Sheffield. Mr. Peters was formerly a mechanical foreman in the shipyards here, and both men are thoroughly experienced and reliable.

ROAD BULLETIN

(Compiled by the Island Automobile Association.)

Motorists in travelling the Burnside Road, are urged to use care and judgment, as the heavy rains have made the roadbed very soft in spots. Common sense should be exercised, particularly by the drivers of heavy trucks, as they are the cause of most of the damage done now. Repairing is being done constantly by the Government.

South end of Malahat, good.
North end of Malahat, rough and rutty.

Workmen are cribbing the road one-half mile north of water trough at Mill Bay. Logs are being placed horizontally to keep up the bad breaks in the banks at that spot.

Cowichan district, wet and muddy; Duncan to Ladysmith, fair; Ladysmith to Nanaimo, very bad; Nanaimo to Alberni, fair; Nanaimo to Courtenay, fair; road being widened at places; Courtenay to Campbell River, poor in places.

ALL SEASON COLES ARE AN INNOVATION

Six Enclosed Models Embody Aerotype Designs, Says Mr. Plimley

"The all-season models of the Cole, like the Cole Aero-Eight open cars are an innovation that represents a new phase in designing that is both exclusive and original," says Thomas Plimley, local Cole distributor. "Each of the six enclosed models is a criterion of future fashion in enclosed equipages and they embody the features of aerotype design that originated at the Cole factory.

"The Cole Company has been noted for several years as manufacturers of what has been termed 'custom made stock cars.' The personal taste evinced in the selection of the fittings, coloring, upholstery and standard equipment embodied in the Aero-Eight all-season models virtually places it in the class of custom made stock cars. The appointments are such that the most fastidious and discriminating motorist could provide no more in the way of convenience, comfort and utility, if the cars were built according to their individual specifications.

"The unprecedented beauty of aerotype design, the completeness of the appointments, combined with the soundness of the mechanical construction of the Aero-Eight all-season line motorcars that are not duplicated in the automobile world. The economy of operation, the reserve power, the speed and comfort necessary to satisfy the demand for all around passenger car has not been overlooked by the Cole Company and the slogan 'there's a touch of tomorrow in all Cole does to-day' has been justified.

"The enclosed models have the capacity and dependability which an hour in congested traffic or a day on the worst roads will prove. The designers have created cars endowed with an extraordinary sense of permanency without sacrificing the comfort and economy embodied in the open cars."

DEMAND FOR TRAILERS

Lillie & Woods Call Attention to Value of Equipment.

"For those who wish to carry loads back and forth without interfering with the passenger accommodation of their motor cars the trailer is the ideal equipment," says George Lillie, of Lillie & Woods, Douglas Street accessory dealers.

The demand for these handy little contrivances is rapidly increasing, and the excellent service that can be obtained for a small cash outlay is greatly appreciated by patrons who have secured trailers from the local concern. Lillie & Woods also carry a full line of accessories of all kinds.

Trailer manufacturers report sales much larger in volume than a year ago, with a steadily increasing demand. The makers have been very busy since the close of the war getting squared away for a new start. Many have moved into larger plants, erected new factories or otherwise expanded production facilities. Leading companies are doing several times the volume of business ever done before at this season. A number of new companies have been organized recently to manufacture trailers or have gone into the field from other lines, while established manufacturers are bringing out new and improved types or models. Every indication points to great activity in this industry, from this time forward.

Has Three Brakes—"Do not forget that your car has three brakes. Put the gears in 'second,' cut off spark and you'll fear no steep grades," says Frank Elliott, the Marmon man of the Frank Waterhouse Automobile Department. "Shut off your motor and slide into second as you roll across the ridge. Don't drive in second. Shut off the spark if the throttle will not close. Then if you have a 'six' you gain six compression brakes and your motor cools to boot. If necessary a gentle touch of the service brake now and of the emergency brake then generally will hold you nicely. At times the abrupt or long drop will argue for low instead of second in compression. On all but the steepest descents this will hold your car with but very little use of brakes. It will keep your brakes in reserve for real emergencies such as a motorcycle shooting around the curve on your side of the road or some similar hair-raising episode. "Even the expert will remember his joyous discovery of the 'third brake.' He may wonder at the need of reference to it in these columns."

In inserting the tubes in giant pneumatic tires as used on trucks today, it is particularly necessary to see that the flap is evenly distributed around the circumference of the tire. It may seem to be too short at first glance, but after it has been smoothed down firmly it will be so that its base is in line with the base of the beads of the tire.

Our Motor Magazine

The Island Motorist Endorsed by the Royal Victoria Yacht Club as Their Official Organ.

In Ownership It Is the Oldest Motor Paper West of Toronto.

In taking a review of the work done by the ISLAND MOTORIST AND GEORGIAN CIRCUIT MAGAZINE this past year it behoves us to quote from an editorial appearing in a recent number of that periodical, "An instinct for niceties, or term it modesty, often leads us to turn away the opportunity to grasp our just desserts. Do we not sometimes need to remind ourselves as well as others of what we have and of what we are doing?"

In introducing this subject to the readers of The Times, it is our desire to impress them with the fact that we have been largely instrumental in bringing the touring motorist to the Island these past months. It was done principally by creating a greater interest in the wonderful international motor tour, the Georgian Circuit.

It must be remembered that this journal was established in the pre-war days, back in the early months of 1914. It weathered those trying times, when eighty per cent. of similar trade papers went to the wall. In ownership the ISLAND MOTORIST is the oldest motor magazine west of Toronto.

Since our first number we have dedicated the magazine to the furtherance of all that goes to make Vancouver Island a lovely place to live in. More good roads, development of scenic resources, the protecting and aiding the motorist and motor trade and the general speeding up of business.

Our Automobile Associations of the Island were given birth through its aid. The most authentic maps and logs of the Island were compiled by its editor and used by all the Automobile Clubs in the Northwest. These were issued when they were most needed, early last spring and during the summer months.

The motor tourist and information bureau maintained by the magazine has proven a great asset to the city and Island. This is an acknowledged fact.

We have received criticism, some not of the constructive kind, some full of praise for our efforts, as can be gleaned from the following:

From President French.

Allow me to congratulate you on the neatness, brightness and general excellence of your journal. You do not appear to spare money or time in its compilation, and the result is something that you should be proud of.

As an advertising medium I believe it second to none.

C. H. FRENCH,

President, Island Automobile Association.

From The Seattle P.-I.

The ISLAND MOTORIST is in a class by itself. Allow me to congratulate you on the make up and editorials. The motorist of Victoria and the entire Island have something to be thankful for, as such publications as yours are not found in every community.

Yours sincerely,

A. J. KENNEDY,

Automobile Editor, Seattle P.-I.

From Mayor Gale, Vancouver City.

Your publication is among the best of its kind, and I receive it with very great pleasure, because of the entertaining manner in which genuine instruction as to routes, accommodation, etc., is furnished to any portion of Vancouver Island. Wishing you every success.

Yours truly,

R. H. GALE.

Portland Journal.

Much impressed with the courtesy and service you maintain at the dock at Victoria.

JOURNAL PUBLISHING CO.

Seattle Times.

I want to congratulate you on the excellence of your magazine, which has always commanded my admiration, knowing as I do the difficulties under which you must labor.

WM. A. SIMONDS,

(Then) Automobile Editor.

Automobile Club of Western Washington.

Splendid—Wish we had you over here.

DOUGLAS SHELOR,

Manager.

From Ex-Mayor Todd.

I feel your monthly magazine has performed valuable service for Vancouver Island and the "Georgian Circuit" territory.

The unique nature of the magazine, its brightness and "booster" spirit have helped greatly in the fight to make better known, and more attractive through improved roads, the magnificent residential and tourist areas on both sides of the international boundary, of which Victoria is the "hub."

The courtesy and assistance that you personally so frequently display in assisting tourists at the Victoria docks is frequently a subject of favorable comment, and has done much to popularize Victoria in the minds of visitors. Every future success to you.

Yours truly,

A. E. TODD.

From Toronto.

We have been noticing your numbers from time to time, and they are certainly up to good standard, and are glad to see that your paper is showing such excellent signs of prosperity. You surely are giving a good service to that beautiful part of the country, and no doubt it is appreciated by motorists in general.

Yours sincerely,

A. A. BRIGGS,

Advertising Manager,

Dunlop Tire & Rubber Goods Co., Ltd.

These are but a few of the many kind things said about your local motor magazine.

Our aim just now is to get a good percentage of the 6,000 automobile owners of Vancouver Island on our subscription list. While it is true we are fast adding all the real dye-in-the-wool autoists to the list, we want more.

A subscriber is entitled to its Bureau of Information, Road Maps, Logs, Hotel and Garage Recommendations are furnished, upon application.

To its readers it offers all an autoist desires in motor lore.

The subscription price is \$1.00 per annum. P.O. Box 358, or phone in your order to 229 or 5715X and 5245R.

It is a Pleasure to Answer Your Call

Since our first number we have dedicated the magazine to the furtherance of all that goes to make Vancouver Island a lovely place to live in. More good roads, development of scenic resources, the protecting and aiding the motorist and motor trade and the general speeding up of business.

Our Automobile Associations of the Island were given birth through its aid. The most authentic maps and logs of the Island were compiled by its editor and used by all the Automobile Clubs in the Northwest. These were issued when they were most needed, early last spring and during the summer months.

The motor tourist and information bureau maintained by the magazine has proven a great asset to the city and Island. This is an acknowledged fact.

We have received criticism, some not of the constructive kind, some full of praise for our efforts, as can be gleaned from the following:

From the Largest Auto Dealer in B.C.

It speaks for itself when I say that we have never missed a month to carry less than a full page display advertisement in the ISLAND MOTORIST.

TOM PLIMLEY.

From the Auto Trades.

The Island Motorist and its hustling editor does more for the Island and the motoring interests than any other medium we know of.

LILLIE & WOODS,

Accessories.

I consider the ISLAND MOTORIST a most effective advertising medium.

W. JAMES RENNIE,

Rennieservice Garage.

The Acme Auto Repair Shop is growing, and we give credit to the assistance we have received from the ISLAND MOTORIST.

COOK & MASON.

We have used the ISLAND MOTORIST as an advertising medium ever since we have been in business; we attribute a great deal of our success to a wise advertising policy.

REVERCOM MOTOR CO.,

Federal Truck Distributors.

As one of the original advertisers in the ISLAND MOTORIST, faith in it has made me a constant one.

WM. MABLE,

Goodrich Truck Tire Distributor.

The popularity of your more than interesting magazine, the attention which you are always ready to bestow on any enquiries we may make, and a thousand other good points that your periodical possesses, establishes us as ardent advertisers through its pages.

We believe the wide circulation it enjoys renders it invaluable as an advertising medium and we feel sure this statement will be reiterated by all who avail themselves of this opportunity to introduce their various commodities to the public.

NATIONAL MOTOR CO., LTD.

R. T. Ward, Secretary.

I have advertised in the ISLAND MOTORIST ever since I opened my Simonizing Station and have received very good results. I have traced them direct.

W. H. HUGHES,

Island Simonizing Station.

Common talk: The way in which the ISLAND MOTORIST handled the incoming and outgoing tourist this year is most commendable. We are sure 1920 will see a like devotion to the good cause. Victoria should "boost" a "booster."

R. E. McMORRAN,

McMorrans Garage.

The ISLAND MOTORIST has been the means of attracting hundreds of tourists to Vancouver Island during the last few years and should receive the support of every loyal resident.

F. JEUNE & BRO., LTD.

RECORD ASSEMBLING OF FORD MOTOR CARS

Pride of Output Among Workers Secret of Successful Production

Discussing the rapid assembling of Ford cars in English factories, a writer in The Overseas Daily Mail has the following to say:

Pride of output among the workers is one of the secrets of successful mass production.

When I visited the Ford company's works in Trafford Park, Manchester, I found the British workmen there stated over a claim that they had beaten the American workers at their own specialty. They had completely assembled a Ford car in the remarkable time of eleven minutes, which they claimed was well ahead of anything achieved in the Detroit works.

I have discussed the question of mass production in Britain with many manufacturers. One of the objections often raised is that our workmen would not take to this class of work. But on a tour round the works where British workmen are engaged on American methods I found the greatest keenness and enthusiasm.

To encourage this a large blackboard is placed in a prominent position and the progress of production is marked up. At twelve o'clock, when the organized hustle in the works ceased like magic for the luncheon interval, workpeople crowded round the notice board studying the latest figures. The week's total was 509 completed cars, the morning's total fifty. Five hundred cars a week is the average output.

The methods which enabled British workmen to assemble an American car in eleven minutes were instructive. The car parts arrive in barges up the Manchester Ship Canal. The boxes are unloaded and unpacked and moved by machinery to the various places of assembly. The engines after being tested by an electrical appliance—a matter of a minute or so—are placed in a kind of trough and moved along by a chain.

While they are moving the fitters are working. They have to complete their job of fitting in plugs and other accessories before the engine gets to the end of the trough. The time is sufficient and the men know it is sufficient; therefore any failure needs explanation. It would also hold up the whole operation of assembly, for as soon as the engine gets to the end of the trough it is picked up by a lift and dumped on to the chassis. The engine and the chassis are now in motion. The engine is bolted on to the chassis, the men moving along with it. An appointed place wheels drop down from a chute. These are put on while the chassis is still in motion.

A little farther on the body is swung on to the chassis from a lift. The same applies to the wings, lamps, radiators, and other accessories, all of which appear at the right place at the right time. From the moment the assembling of the car starts it is on the move until it runs out at the far end of the works under its own power with a driver at the wheel.

The National Motor Company are the local Ford distributors.

HAVE WRONG IDEAS ABOUT USED AUTOS

Trading in of Cars To-day Is Matter of Style, Says Jack Cartier

"I have really come to believe during the past couple of years that the average automobile buyer, when a used car is mentioned to him, immediately gets the thought that the car is one that somebody got rid of because it gave trouble," says Jack Cartier, Johnson Street.

"To others, the used car conveys the thought of a worn-out automobile, fixed up a little bit and 'I had better put my money in something new to save trouble,' is the verdict. 'These opinions are, from my point of view, very foolish. There are undoubtedly plenty of worn out automobiles, but dealers are, we trust, quite keen to put their own money into antiquated and worn-out vehicles. The trading in of cars to-day is more a matter of style than anything else.

"If a suit of clothes cost 2,500, a man would certainly demand quite an allowance price from his suit if he turned it in after wearing it only six months or so, and he would be rightly entitled to a goodly sum as part payment on his new suit. A new automobile represents quite an outlay of money and can't be discarded after six months or a year's running like wearing apparel.

"From a service standpoint, cars which have gone from 2,500 to 10,000 miles, and in a great many cases, 15,000 and 20,000 miles, will give just as good service if they are properly looked over and reconstructed as brand new automobiles. 5,000 to 10,000 miles is not a scratch on the ultimate life of a motor car. If it has been given any kind of attention, and even if a car has seen reasonably hard service, the expenditure of 250 to 300 will rebuild the average automobile completely. The sum of money, when expended on a car, entitles a man new tires, new top, new paint and a rebored motor, and all worn gears replaced. There are other minor parts, of course such as clutch, wheel bearings, etc., which should also be given attention."

NASH PLANT FORCED TO NEW EXPANSION

Demand For Cars Makes It Necessary; Four-Cylinder Cars Popular

The Shell Garage, local Nash distributor, learns that the Nash Motors Company which has been in business only three years has outgrown the facilities of its present large factory and has been forced to build another factory in Milwaukee for the manufacture of a new Nash four cylinder car is one of the most interesting since the early days of the industry when phenomenal growth was the rule rather than the exception.

The Nash growth is all the more remarkable when it is remembered that during practically two of these years the country was at war and business conditions abnormal.

The present Kenosha factory, one of the largest and best equipped in the industry, in the second year under the Nash regime did a volume of upwards of \$47,000,000 worth of business. Its output for the current fiscal year is 40,000 passenger cars and 6,000 trucks. Yet this manufacturing capacity is entirely inadequate to keep pace with the increasing demand for Nash products.

Public is interested. Speculation as to details of the new four cylinder car is evidently widespread judging from the volume of inquiries from all parts of the country now being received at the Kenosha factory. Interest in this new car is apparently just as great as was that preceding the appearance on the market of the present Nash Six.

From the tone of the letters and inquiries coming into the Nash factory it is evident that the unusual success of the Nash Six in the hands of the public during the last three years has caused it to be taken for granted that the new Nash Four will be a real leader in its class, and that it will be in every way up to high Nash standard.

Particular interest is being shown in the type of motor which will form the power plant for this new car. Although the Nash company is not yet ready to make public the details of the Four as to the size and type of motor, etc., it has been made known that this car has been in the course of designing, perfecting and refining for the last twelve months and that it has been subjected to very thorough road tests during this period.

Nash Has Unusual Power. Nash engineers say that these tests have shown the new car to possess to a marked degree for a car of its type, that unusual power which has caused the Nash Six to find such favor with buyers everywhere.

Those who know the difficulties involved in designing and perfecting a motor car realize what a manufacturing accomplishment it is for the Nash Motors Company to announce this new addition to its line so soon after turning from war work. They say that this is another striking testimonial to the Nash ability.

Forty acres of ground have been purchased in Milwaukee and contractors are already at work erecting a factory there for the exclusive manufacture of the four-cylinder car.

It is expected that this Nash plant will be finished well within a year and that the new car will be in production sometime before September 1, 1920.

Factory for Nash Fours. The new Milwaukee factory will comprise a power plant, foundry, machine shop, drop forge department, body building plant and sheet metal plant. When finished it will be equipped to build Nash Fours in as large a volume as Nash Sixes are now being built in the Kenosha factory. The cost of the Milwaukee plant will run into the millions and it will ultimately be as great a manufacturing institution as the present factory at Kenosha.

The location of this second Nash plant in the Badger state will make Wisconsin a real rival to Ohio and Indiana for second place to Michigan among the automobile producing states.

OPEN NEW DEPARTMENT

The Columbia Ever-Ready Battery Handled Here by R. E. McMorran

R. E. McMorran, local Hupmobile and Briscoe agent, has set apart a section of his large garage on Johnson Street for the exclusive use of his battery experts, and everything is now complete for the handling of all classes of battery repair, recharging and other phases of this line.

"Columbia Ever-Ready batteries have made a name for themselves, and their popularity is known everywhere," says Mr. McMorran. "I have just closed with the factories for the agency here and henceforth we will be in a position to supply these batteries to our many patrons in the city and on Vancouver Island."

GREAT AUTO SHOW

Olympia Exhibition Revived Since War; Cars in Big Demand.

London, Nov. 21.—The great annual automobile show, at Olympia, which was revived last week for the first time since the war, produced an ironical situation, as, while the show was larger than ever, overflowing into adjacent shops, no exhibitor promised delivery until next September. The cost of exhibition space has risen more than 100 per cent, and only pleasure cars were on view.

BATTERY DEMANDS PROPER CHARGING

"Like Man Weakened by Lack of Proper Food Otherwise," Says Expert

"A battery that is run down for lack of proper charging is like a man who has been weakened by a lack of proper food," says Victor Rolfe, local Willard expert, of the firm of Jameson, Rolfe & Willis. "The battery is too weak to take the charge in the normal way, just as the man who has not had sufficient nourishment may be too weak to work for a meal. For this reason it is useless to try to charge the battery by running the engine of the car."

"The proper method to follow with such a battery is to put it on charge at an extremely low rate for a short period and then gradually increase the rate until the normal charging rate has been reached. This can only be done at some service station which is properly equipped for this sort of work."

"Occasionally someone asks us if this job cannot be done by running the engine slowly at first and letting the battery charge in that way for several hours; after this process has been allowed to proceed for some time the idea would be that your engine should be speeded up so that normal charge would proceed. Of course, this process is not a workable one. The one thing that stands in the way of such a charging process is that the generator is so constructed that it supplies current at nearly normal voltage almost as soon as it begins to supply it at all. No matter how fast or how slow the engine runs the current supplied will be just about the same, and instead of charging and helping the weakened battery, it will heat and probably injure it."

The motor truck owners should impress on his drivers certain fundamental truths, one of which is that they should take corners slowly, no matter whether the truck is empty or loaded. They should also be instructed to back into a curbstone or platform gently and not as too many of them do—with a bang. In driving the front wheels against a curb or other obstruction the shock is taken by the springs alone and a little carelessness may cause serious damage.

The car owner should not forget that ordinary vaseline is perhaps the best medium available for coating battery terminals and connections. The vaseline has the great advantage of preventing corrosion from acid or water that may have been spilled.

Another FEDERAL Facts Worth Considering

A motor truck basis for the Allied Armies proved essential to the winning of the war. A motor truck basis is just as necessary in your business. Speed up to success with Federals.

GRAY DORTS HAVE
SOME FINE POINTS

Jameson, Rolfe & Willis Re-
ceive Shipment of 1920
Models

A shipment of 1920 Gray Dorts just received by Jameson, Rolfe & Willis, disclosed some of the latest improvements in the way of motor mechanics. There are changes in the brake system, the gas tank is now placed at the rear of the car and is supplied to the carburetor through a Stewart vacuum system, the emergency brake is now controlled by a lever and the working of the clutch system is something to be proud of.

"The engine in this wonderful little car has always been a marvel but the 1920 model is even better than last year's and the owner of a Gray Dort can always be assured that he will experience no difficulty in negotiating the steepest hills and he can do it on high if he so wishes," says Mr. Jameson.

The 1920 model has more room in the body and gives considerably more foot room, the upholstery is deeper and of good quality and the car is equipped with Ford size tires.

QUALITY ATTAINED
BY SEVERE TESTS

Overland Four Marketed Only
After Reaching Perfection,
Says Thomas Plimley

Two shipments of Overland Fours and one of Chandlers received this week, with another shipment of Cleveland three-passenger runabouts would, it might naturally be expected, place Thomas Plimley in a position to keep ahead of the demand for the cars which he is handling, but such is not the case, as nearly all the machines are already spoken for. However, other deliveries are expected shortly and Mr. Plimley promises to do his best to keep his patrons supplied with cars with as little delay as possible.

"Cars have been given severe tests, but it remained for the Willys Overland Company to apply the supreme test to its latest model Overland 4," says Mr. Plimley. This test, it is believed, has established new standards of testing and refinement of details to make a car practically perfect mechanically before it goes to an owner.

The history of the development, building and testing of Overland 4, which introduces the new three point spring suspension, covers a period of years. The car is the product of a decade of progressive engineering achievement toward the ideal light weight car; of a year's intensive engineering experiment and two years' actual demonstration and test in all kinds of weather and on all sorts of roads.

During the two years of test, Overland 4 was given 250,000 miles of actual road demonstration. That's ten times around the world before a single car went on the market.

These tests were of great value to the engineering and the production departments of the Willys Overland Company and, finally, to the man who buys the car. A staff of engineers studied the car during these 250,000 miles of test to determine every refinement and improvement that might be necessary to make the car when it went on the market free from service troubles and of assured economy of operation and perfect ease of riding because of the new three point springs.

The value of 250,000 miles of exhaustive testing may further be judged from the comparison with the usual custom of sending a new car into the market after it has been pounded on roads in some 25,000 to 75,000 miles of demonstration. Overland 4, it is said, is the first car that has gone on the market with a pedigree of perfect production after two years of constant testing.

The new three-point suspension springs had done everything the engineers had hoped for in saving the car and introducing an almost uncanny ease in driving; the all-steel construction of the car gave it a ruggedness unusual in any light car. It was in these tests that the Willys Overland Company developed the phrase which describes Overland 4, because of its three-point springs, as the most important improvement in motor car construction since pneumatic tires.

Motor Necessities.—The Motor Necessities Company, seventh floor B. C. Permanent Loan Building, of which P. P. Hoyte is manager, reports a change in the financial arrangements brought about by the increasing amount of business, which promises to place the concern on much more extensive footing. Motor Necessities is a young concern, having been established here only a couple of months ago, yet it has enjoyed more than its full share of patronage, Mr. Hoyte being well-known in the local automobile circles. This fact probably is responsible for the success of the venture. All lines of accessories are carried by the company.

Soap for Gas Leaks.—Comparatively few owners and drivers of motor cars are aware of the value of soap for sealing leaking joints in the gasoline system. Very frequently gasoline comes out around the filler cap, especially when the tank is nearly full. Such a leak is objectionable be-

cause the gasoline spreads over the outside of the tank, which nowadays is usually carried at the rear of the car, collects dust and impairs the finish. A coating of ordinary soap on the gasket and threads will prevent leakage, even when the tank is full. When joints in the fuel line, and around the carburetor in particular, develop small leaks a coating of soap will usually prove efficacious.

When the storage battery is carried in a wooden box there is always trouble from the acid slopping over and eating the wooden box. Wood may be made proof against acid by painting with a mixture made of six parts wood tar and twelve parts resin. These ingredients are melted together in an iron kettle,

after which eight parts of finely powdered brick dust are stirred in. The surfaces are first thoroughly cleaned and then painted with this mixture warm.

A rattling fender may often be a sign of adjustment are not always instantly apparent. In carburetor adjustments, for instance, the motor must be given a little time to feel the changes made, and the results obtained immediately following the turn of a needle valve or an air valve spring may be misleading.

Drivers, or the men in charge of this class of work, should be compelled to give their tires a daily cleansing. Mud should be scraped off and the tire should be washed with

a little water, a sponge not too wet being used. Not only is this good for the tires, but it enables easy detection of small cuts and abrasions, which should be repaired at once before they have a chance to become larger.

Valve Adjustment.—When making engine adjustments it is usually necessary to exercise a little patience in order to get the best results, for the reason that the effects of adjustments are not always apparent. In adjusting the needle valve of the carburetor, for instance, the engine must be given a little time, say four or five seconds, before it shows the effect of the change. This is because there is frequently a supply of loose gasoline

lying along the inlet manifold, and so the change in the supply from the spray nozzle does not immediately affect the running of the engine.

Don't spend a lot of time cranking the engine with the starter if it fails to start after a few trials. Look for the cause of the trouble. Continuous cranking runs down the battery.

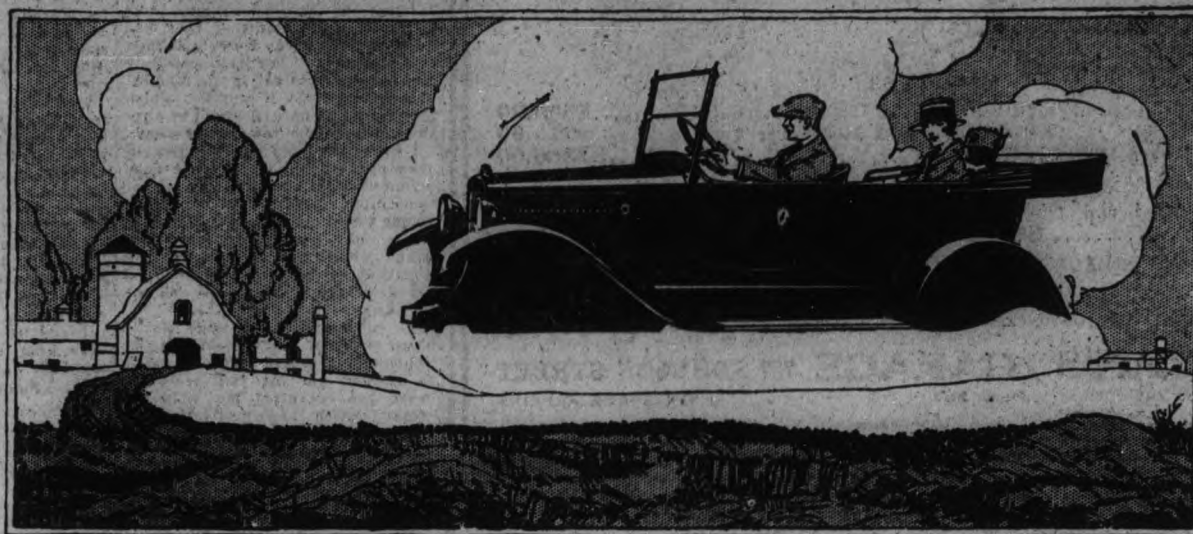

There is no need to tell the old driver that railroad tracks should be crossed diagonally to ease the jolt which is bad enough at best, but the new driver will save himself some shaking up by heeding this advice. Again, it will be found advantageous to drive up long steep grades in the

country, where traffic is light, in a series of zig-zags, as teamsters do. This lightens the grade and helps the motor.

The driver of a truck or converter using pneumatic tires must be careful never to leave the end of the tire valve uncovered. If the cap is lost a bit of leather or rag should be fastened over the stem with a string or a rubber band. If dirt or grit is allowed to enter the valve trouble will result.

Drive using the lower gears. Shifting of the gears readily shows a good driver and at the same time often prevents stalling the engine in a dangerous place.

Overland

With Three-Point Suspension
Springs New Overland 4 Seems to
"Sail Over The Roads"

THE new Three-Point Suspension Springs of Overland 4 permit the wheels to go up and down but protect car and passengers from ordinary road jolts.

Bumping, twisting, swaying and vibrating are wonderfully lessened. The blows of the road seldom reach you. There is less tendency to bodily fatigue after long rides.

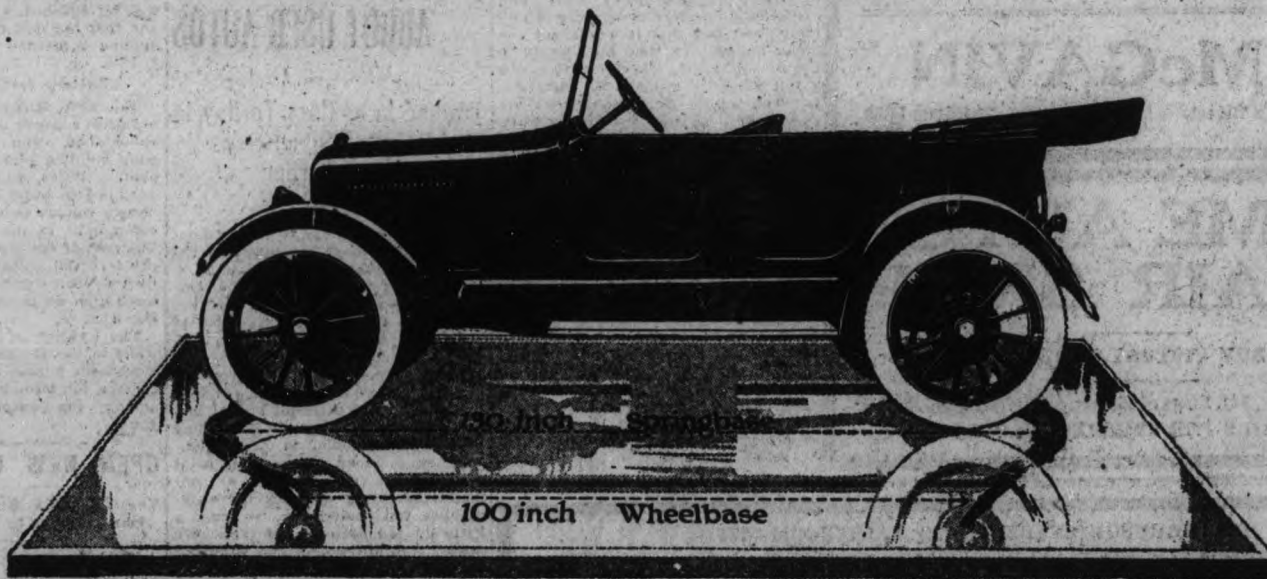

The springs of Overland 4 attached at the ends of a 130-inch Springbase give the riding comfort and road steadiness heretofore possible only with cars of long wheelbase and great weight, yet Overland 4 retains the light weight and economy advantages of 100-inch wheelbase.

Three-Point Suspension Springs protect the car from the hammering and wear of road blows. They lengthen its life and reduce upkeep costs.

Equipment of Overland 4 is dependable and complete from Auto-Lite Starting and Lighting to Demountable Rims.

250,000 miles of test have made the strength and endurance of this car a matter of record.

See Overland 4 at the first opportunity. Ask for Booklet. Overland 4 Touring, \$1195; Roadster, \$1195; Coupe, \$1845; Sedan, \$1995. Prices f. o. b. Toronto, War Tax included.

Now Meat is so expensive—

OXO Cubes should be more used than ever!

Think what OXO Cubes can save you in the course of a year!

For soups, sauces, gravies, savoury dishes and meat-jellies they do all that meat can do, and do it quicker and with less trouble.

**Nothing need be wasted—
Nothing thrown away.**

With OXO Cubes oddments and "left-overs" need not be put aside. They can be created into ideas for the menu—delicious, inviting, and quite inexpensive.

Another point to remember—

OXO Cubes not only add their own goodness and flavor, but possess the peculiar property of making other foods yield more nourishment than they otherwise would—hence, food goes farther when OXO Cubes are one of the ingredients of the dish.

CUBES

The little money-savers!

Prices same as before the war: 10c., 25c., \$1.15, \$2.25.

BATHHOUSE QUESTION REACHES SETTLEMENT

Settlement of the question of jurisdiction over the swimming baths which promoters intend to build in

Oak Bay was arrived at during a meeting of the Oak Bay Council last night. The Council will have the power to control the way in which the baths are conducted as far as public health and morals are concerned, but will have nothing to say with regard to prices, hours of operation, or the internal management.

With this agreement reached, representatives of the Council and of the promoters will lay before the Government to-day or on Monday a draft lease for the foreshore desired as a site for the bathhouse.

Three million dollars for a phonograph!

That's what it cost to perfect the only instrument that RE-CREATES music so faithfully that no one can tell whether it is the living artist he hears or the phonograph—when one is heard in direct comparison with the other. Add to that three million dollars, Thomas A. Edison's genius, his vast knowledge and his indomitable will and you realize how much was required to make

The NEW EDISON

"The Phonograph with a Soul"

"Now go ahead and build replicas," said Mr. Edison to his staff when he had finally achieved an instrument which would meet the tone test. "Call it the Official Laboratory Model and uphold the standards I have set to the last detail."

This three million dollar Phonograph is on display here—come in and hear it.

Ask for a copy of the beautiful book "Edison and Music" and the booklet "What the Critics Say" which proves Edison's superiority.

AMUSEMENTS TO-DAY

Royal Victoria—Orpheum vaudeville.

Pantages—Vaudeville.

Dominion—Katherine MacDonald in "The Thunderbolt."

Variety—Mitchell Lewis in "Nine-Tenths of the Law."

Columbia—"Romance of Tarzan," and "The Red Glove," featuring Marie Walcamp.

Romano—Ruby de Remer in "Dust of Desire," and Ruth Roland serial, "The Tiger's Trail."

DOMINION

How a child swayed the destinies of an unhappy married couple and ended a feud that embittered the lives of two families is told in "The Thunderbolt," starring Katherine MacDonald, and which will be shown at the Dominion theatre, all week.

As Ruth Pomeroy, Miss MacDonald plays the part of a girl compelled to marry the only living member of the Corbin family, a family whose hatred for the Pomeroy's had dated back for generations, or suffer her father to be exposed as a forger.

A staggering realization of the reason why Bruce Corbin wanted to marry her comes upon Ruth Pomeroy when her unloving husband tells her that he married her not for love, but for the purpose of wiping out the Pomeroy family. She then perceives that according to his purpose her death will witness the extinction of her family.

A strong determination, backed by the fire of her pride, leads her to fight against what seems in store for her. And her efforts against an enemy husband defeat his plan and bring happiness out of a "spite" marriage.

VARIETY

"Nine-tenths of the Law," today's photo-dramatic offering at the Variety, presents one of the most human and altogether touching stories that have come out of that paradise of story teller, the North Woods. It is so big and simple in its conception and so direct in its development that it will have almost universal appeal. Child interest, intense mother love and stirring personal encounters between rugged men of the woods are features of the tale, which is pictured in a wood region in perfect keeping with the story. The plot as was set is simple but effective. Leneau and his wife, who live in a cabin, lose their own baby early in the story. Red Adair and his partner have kidnapped Little Roughneck, who starts out alone while they are in a drunken orgy. The child wanders over to Leneau's place and falls into a bear trap, where he is found the next morning. Leneau and his wife, still mourning for their own child, at first refuse to give him up or look for his family. Later, after Leneau has had mortal combat with the kidnappers, he learns that Little Roughneck belongs to a judge living at Vancouver. He leaves his dependent wife to take the child back to the city. Then comes the surprise finish, which is too good to spoil by simply relating it. This is a feature that will make its way wherever shown.

ROMANO

Ruby De Remer, the star in the new World picture, "Dust of Desire," was born in Denver, Colorado, and began her stage career with the "Midnight Frolic," a Ziegfeld production. Her connection with the screen includes Ivan productions, Rex Beech ("The Auction Block"), "His First," and "The Great Romance" with Harold Lockwood, etc. She was featured in "Safe For Democracy," and also in "Ashes of Love." Miss de Remer will be seen in "Dust of Desire" at the Romano for the last time to-day, in addition to Ruth Roland's serial, "The Tiger's Trail."

PANTAGES

An excellent array of vaudeville talent will be in evidence at the Pantages Theatre during the coming week.

The headline attraction Harry Girard and Company will offer a melodrama of love and adventure entitled "The Luck of a Totem," an Alaskan incident from the days of '98. Mr. Girard was one of the gold seekers who travelled the hard trails of the Yukon and this offering was written by himself and based on some of his experiences while in the Land of the Frozen North.

Joe Whitehead billed as "Nothing Serious," will amuse with his non-sensical comedy bits and his clever dancing.

Chas. Mack and Company will offer a comedy sketch called "A Friendly Call," which is full of comedy and pathos and also some neat dancing.

Cardo and Nell, late stars of Hammerstein's Naughty Marietta Co., will render selections in an artistic manner. They are billed as "Supreme Singers" and deserve the title.

Bernivict Brothers will offer "A Night in Venice," composed of violin selections and vocal numbers.

Raymond Wilbert will offer something unusual in hoop rolling and comedy. The eleventh episode of "The Carter Case" will be shown by the Pantagescope.

PROGRAMME ABOUNDS IN BRILLIANT HUMOR

Orpheum Artists Provide Entirely New Line of Jokes, Songs and Dances

A steady and unrestrained stream of humor was provided by the Orpheum artists at the Royal Victoria Theatre last night. It was the brightest, liveliest and most entertaining bill that has been presented by a vaudeville house for a long time. Comedians—mostly men of pretentious girth—held undisputed sway for two merry hours. It was indeed good to hear a complete new line of jokes and songs and a few new dancing steps. The whole programme was brand new.

"Mayblossom" provided a most pleasing change from the regular run of playlets. In it a most ludicrous position arises over the clothing of a model and John Hyams, who tries to pass himself off as an artist, succeeds in working up the audience, as well as himself, to an unwarranted degree of expectancy. Leila McIntyre, a coy and ambitious young school mistress who sees great fame for her as a model, is the victim of a most unjust and delicate situation. Hyams mistakes the picture of "Mayblossom" for which Leila is to pose, for one of a nymph of the woods, clad only in a loose-flying streamer. Hyams tries to stop her from appearing, but her desire for fame sends her forth. Hyams as well as the audience, are surprised to find Leila clad in a quaint quakeress gown. The acting, dancing and singing of this pair of talented artists is delightful.

The Rigoletto brothers, assisted by the Swanson sisters, have a very novel act of diversity. The posing of the brothers is very artistic. Charles Rigoletto gives a most unusual display of muscular control. He is very powerfully built and can draw his muscles into various contortions. The turn has a whirlwind climax. Henry Rigoletto, the originator of the one-man band, is equal to a jazz band.

James H. Cullen as "The Man from the West" proved a very efficient entertainer. His parodies on the latest songs provoked unlimited mirth and his quotations from his notebook were choice bits of two-sided announcements.

"You'd be surprised" was the song with which George Watts, a man of whom Nature never made a duplicate, scored a decided hit. With the assistance of his clever partner, Belle Hawley, George succeeded in putting over several catchy songs and up-to-the-minute jokes.

The singing and dancing skit of Charles Cartmel and Laura Harris was well received. Any girls who are anxious to learn the latest slams with which to educate their sweethearts who might be holding the "greenbacks" too tightly, ought to go and listen to Laura tell off Charlie. Laura and Charlie are very dainty dancers and their goings steps are good.

Van Cellos is about the fastest foot juggler that has visited this part of the country. Some of his stunts with a barrel are entirely new and as they are performed with such rapidity, appear almost simple.

After traveling the stage for fifty-two years Fox and Ward have finally reached Victoria. They have a free running line of humor and recount their stage experiences.

SERVICES IN THE CITY CHURCHES

ST. JAMES GETS A NEW HEATING PLANT

Gift of Mr. Cooley is Much Appreciated; New Lighting Installed Recently

With a new lighting system and a new heating system just installed, St. James Church, corner of Quebec and St. John's Streets has, within the past few weeks, undergone a wonderful change and the comfort and convenience of the new arrangements will be greatly appreciated by the congregation.

The new heating was used for the first time at last Sunday's services. For some weeks past a number of the men of the congregation have been engaged in putting in a large concrete furnace room and a concrete passage-way from the outer entrance to the furnace room.

It is to H. V. Cooley, the heating expert, that the thanks of Rev. H. T. Archbold, the rector, the management committee and congregation are due for making it possible to do away with the old system of stove heating and replace it with a splendid modern equipment. The furnace itself was not only donated to St. James' by Mr. Cooley, but the work of installing it was also performed gratis. The only expense that the church is put in connection with the new heating arrangement is the cost of the material used in the construction of the furnace room and a few fittings. While the monetary value of the improvements donated by Mr. Cooley represents a very large figure, the spirit in which the gift was made is heartily appreciated by all.

St. James' has suffered for a number of years the inconvenience consequent upon poor lighting and heating. Recently, through the kindly assistance of T. R. Myers and other officials of the B.C. Electric Railway Company, it became possible to replace the old reflector lamps with modern incandescent lamps. The improvement in lighting and heating, the church has been made brighter and more comfortable, and it is anticipated that it will result in a considerable increase in the regular attendance.

DEAN QUANTON RETURNS

Indicates American Opinion on League of Nations.

Dean Quanton returned to the city yesterday afternoon after an extended tour in Pacific Coast states, fulfilling lecturing engagements.

Dr. Quanton addressed the professors and students of Oregon State University on the subject of "Post-War Theological Reconstruction," last Sunday afternoon, and later spoke to an audience of 2,500 on a visit to the State Agricultural College at Corvallis, Ore.

The Protestant Episcopal Church secured the Dean as the speaker at the annual meeting of the League of Nations, an effort promoted by the church and similar to the Anglican Forward Movement launched by the Canadian Church.

League of Nations. Questioned as to the American sentiment concerning the League of Nations, shelled this week by the United States Senate, the Dean said: "The general opinion amongst representative Americans in the West is that the present deadlock with regard to the League of Nations is just 'playing politics'."

Out of ninety-six members of the Senate, forty are supporters of President Wilson, forty are opposed to the President but favor a League of Nations, and sixteen are opposed altogether to the peace treaty. Thus eighty members of the Senate want the peace treaty, and it is felt that eventually no particular movie house is mentioned. Surely it does not apply to all movie entertainments.

At Cathedral To-morrow. The Dean is announced as the preacher at both morning and evening services to-morrow in Christ Church Cathedral, of which church he is rector. Choral evensong at 7 o'clock, Nov. 23.

Hour of Service Changed.—For the winter months the hour of evening service at the Church of Our Lord, on Humboldt Street, will be changed to 7 o'clock instead of 7:30 as hitherto, commencing to-morrow.

Lantern Talk on Korea.—Dr. J. Knox Wright, B.C. District Secretary of the Canadian Bible Society, will give an exhibition of finely colored lantern views in connection with a lecture to be delivered on Monday evening in Christ Church Cathedral schoolroom. "China—The Antiquity of the East" is the title of Dr. Wright's lecture, and his unique assortment of lantern slides includes remarkable views of the cities, temples, tombs and rivers of the fascinating country. The lecture will begin at eight o'clock and is open to all.

It is said that music is 50 per cent. of a movie entertainment. In the statement, no particular movie house is mentioned. Surely it does not apply to all movie entertainments.

CONGREGATIONAL CHURCH

Corner Quadra and Mason. A Friendly Church. Pastor, REV. W. D. SPENCE, 551 Empress Ave. 11 a. m.—"MONEY AS POWER."

APPOINTED CHURCH SOLOIST

MISS OLIVE DETTLOR

who has been appointed contralto soloist at the First Presbyterian Church, has had a varied and interesting musical career in the East. A graduate of the Toronto College of Music, Miss Dettlor is experienced in oratorio, mixed and ladies' quartette work. Prior to coming to Victoria she spent some years in Regina, being contralto soloist at the Metropolitan Methodist Church for one year, and in a similar capacity at the Knox Presbyterian Church. Miss Dettlor also gave freely of her talent in various patriotic causes, singing frequently at concerts in military hospitals and convalescent homes, and treasures many warm letters of appreciation for her work in this direction. She will doubtless prove an invaluable acquisition to the First Church choir.

ST. AIDAN'S HOLDS ANNIVERSARY SOCIAL

Rev. David Lister Formally Welcomed Last Night by Congregation

St. Aidan's Presbyterian Church, Mt. Tolmie, held an enjoyable social last night, commemorative of the anniversary of the founding of the church twenty-five years ago, since when the work of the church has progressed smoothly and with success. A number of the congregation who saw the opening of the church and are still among its most active members were present last night, including Mrs. G. E. Davidson, Miss M. Irving, R. C. McRae, A. Glendinning and J. Taylor. Mr. Taylor gave a short but interesting history of the church, enumerating the various ministers who have held the charge. A splendid programme was rendered, and occasion was taken formally to welcome the new incumbent, the Rev. David Lister and his family. Mr. Davidson gave the address of welcome, his sentiments being heartily endorsed by the gathering. The ladies of the congregation attended to the needs of the inner man in most satisfactory fashion.

In conjunction with the social, the Women's Missionary Society of the church also held their annual thanksgiving meeting. Mrs. Davidson, the president, and Rev. Mr. Lister gave brief addresses and sacred solos were rendered by Miss E. Lindsay and J. Taylor. The thanksgiving offering proved to be considerably in excess

COLUMBIA WOMEN MET YESTERDAY

Diocesan Board Auxiliary Heard Interesting Reports and Discussed Matters.

An unusually large and representative attendance of members marked the monthly board meeting of the Columbia W. A. yesterday, the Hall of the Rectory of St. Paul's, Esquimalt, being taxed to its utmost capacity to supply seating accommodation.

Many Reports. The sessions comprised interesting reports from seventeen senior and nine girls' branches, as well as the presentation of two life memberships, made by Mrs. Schofield at the afternoon session. The two members thus honored were Mrs. Colgarrap, of St.

Saviour's W. A. and Mrs. McElfrish, treasurer of St. Mark's W. A., the members of their respective branches thus marking their appreciation of many years of faithful service.

The Rev. Baugh Allen gave the noon address, and the speaker at the afternoon session was Mrs. McCrea, who gave an admirable address on work among the Hindus of British Columbia.

A Quiet Day. A quiet day for all church women has been arranged to be held at Christ Church Cathedral, December 2, commencing with a service of Holy Communion at 8 a. m. Addresses will be given during the hours between 10 a. m. and 5 p. m. by Dr. W. W. Craig, of Christ Church, Vancouver, and a full attendance of church members is urged. Breakfast will be served in the Cathedral school, and the schools will be at the service of members during the lunch hour as a quiet retreat. Members were reminded of St. Andrew's Day, November 30, being the day set apart by the W. A. for continuous intercession for missions; as the date falls this year on a Sunday, there will only be the hours between services to be arranged for by the Parochial W. A. Branch in each parish.

Delegates Chosen. Delegates were chosen to attend the inter-church forward movement conference to be held in Vancouver on December 4, when Dean Tucker and Dr. Westcott will give addresses. Mrs. Belson and Mrs. Schofield hope to be present, and Mrs. Forbes and Mrs. Watson offered to represent the Diocesan Board.

Albert Bay Appeal. Mrs. Heatherbell, Dorcas secretary, made a very urgent request for Christmas gifts for the boys and girls at the Alert Bay Schools. Also for Rev. A. Antles' Travelling Christmas Tree, and for the three hospitals of the Columbia Coast Mission. As the boat for the north leaves December 10, these bales must be packed no later than December 8, and all contributions are asked for by that date, to be left at the Christ Church Cathedral Schoolroom.

A standing vote of sympathy was passed with Rev. Cooper Robinson and Miss Lucy Robinson in the sad and unexpected death of Mrs. Cooper Robinson in Toronto recently.

GEE, I'M HAPPY MY CATARRH ALL GONE Suffered Like a Boob For Years—Got Relief in Ten Minutes.

arranged for by the Parochial W. A. Branch in each parish.

Catarrhzone Did Cure That's the way hundreds of the boys around town are talking since Catarrhzone got into the drug stores. Nothing on earth like Catarrhzone to really cure Catarrh, Colds or Bronchitis.

"Catarrhzone"—it isn't a drug—it's a healing vapor full of pine essences and healing balams. It spreads over the surfaces that are weak and sore from coughing. Every spot that is congested is healed—irritation is soothed away, phlegm and secretions are cleaned out, and all symptoms of cold and Catarrh are cured. Nothing so quick, so sure, so pleasant as Catarrhzone. Beware of dangerous substitutes meant to deceive you for genuine Catarrhzone. All dealers sell Catarrhzone, large size which lasts two months price \$1.00; small size 50c; sample size 25c.

Someone has said that music is at least four-fifths science.

At Cathedral To-morrow. The Dean is announced as the preacher at both morning and evening services to-morrow in Christ Church Cathedral, of which church he is rector. Choral evensong at 7 o'clock, Nov. 23.

Hour of Service Changed.—For the winter months the hour of evening service at the Church of Our Lord, on Humboldt Street, will be changed to 7 o'clock instead of 7:30 as hitherto, commencing to-morrow.

Lantern Talk on Korea.—Dr. J. Knox Wright, B.C. District Secretary of the Canadian Bible Society, will give an exhibition of finely colored lantern views in connection with a lecture to be delivered on Monday evening in Christ Church Cathedral schoolroom. "China—The Antiquity of the East" is the title of Dr. Wright's lecture, and his unique assortment of lantern slides includes remarkable views of the cities, temples, tombs and rivers of the fascinating country. The lecture will begin at eight o'clock and is open to all.

It is said that music is 50 per cent. of a movie entertainment. In the statement, no particular movie house is mentioned. Surely it does not apply to all movie entertainments.

SAANICH WILL NOW ACT WITH ESQUIMALT

Joint Effort to Secure Re-opening of Gorge Bridge; Cemetery Question

"The Government exercises jurisdiction," but claims none," said Councillor Watson at the meeting of the Saanich Council last evening, when the Reeve reported that steps should be taken at once to reopen the Gorge Bridge.

He recommended that a committee should be appointed to confer with the Esquimalt authorities, and that a deputation should wait on the Minister of Public Works and ask for some settlement of the question. Reeve Jones stated that not only must the bridge be repaired, but some extension and widening of it was necessary.

Councillor Dooley seconded the motion of the Reeve, and the committee appointed will be composed of Messrs. Henderson, Pim, and Graham.

As already stated, Esquimalt Council has taken a somewhat similar action.

Cemetery Question.

Arising out of an application by George Rogers, in connection with the subdivision of property through which Lake Road will run when it is extended to Royal Oak, the Council found itself in a discussion of the cemetery question. It transpired there was already an application for a burial park lodged with the Council, and Mr. Rogers, who appeared in person, wanted an expression of opinion as to how the Council would view an amended scheme of this character.

In view of the fact that the Council's approval must be secured before any new burial ground is opened in the municipality, it was necessary to make the application before the formal application is lodged with the Provincial Department of Health.

The Council renewed its expressed opinion that burial grounds should be owned by the municipality, and then named a committee to take the subject up with the city, Esquimalt and Oak Bay. The Reeve appointed to the committee Councillors Watson, Terrell, and Dooley.

V. and S. Rails.

The Council decided to give summary notice to the contractors for the removal of rails on the Victoria and Sidney Railway that unless the surfaces at road crossings where the rails have been removed are put in a good condition at once, the Council will do the work and charge the amount to the contractors.

Intimation was received from the Canadian National Railways that special care would be taken at the Quadra Street crossing on account of the large amount of traffic on that thoroughfare. Formal authority was given by the Council to allow the architect, Major Spurgin, under the soldiers' housing scheme to act for the Co-operative Contract Company. The latter company is the one organized to build houses and take contracts in the municipality. It was specified that his time so taken up should be paid by the company, and thus the soldiers' housing cost would not be charged with an extraneous item.

The Mayor reported that so satisfactorily had the cost of the fourteen houses building under the housing scheme progressed that he hoped to be able to pay for yet another house out of the \$45,000 of Saanich's appropriation for 1919.

Notice was given of an application to the Giant Powder Co. to purchase its waterworks system at Cadboro Bay.

AMERICAN COLONEL GIVES FREE ADVICE TO RHEUMATICS

SAYS IT'S SHEER FOLLY FOR
ANYONE TO SUFFER
THESE DAYS.

Rheumatism can't be cured so long as your system is weak and run down. You must first build up and get strength to fight off the disease.

Ferrozone cures because it builds up, because it renews the blood and dissolves the Uric Acid and the poisons that cause rheumatism.

It is proved right here that Ferrozone does cure.

Col. H. M. Russ, of Edwards, St. Lawrence Co., one of the fine old heroes of the Civil War, was completely restored by Ferrozone. Read his statement:

"I couldn't get around without a cane, and then only with difficulty. 'Rheumatism' took complete control of my limbs.

"Suffering was more intense than hardships on the battlefield.

"When my doctor had done his best I got Ferrozone.

"Then came a quick change.

"Ferrozone gave me comfort at once, eased the pain and took the stiffness out of my muscles.

"I am well to-day. Ferrozone cured me completely. I can jump and run like I did forty years ago."

Be sensible about your case. If your present medicine is useless give it up.

Don't experiment again. Ferrozone is known on all sides to be a cure that does cure. Why not get a supply to-day. The sooner you begin Ferrozone the quicker you'll get well.

Price 50c. per box or six for \$2.50, at all dealers, or direct by mail from The Catarrhose Co., Kingston, Ont.

CLEANING CHIMNEYS.

To the Editor.—I should think that three or four returned soldiers would do well to take up cleaning chimneys as an occupation. To-day one neighbor tells me that the cleaner she had applied to was quite unable to fix a date when he could attend at her house, and another friend states that after waiting for three weeks for a "sweep" she phoned him this morning and was informed that he could not promise to do the cleaning this side of Christmas! In Victoria, too, the fees charged are not low.

SOLDIERS' BONUSES.

To the Editor.—Will you permit my views as a working man and citizen re the above subject? While I most heartily agree with the soldiers that something must be done for their re-establishment, it becomes a very complex question as all seem to agree that the returned man and civilian

must be considered together and each given fair play. Without doubt the civilian will have to foot the bill because you might as well try to touch the heart blood of the present Government as touch the profiteers' pockets. Therefore, a basis must be found whereby the soldier will get justice without crippling the poorer classes, who will have to meet this obligation if it is carried out, as undoubtedly it will, even if it should not amount to the present expectations of the soldiers.

How would it do to have some scheme as underwritten as a basis in granting bonuses?

Suppose the pay of the soldier as a civilian at the time of enlistment on September 1, 1914, was \$4 per day, from September 1, 1914, to November 12, 1918, would be about 218 weeks, or 1,526 days, which at \$4 per day would amount to \$6,104 which he might reasonably have expected to have earned had he remained at home. From that fails to be deducted his soldier's pay of \$11.10 per day, price of food, clothing, all payments made by patriotic or other funds, bonuses, vocational training and payments since the cessation of hostilities—these items I am unable to compute, but that could easily be ascertained from the military authorities.

That is only one phase of the question. There are those who threw up their business or ranch for next to nothing. These losses should be computed and paid, not on the profits that might have accrued during their absence, but the actual price at disposal. This would enable him to re-establish himself in business as formerly.

Then there comes the widow, the fatherless and the orphan, as also the disabled or totally disabled and their dependents. A liberal allowance should be made to them so that they could live in all decency, not a mere pittance on which to exist.

Taking the above as a basis, I think a scheme could be evolved whereby the soldier who joined up would be put on as good a footing as the civilian who remained at home.

I should feel very glad if some one better versed on the subject would give us a closer calculation so as to see how this scheme would work out.

A. RADFORD.

48 Logan Avenue.

CITY ENDORSES WATER SCHEME FOR SAANICH

Gives Formal Support to Efforts by Development Association

The Victoria City Council yesterday formally endorsed the proposed scheme for the extension of the city's water service to the Gordon Head and fruit district of southern Saanich and gave its sanction to the activities of the Victoria and Island Development Association to bring about the extension.

Carl Pendray, president, and W. A. McAdam, commissioner, of the Association, appeared before the aldermen and asked for an expression of their attitude.

"If the city of Victoria has a lot of water of no use and Saanich requires this water, there should be some effort to get the two bodies together," said Mr. Pendray. "What we want to know is, does it meet with the approval of the City Council for us to go on with this so that it will benefit the city of Victoria and the whole surrounding district? It is a good deal of work to get the details arranged and unless the city guarantees that it is satisfied with our efforts it would not be worth while for us to go on further."

"These gentlemen ought to know that this City Council is in sympathy with this scheme of irrigation that is going to improve the conditions of the surrounding country," said Alderman Johns.

Alderman Cameron said the aldermen were certainly in favor of the scheme as promoted by the Association.

"We are heartily in favor of supplying water to any part of Saanich that will increase production there," said Alderman Patrick. "But we should not give the water for nothing. The cost should be based on the ability of Saanich to pay as the waterworks cost the city a lot of money. We should not consider the charge of one cent for a thousand gallons."

The Council voted unanimously to endorse the scheme.

---The Chinese Junk

SAILING the Yellow Sea—sometimes the "Jolly Roger" boats of river pirates—these Chinese junks, after many centuries' use, are found to be the most enduring of anything afloat. In them the Chinese crossed the Pacific, discovering America long before Columbus. For centuries this Chinese method of preserving wood has remained a mystery, and only in recent years has the Occidental discovered it to be in the application of the oil of a nut grown in Northern China.

To-day, this oil forms the base of BAPCO FLOOR VARNISH. With it has been combined one of the most remarkable minerals known to modern chemistry—a fossilized gum found in the Aspidopods. This gum, when melted together with China Nut Oil can never again be affected by heat, acid, water, oil, alcohol, etc. Thus is it any wonder that you can now test by boiling for 20 minutes, surfaces treated with BAPCO FLOOR VARNISH, without injury.

And its heel and mar resistance is just as remarkable; while its clear, glassy transparency "brings out the grain" in the wood—beautifying your floors, furniture and sidings, etc., in such a manner as will win your hearty admiration. Tough and elastic, withstanding vibration, BAPCO FLOOR VARNISH may be had in natural; also in four colors—varnish and stain, two in one. Your dealer can get it for you.

INCORPORATE INSTITUTE

Gratifying Results Attending Formation of Provincial Arts and Craft Society.

There is every likelihood that the Island Arts and Crafts Society will amalgamate with the Provincial Arts and Crafts Institute, which is now being organized in this city. A meeting of the provincial institute was held last night and the committee which was appointed to interview the Island organization with a view to amalgamation, reported very favorably. At the next meeting of the Island society the question of affiliation will be approved and delegates to the provincial organization will be selected.

A committee composed of Mrs. Waddington, Miss Agnew, Messrs. Hosie, Shallocross, Eldridge, Gilmour, Forsythe, Bamford and Dr. Hasell was appointed to draft articles of incorporation of the Provincial Arts and Crafts Institute.

Ask Your Druggist For Dr. Miles' Calendar For 1920

IT is FREE and the best large-figure calendar published. It gives the weather forecast for each day in the year, also time of sunrise and sunset and phases of the moon. "An exceptionally complete and useful calendar!" That's what everybody says. The edition is limited. It is therefore very important that you call early so that you will be sure to get this splendid free calendar at the beginning of the year.

Just go to your druggist, tell him your name and address, and that you want Dr. Miles 1920 Calendar. He will do the rest—FREE.

ROBERTSON PACT NOT RECOGNIZED

Employers Decline to Pay
Latest Award Provided For
in War Agreement

Declining to admit that the Robertson agreement is now operative the Victoria and Mainland employers who were party to the industrial pact, with the exception of the Foundation Company of B. C., Ltd., and the Navy Yard have refused to make the wage adjustments according to the findings of the official wage adjuster under the provisions of the war agreement. The employers, however, are prepared to make wage awards along the lines of the Robertson agreement through an official of their own choosing who will bring down his findings based on the cost-of-living figures in the Labor Gazette. Under the Robertson pact, Adjuster Macdonald assessed 40 per cent. for clothing, etc., which figures were not included in the Gazette. The employers decline to accept the belated wage award made by Fair Wage Officer Bulger during the absence of Adjuster Macdonald retroactive from September 1. It is unlikely that the latest award of 1.37 cents will be paid by the employers, who decline to be governed by the provisions of the Robertson agreement. It is likely that a meeting between the employers and labor will be arranged which will result

CHERBOURG PORT OF CALL.

Cable advices have just been received in New York that the Cunarder Mauretania has inaugurated the use of Cherbourg as a Cunard westbound port of call on the Southampton-New York route. She is expected to dock in New York November 21 with a passenger list of over a thousand, including Lord Leverhulme and Madame Lusitana Tetraxini.

TO LAUNCH FERRY.

The launching of the 90-foot shallow-draft steel ferry for the Fraser River by Yarrow, Ltd., will take place on Monday or Tuesday.

GENERAL PAU HERE TO LOAD EQUIPMENT

American-built Wooden Craft
Has Had Checkered
Career

After taking aboard French equipment from the Foundation Company's yard at Tacoma the French wooden steamship General Pau has returned to this port.

The General Pau is now moored at the Ogden Point basin, where she will load the French Government's equipment which has been dismantled at the Foundation Company's construction yards here. According to Foundation officials the removal of this plant will in no way impair the efficiency of the company's local plants.

The comparatively short career of the General Pau has been an eventful one. She was built by the Anderson Shipbuilding Company on Lake Washington and was acquired by the French Government while under construction.

When off Cape Flattery on her maiden voyage to Europe the General Pau's boilers went ashore in the rain and the ship was forced to put into this port for repairs. After the settlement of a dispute as to whether the builders or the owners were responsible for the cost of making the ship seaworthy, a contract was placed with Yarrow, Limited, for the installation of two new Scotch marine boilers and other repairs.

This contract was recently completed and after lengthy delay the General Pau was again put into commission and dispatched to Puget Sound.

The General Pau will be here for about two weeks loading, when she will steam for France via the Panama Canal.

Interest aroused in California excursion. The seventh annual British Columbia-California excursion arranged by Paula Pinal and Travel Bureau has all the earmarks of success, according to W. R. Dale, Great Northern agent here. From the inquiries instituted and the number of reservations already made there is every indication that the excursion will supply its full quota to the tourist excursion to sunny California. The rail excursion will be made over the Great Northern and Southern Pacific, special excursion trains leaving Vancouver, December 16 and January 7. The final return limit of the excursion tickets is April 30.

YOUNGSTERS!

Need "Cascarets" when Sick,
Bilious, Constipated.

When your child is bilious, constipated sick or full of cold; when the little tongue is coated, breath bad and stomach sour, get a box of Cascarets and straighten the little one right up. Children gladly take this harmless candy cathartic and it cleanses the little liver and bowels without griping. Cascarets contain no calomel or dangerous drugs and can be depended upon to move the sour bile, gas and indigestible waste right out of the bowels. Best family cathartic because it never cramps, sickens or causes inconvenience.

COMPLETELY GRIPPLED

Terrible Experience of Mr. J. Harrop
It is seldom that anyone who has been continually exposed to every weather condition does not contract some form of Kidney or Rheumatic trouble. In many cases, cold, settling in the kidneys, so weakens these important organs that they are unable to filter the waste and poison out of the blood. The latter is carried throughout the body, causing uric acid to accumulate in the joints, with consequent rheumatism, stiff joints, swollen ankles, lumbago, sciatica, neuralgia, constipation, torturing pains in back and side and head. These ills can all be made right. Gin Pills give quick, certain and sure relief. Read what Mr. J. Harrop writes to us:—

"I have been crippled up so completely that I could not stand. Work was out of the question. A few doses of Gin Pills put me right. I cannot praise Gin Pills too much, and every home should have a box."

Gin Pills can help you. If you suffer from backache, or have that dreadful feeling of lassitude, with floating specks before the eyes, highly-colored urine, stone in the bladder and general debility, get Gin Pills at once. At all druggists or dealers, 50c. Money refunded if you are not relieved. A sample large enough to demonstrate its value, free on request.

IMPERATOR TURNED OVER TO BRITAIN

U. S. Shipping Board Releases
50,000-Ton German
Steamship

Washington, Nov. 22.—With the delivery of the steamship Emperor to the British Government in New York yesterday the Shipping Board loses possession of one of the largest ships afloat. The Leviathan, the other liner, is still owned by the Shipping Board and is undergoing repairs before being put in the Atlantic service.

Contrary to popular opinion, the largest ships are not the most profitable, officials of the board said today. It will cost \$4,000,000 to \$4,500,000, they said, to put the Emperor in commission again, and considering the tremendous cost of operation the return of the liner will not net as much as the proportionate profits from a medium-sized vessel.

Transfer of the seven other former German liners now held in New York to Great Britain, Chairman Payne said, depends on the disposition of the American-owned tankships in custody in Britain. The Shipping Board has proposed to the Supreme Council, Mr. Payne said, that the tankers be delivered to the United States and the former German ships be turned over to Great Britain until the ultimate ownership is decided.

STEAM SCHOONER BRINGING CARGO HERE FROM 'FRISCO

R. P. Rithet & Co., local agents for the Pacific Steamship Company, have been advised that the steam schooner Catherine D. sailed from San Francisco yesterday for Victoria with 500 tons of freight. Previous advices stated that the steamship Admiral Sebree was due to leave San Francisco November 25 with 500 tons of salt for Victoria. The agents consider it likely that the Catherine D. has been substituted for the Admiral Sebree.

INTEREST AROUSED IN CALIFORNIA EXCURSION

The seventh annual British Columbia-California excursion arranged by Paula Pinal and Travel Bureau has all the earmarks of success, according to W. R. Dale, Great Northern agent here. From the inquiries instituted and the number of reservations already made there is every indication that the excursion will supply its full quota to the tourist excursion to sunny California. The rail excursion will be made over the Great Northern and Southern Pacific, special excursion trains leaving Vancouver, December 16 and January 7. The final return limit of the excursion tickets is April 30.

'FRISCO SHIPYARDS TO REOPEN NOVEMBER 24

San Francisco, Nov. 22.—The shipyards of the San Francisco Bay region will open on November 24, at 8 a. m. after having been closed since October 1, by strike conditions, the California Metal Trades Association, the organization of shipyard operators announced here today.

NAVAL VETERANS.

A meeting will be held in the Canteen, Esquimalt at 8 o'clock tonight for the purpose of organizing a branch of the Naval Veterans' Association. All men who are serving, or have served under the White Ensign, men of the ocean going mercantile marine or nurses who have served in the naval service are invited to attend.

INQUIRY HELD INTO GERMANIC STRANDING

Master Was Not in Control
When Vessel Struck
Reefs of Bic

Montreal, Nov. 22.—The stranding on the reefs of Bic on November 7 of the steamer Germanic, was the subject of inquiry yesterday at the Dominion shipping office by Captain L. A. Demers, Dominion Wreck Commissioner, with whom sat Captain Charles Lapierre and Commander C. J. Stuart, R. N. R., as nautical assessors. The ship is still on the reefs, having been abandoned, and the officers and crew were brought down to Montreal for the inquiry. The testimony of the officers heard tended to show that, at the time of the stranding, the captain was not in control of his ship as he was sick. The first mate, who took charge, stated that the captain had been drinking and that his actions generally had caused much commotion on board. In the anxiety of the mate to get the pilot boat and struck the reef, which was not seen by the lookout or any one else until they were right up to it. At the close of the inquiry, the captain admitted having taken one drink during the day as he was suffering from rheumatism. The decision of Captain Demers will be given next week.

WILL BE LEADER OF NEW MOVEMENT

A woman of dynamic force of character, she soon became recognized as a national figure, famed—and equally defamed—throughout England and the entire world. She was tried and convicted many times on various charges ranging from obstructing traffic to conspiracy against the Crown, though all her actions were the outcome of her tireless devotion to the cause of "votes for women." Unbroken in spirit, she always resorted to the hunger strike when imprisoned, and for years baffled the London officials, who were compelled to release her.

England and the entire civilized world gasped when at the outbreak of hostilities in 1914 Mrs. Pankhurst declared a truce between the Suffragettes and the Mother Country. Her actions and the actions of her co-workers won the highest admiration from all the world, and her splendid loyalty in the time of national crisis was one of the main reasons for the change in anti-suffrage sentiment.

CAPT. A. HOYLE who will devote his whole time as specialist of the Department of Young People's Work in connection with the First Presbyterian Church.

VANCOUVER CONSTABLE SHOT IN THE LEGS BUT MADE ARREST

Vancouver, Nov. 22.—Police Constable Barker was shot in the leg early this morning when he went to arrest an alleged holdup man who later gave his name as J. McDonald. The shooting took place in a lane off Main Street, after a Chinaman had informed the officer that a man had attempted to hold up two of his countrymen and that they had cornered him. Barker rushed his man after being shot and succeeded in arresting him.

JURISDICTION PLEA REJECTED BY COURT

Vancouver, Nov. 22.—The contention advanced before the Court of Appeal by J. A. Russell in the case of Gus Dahlin, sentenced for selling liquor, that the Province has no right to impose imprisonment upon summary conviction under the Prohibition Act, was rejected by the court yesterday, when the appeal was dismissed. Mr. Russell argued that in matters of criminal law and criminal procedure the British North America Act gives exclusive jurisdiction to the Federal Government.

TWO ADMIT THEY KILLED DETECTIVE

San Jose, Cal., Nov. 22.—Paul Freeman, arrested with Floyd McClure, aged twenty, last night as an automobile bandit, made a statement early today in which he admitted complicity in the killing of Anton Schoembs, detective sergeant, in San Francisco Sunday night and substantiated a statement by McClure in which he said he was the one who killed Schoembs, the sheriff's office announced here today.

SINN FEINERS ARE GIVEN SENTENCES

Belfast, Nov. 22.—In the Crimes Court of Armagh yesterday, Edward O'Connell, Sinn Fein organizer for Ulster; Edward Hughes, a farmer, and William O'Brien, a Galway University professor, all charged with unlawful assembly at Tynan in October, and soliciting funds for the Dail Eirann (Irish Parliament), created a scene by declaring that they did not recognize the authority of the court. The accused men were carried into the court. Mr. Donnelly said the Dail Eirann was a legitimate body in the eyes of Irishmen, and the only body that had the moral right to legislate for or to rule the Irish people. "Your authority," he added, "is that of a usurper, backed by the military, machine guns, tanks and rifles."

Mr. O'Brien made a similar statement. Mr. Hughes declared that he was born a Sinn Feiner and would die one.

Donnelly and O'Brien each were sentenced to three months' imprisonment, while Hughes received a two months' sentence.

"CLASS CO-OPERATION VERSUS CLASS WAR"

Victorians will have opportunity on Thursday evening next, November 27, of hearing Mrs. Emmeline Pankhurst, the world-famous advocate of women's rights, speak on topics of vital interest and timely appeal. She is to lecture at the Royal Victoria Theatre under the auspices of the Women's Canadian Club, and her subject will be "Class Co-operation versus Class War." In the light of recent events, her message carries more than the usual interest and it is anticipated that the theatre will be filled to capacity with men and women who desire to keep in touch with matters of the day.

Mrs. Pankhurst is one of the unique characters in history. Her devotion to Woman Suffrage began when she attended her first "Votes for Women" meeting at her home in London, Manchester, England. Later she became Poor Law Guardian in England, and while working in this field first realized the dire need of enfranchisement for women as a means for bettering conditions in the home and industrial fields. After several years' work in the Poor Law Guardian office she organized and headed the Woman Suffrage and Political Union, which became the great Women's Party in the long fight for equal rights in England.

A woman of dynamic force of character, she soon became recognized as a national figure, famed—and equally defamed—throughout England and the entire world. She was tried and convicted many times on various charges ranging from obstructing traffic to conspiracy against the Crown, though all her actions were the outcome of her tireless devotion to the cause of "votes for women." Unbroken in spirit, she always resorted to the hunger strike when imprisoned, and for years baffled the London officials, who were compelled to release her.

England and the entire civilized world gasped when at the outbreak of hostilities in 1914 Mrs. Pankhurst declared a truce between the Suffragettes and the Mother Country. Her actions and the actions of her co-workers won the highest admiration from all the world, and her splendid loyalty in the time of national crisis was one of the main reasons for the change in anti-suffrage sentiment.

URGE CONFERENCE ON SOLIDER TAXES

Commission Hears of Serious
Condition; Tax on Unearned
Increment Discussed

The question of tax arrears on property owned by soldiers dependents and by soldiers themselves was introduced by H. W. Hart, of the G. W. V. A. at the closing session of the Municipal Revenue Commission here yesterday afternoon.

In many cases, Mr. Hart stated, soldiers overseas working for \$1.10 a day had not been able to keep up with their taxes, on their return they were helpless. Likewise widows, often faced with heavy mortgages, would not hope to pay up arrears. The condition was growing worse every day and, in order that nothing might happen that would be bad for the country something should be done, and done quickly. As to whether it was a question for the Province, he did not know, but he advised a conference of Provincial municipal and possibly the Federal authorities for consideration of this question alone. Remedy on this matter he thought, would go a long way to remove existing unrest, and would be part of a reconstruction period.

The idea of a conference was supported by Comrade O'Halloran, of the G. W. V. A. Delay, he thought, might prevent the results desired.

The question of taxing the unearned increment was discussed by J. J. Shallercross. It was a question whether, in relieving the overburdened land, taxes should be levied on the profit made by the land, he observed. In Great Britain, he recalled, all land had been valued for this purpose. The Province already possessed machinery to carry out such a valuation. The land would be valued according to what it would bring on the open market. It would, of course, be unfair to inaugurate such a tax until the revenue was not derived almost entirely from land.

"It is a good principle that a man, matter or thing that causes expense should pay it," remarked John Dean. "Well, then, the people who actually occupy the lands should pay. If there were only vacant lots there would be no need of streets, sewers and other improvements."

Mr. Dean favored a long period of time in which the delinquent tax payer could pay his taxes. He thought that it might be advisable for the Province to guarantee a loan to permit the city to meet its debentures.

Mr. Dean declared that rents were lower in Victoria than in thirty-two cities from which he had gathered information. No man who knew facts would build houses for rent in Victoria as they were not profitable. Moreover, Mr. Dean quoted figures to show that public services in Victoria cost far more than in other cities.

APPEAL TO OTTAWA ON ESQUIMALT ROAD

City Thinks Dominion and
Provincial Governments
Should Pay

The need for the repair of Esquimalt Road, between Point Ellice Bridge and the city limits, is so serious that the City Council at yesterday afternoon's session decided to take the question direct to Ottawa and place it in the hands of the Hon. S. F. Tolmie, Minister of Agriculture.

At the same time, because the road is bordered by Provincial Government property on both sides, the four city members for the Legislature and R. H. Pooley, M.P.P., were asked to take it up with the Provincial Government and the departments over the Bay and to use every endeavor to get something done.

"The Dominion Government is interested in having a good road there, and should pay a portion of the cost as it is the main thoroughfare to the Esquimalt dockyard and the Work Point militia headquarters," said Alderman Sargent. "The Provincial Government also owns property on both sides of the road, and the usual procedure is that such property bears part of the cost of the roadway."

City Engineer Preston reported that the macadamized part of the road is in an impossible condition, said that repairs did not last more than a few hours, so heavy was traffic, and asked for instructions.

Alderman Clark said it was a waste of money to do anything more to the road until a hard pavement is laid.

Mr. Preston was instructed to report on the best thing to be done with the road to title over the wet season until Government action is taken.

Iron saucapans must be thoroughly dried before they are put away after being washed. The secret of success lies in using very hot water, and if the saucapan is wiped with a well-wrung dishcloth no further wiping is required. A little soda added to the water will clear off any grease that clings to the side, and should the saucapan have been used for any strong-smelling food it should be stood in the open air for a little while to sweeten it and remove the smell.

"BE MASTER OF YOUR HEALTH"

---Dr. Chase

Make your blood rich—strengthen your nerves, increase your vitality and build up your system generally by using

Dr. Chase's Nerve Food

You may be skeptical of what any medicine will do for you. But you are human—your vitality depends on an abundance of rich, red blood. Dr. Chase's Nerve Food supplies the ingredients from which new blood is created, and is bound to help you in the same way that it helps many thousands of others.

HERE IS THE PROOF

Port Haney, B.C.

Mrs. H. Stinson, Port Haney, B. C., writes: "I have been very sick with nervousness and this trouble seemed to settle in my head. I had nervous headaches, numbness in my legs and arms, and in my hands and feet. I had a pain around my heart all the time. I read in Dr. Chase's Almanac about the Nerve Food, and the first box I took helped me. This treatment has been of great benefit to me, and it is the only thing that has done me any good."

Sexsmith, Alta.

Mr. Stephen D. Edwards, Sexsmith, Alta., writes: "My nervous system was all run down, and I also suffered with my liver and kidneys. I could not sleep at night, and got up in the morning feeling tired and unrefreshed. I used to feel as if I wanted to die. In reading Dr. Chase's Almanac I noticed the number of letters from people who had been benefited by the use of Dr. Chase's Nerve Food and Kidney-Liver Pills, so I commenced using this combined treatment. It has done me a great deal of good for I am now sleeping well and do not have that horrid feeling I used to have in the mornings. I am gaining in weight and feel much better generally."

Calgary, Alta.

Mr. G. H. Dick, 444 Twelfth St. N. W., Calgary, Alta., writes: "When I was eighteen years old I was given up by all the Doctors in my town as a hopeless case of heart failure. Friends advised me to use Dr. Chase's Nerve Food, which I did, and now am totally cured and have no trouble with my heart at all."

Loverna, Sask.

Mr. Ralph A. Roberts, Loverna, Sask., writes: "I feel it my duty to testify to the world of good that I have derived from the use of Dr. A. W. Chase's Nerve Food and Kidney-Liver Pills. In December, 1917, I lost all appetite, failed to gain weight, became very shaky, and, in fact, had given up all hope of recovery. For some time before this I had been greatly troubled with constipation, which kept getting worse. As my nervousness increased, I was fast becoming a total wreck, until doctors and their drugs were sending me to my grave at the age of twenty-nine. I tried everything that anybody would mention with the hope of gaining some strength and health, but always with the same results."

"At last one day as I lay in bed, I was reading Dr. Chase's Almanac, and became much interested in the words of praise from other afflicted persons who had tried Dr. Chase's remedies. I decided to give them a trial, and after three months of constant use of Dr. Chase's Nerve Food and Dr. Chase's Kidney-Liver Pills, which I took in connection with the Nerve Food, my appetite came back. In those three months I gained over 20 pounds, my bowels were back to normal movement each day, and the constipation was no more. I could not feel better than I do. I feel that the good I have obtained from the use of these medicines is invaluable, and I hope others may derive the same benefit. I would advise all to give them a thorough test, and use the same benefit, exactly as directed on every box. I shall always thank the inventor for the benefits I attained from the use of Dr. Chase's medicines."

Malakwa, B.C.

Mr. Henry F. Venn, Cebu Ranch, Malakwa, B. C., writes: "Dr. Chase's Nerve Food has restored my nervous system and given me new health. Having met with a severe accident seven years ago, from which I was unconscious and which left my nerves in a very sore plight. I was treated by doctors and consulted one of the greatest nerve specialists in England, but nothing seemed to do me any good. Hypophosphites, and in fact, all and every kind of nerve mixture almost every form was used, but never with more than temporary benefit. "But Dr. Chase's Nerve Food has acted very differently, for it has built up my nervous system until I feel like my old self again. If this medicine will do for others what it has done for me, I shall not regret having written this letter. I have recommended the Nerve Food personally to many and shall always esteem its great restorative value."

Killarney Lake, Alta.

Mr. Ernest Pace, Killarney Lake, Alta., writes: "I want to tell you how much good Dr. Chase's Nerve Food has done me. I suffered from severe headaches, from which I could get no relief. I went to a doctor and he gave me some pills, but they didn't do me any good. Finally I turned to Dr. Chase's Nerve Food, and am glad to say that two boxes completely cured me."

Dahilton, Sask.

Mrs. Amelia Dewhurst, Dahilton, via Quill Lake, Sask., writes: "I think it my duty to let you know the good Dr. Chase's Nerve Food has done for me. Two years ago this coming Spring, I was run down and had a nervous breakdown. I had severe headaches all the time and could not sleep at night. In fact, I was so bad that I could not walk, and I was glad to lie or sit still most of the time. One day I got hold of Dr. Chase's Nerve Food and, man, and was looking through it. I read of the good the Nerve Food had done for others, so I decided to try it for myself, with the result that I am now able to do my own work better, my headaches have left me and I sleep well at night. I think the Nerve Food is worth its weight in gold to me. I do not intend to be without it in the house in future. I can also speak well of the Kidney-Liver Pills and Linseed and Turpentine, for I have used them all."

Greenbrier, Sask.

Mrs. C. H. Christoffer, Greenbrier, Sask., writes: "It is a pleasure to me to write you in praise of Dr. Chase's Nerve Food. I suffered for over twenty years from rheumatism, neuritis, violent headaches and palpitation of the heart. My back ached, I could not sleep, and was always tired and nervous. I had taken many medicines of one kind and another, but never got anything to help me until I used Dr. Chase's Nerve Food. This did me more good than all the medicines I ever took, and I cannot say enough in praise of it."

(Endorsed by Mr. J. C. Bleich, Postmaster at Greenbrier, Sask.)

At this season almost everybody is in need of restorative treatment to keep up energy and vigor and to maintain health, strength and vitality. Everywhere people are talking about Dr. Chase's Nerve Food, because it seems to be exactly what is required in the great majority of cases to restore the run-down human system. Fifty cents a box, 6 for \$2.75, all dealers, or Edmondson, Bates & Co., Ltd., Toronto. The portrait and signature of A. W. Chase, M.D., are on every box.

What is This Nerve Food You See Advertised in all the Papers, Some Kind of Patent Medicine?

NOTICE

To Our Patrons and the Public

OWING to the present high cost of Coal, extra cost of lighterage and handling of same, we are preparing a standard size Lump Coal which we will sell delivered within the City Limits for \$12.00 per ton. This is screened Lump Coal at the MENES, NANAIMO, but not screened by ourselves at our wharf. This will be an excellent fuel for the furnace, grate or stove, and we will guarantee there will not be more than two to three hundred pounds of screenings to the ton. These screenings will be very economical fuel to the consumer for banking up the fires.

BOARD DISCUSSES LABORATORY ISSUE

Government Offers Hospital Equipment; Fuel, Food and Water Bills Soar

Facing the possibility of the Provincial Government setting up a Jubilee Hospital undertook to bear a portion of the expense of upkeep of a complete equipment which the Government has at present stored in the basement of the Parliament Buildings, R. S. Day, chairman of the Jubilee Hospital Board last night intimated to that body that something would have to be done or the hospital would find itself in competition with the Government's laboratory.

Mr. Day reported that Dr. H. E. Young, Provincial Health Officer, had conferred with him regarding a proposed laboratory maintained jointly by the Provincial Government and the hospital, the Government already being in possession of the equipment and that if the hospital did not care to co-operate the Government would set it up independently.

The Vancouver General Hospital has agreed to let the Government take over the laboratory there, the Government paying about \$8,000, or about half the cost of maintenance. The Board decided to await Dr. Young's written proposal in the matter before dealing further with it.

The New Annex.

Mr. Day stated that reports about the early construction of a new addition to the hospital for the accommodation of venereal cases was somewhat premature. He had given no undertaking that the ground would be available, nor had he discussed the matter in any definite manner, although it was realized by all that steps must be taken at once to deal with the scourge that was threatening the white race, and unless checked would mean that the white race is doomed. He was fully in accord with the idea of establishing such an institution but, at the same time, the newspapers had been premature in saying that everything had been settled and that construction would begin shortly.

Deaths H. C. L.

Members of the Board were greatly perturbed over the increasing cost of everything. In an effort to save something on the fuel bill two loads of coal had been ordered two weeks ago but if it could be secured at all it would be at the increased price. At any rate, delivery had not yet been made. The executive recommended that it would be advisable to have a scowload or more of coal dumped in the hospital grounds for future use, but George McGregor doubted if they could buy such a large quantity.

Last month's egg bill amounted to \$546 and five or six cases of eggs were consumed weekly, said Secretary Carver.

"I can't imagine who eats them," said Chairman Day.

It was finally decided that orders should be given that the use of eggs

WINNERS

Winners are just workers with a definite aim.

Which explains the success of the Victory Loan Campaign and the superiority of our service—our steadfast endeavor being for better work, better service.

Doubly-Saving and Double-Acting

No Baking Powder can be more efficient, more economical than this.

Paying a high price for a baking powder does not guarantee you the best. High prices are sometimes charged for the impression they make.

EGG-O Baking Powder

is doubly saving because it is sold at a fair price, and its double action—in the bowl and the oven—makes it a never-failing leavener.

Buying Egg-O in the larger sized tins is most economical for family use.

Always follow the directions—one level teaspoonful to one level cup of well sifted flour.

SUBMITS FIGURES ON SEWER COST

Clerk Cowper Presents Tentative Plan to Saanich Council

Anticipatory of the appointment of an engineer, Clerk Cowper filed plans with the Saanich Council last evening showing how he would meet the demand for sewers. These plans are based on the profits and data gathered when D. W. Johnston was engineer, and in no sense are binding, but were presented in response to a request for a report from Mr. Cowper on the matter.

He has made no provision for connection to the Northeast sewer, but sets aside a sum for the Northwest connection, and the extension of that system, as already determined with the city engineer.

He has figured on a much larger drainage acreage than any estimate hitherto filed. For the full scheme, covering the whole suburban areas contiguous to Victoria, his estimate is \$568,568, and for a reduced area a sum of \$288,000. The larger scheme, Mr. Cowper estimates, would serve a population of 17,000.

The plans filed have been prepared with great care and are in different districts according to contours. The whole question will receive fuller consideration when the subject is further taken up.

ALDERMEN ABSENT, BRIDGE MUST WAIT

Alderman Sargent Suspicious of "Whereas" Clauses in Agreement

Mayor Porter does not believe that aldermen should stop away from a council meeting when such an important matter as passing on the agreement of the city with the C. P. R. for the construction of the Johnson Street bridge is up. And the Mayor said so at the council meeting yesterday afternoon when he brought out the agreement for the council to pass on and found only five aldermen had turned up.

"This matter is important enough that you would think they would all be here," said the Mayor.

"This is a very important matter and we should not go ahead with it unless we have a full council," said Alderman Sargent.

Although the gathering yesterday was called specially to pass on the agreement which is supposed to be satisfactory to the city, action had to be postponed because half the council did not think it important enough to come around for.

Suspicious of "Whereas."

Before the matter was postponed, Alderman Sargent told the council that he was suspicious of the preamble to the agreement composed of a number of paragraphs beginning with "whereas." The alderman said these paragraphs had nothing to do with the agreement proper, which commenced a number of paragraphs further on. He objected strongly to the clause "whereas the city is desirous of constructing a railway bridge."

He asked whether the city was desirous of having a bridge over the harbor and said that these "whereas" clauses might be a trap the C.P.R. has placed for some advantage in the future.

Mayor Porter explained to the aldermen that persons who had dealt with such important agreements before knew that such preambles were customary although they had no effect on the general results of the agreement.

"These preambles are of no use there and they don't do any harm," the Mayor continued.

Alderman John Harvey said: "The preamble expresses our own desires."

Alderman Sargent declared that the C. P. R. must have drafted the preamble as it exonerates the railway company from any wish to enter the agreement and places it all upon the city.

The Alderman instructed City So-

Heitor Fringio to investigate all clauses in the agreement beginning with "whereas" and to be prepared at the next sitting of the council to give the aldermen proper advice on it.

THE FALL WEATHER HARD ON LITTLE ONES

Canadian fall weather is extremely hard on little ones. One day is warm and bright and the next wet and cold. These sudden changes bring on colds, cramps and colic and unless baby's little stomach is kept right the result may be serious. There is nothing to equal Baby's Own Tablets in keeping the little ones well. They sweeten the stomach, regulate the bowels, break up colds and make baby thrive. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

REV. J. G. INKSTER.

Old Professors and Young Converts

Sunday night in First Presbyterian Church, Mr. Inkster will deal, in a plain way, with conditions, as he finds them, after the Gypsy Smith Mission. Soloist: Miss Deller.

AUSTRALIAN TRADE COMMISSIONER HERE

D. H. Ross, Canadian Trade Commissioner to Australia, arrived in Victoria yesterday en route for his headquarters in Melbourne. Mr. Ross has been in Canada for some months, having been recalled with other trade

commissioners for a conference in Ottawa. He will return to Australia on the Niagara and will wait in Vancouver for the arrival of the liner.

Tickets for the Pankhurst Lecture in the Royal Victoria Theatre, November 27, may be obtained at Fletcher's Music Store, or from members of the Women's Canadian Club.
